

GUSTO DRS PRO

SPECIFICATIONS

- Mounts to the side of a caravan
- Able to pressurise a caravan in seconds
- Eliminates requirements for structural reinforcing and extensive waterproofing
- Creates more space for solar panels
- Compact and sleek design
- Aesthetically pleasing
- Operates when the van is stationary
- The compact design allows for fitment inside the standard internal cabinet
- Once installed, the device is concealed from the user
- Self-draining
- Not submersible

**A DUST REDUCTION SYSTEM
DESIGNED FOR 16FT VANS AND
UNDER INCLUDING CAMPER
TRAILERS AND HYBRIDS**

PREMIUM MATERIALS

- Plastics – all plastics exposed to sunlight will be ASA (similar to ABS, but with better UV resistance)
- Screw material – all fasteners are stainless steel
- Aluminium frame construction
- Water-resistant (ip 68 rated)

POWERFUL

- Power specs – 6 Amps Max current at 12VDC
- Fan can move a maximum air volume of 1000 cubic meters per hour
- Operating temperature between negative 40 and positive 105 Celsius

BENEFITS

With the Gusto DRS, you can enjoy a cleaner, healthier living environment, free from dust, allergens, and other pollutants that can cause respiratory problems and other health issues.

By reducing the amount of dust and dirt that enters your caravan or RV, the Gusto DRS can also help to extend the life of your interior furnishings and appliances.

GUSTO DRS PRO

INCLUSIONS

- 1 x DRS Pro unit
- 1 x Cabinet vent
- 1 x White Switch Panel
- 1 x Filter
- 18 Month Warranty
- Installation Manual

WEIGHT AND DIMENSIONS

- Caravan wall cutout size – 240mm x 240mm
- External – 320mm x 320mm square x 50mm protrusion from caravan wall
- Internal – 230mm x 230mm square x 170mm deep
- Internal vent – 200mm x 350mm, 30mm height
- Weight: 3.8kg (aluminium frame)

CABINET VENT SPECIFICATIONS

The Cabinet Vent is designed for side mounting on visible cabinet walls. It features angled fins which obscure the internals of the cabinet.

MOUNTING OPTIONS

- The unit can be installed on either side of the van (not the roof)
- Loosen 4 screws and use Phillips head to loosen cover plate (screws do not come out completely, saves them from getting lost)
- Rotate the front plate 180 degrees

FILTER SPECIFICATIONS

- The DRS Pro features an air filter design that reduces weight whilst optimizing airflow, durability and performance.
- It comprises of a rigid automotive-grade plastic frame with bonded Polyurethane seals.
- Easy installation and serviceability
- Washable filter
- Pull tabs for easy maneuvering
- IMPORTANT - Must be placed in the correct position to effectively stop dust ingress
