

### AUSSIE TRAVELLER CURVED ROOF RAFTERS

Curved Roof Rafters have a dual purpose. They are mostly used to prevent the awning canopy from sagging & hence ensures water run-off. They are also good for keeping the awning fabric taught thus reducing wind flap. Awnings that flap can cause your RV to shake or even cause damage to the awning itself. Aussie Traveller has produced two types of telescopic Curved Roof Rafters - suiting most brands of rollout awnings. Please see the guide below to see how many rafters are recommended per awning:

AWNING SIZE	RECOMMENDATION
11' and under	1
12' – 16'	2
17' – 20'	3
21' and over	4

**ENDUROMATS**

Perfect for camping, these Australian made mats help to keep your RV cleaner. Small dirt particles, such as sand, fall through the mesh, leaving larger stones on top for easy removal. Made of a PVC welded fibre, Enduromats are strong & durable but not on the grass underneath! The mesh style fabric allows air to move beneath its surface allowing grass to breath. Non-slip & mildew resistant, the lightweight mat is easy to carry & store. Because nothing sticks to the Enduromat, minimal maintenance is required. To clean, simply shake the mat & then fold as per normal to put back into the bag. It is even UV resistant so it will maintain its colour for years. Enduromats come in two colours, green & black.
