

WATERguardTM FILTRATION

SHURflo RV & Marine Water Filtration Kit

You can enjoy great tasting, healthy, clean water wherever you travel in your boat, thanks to the new SHURflo RV and Marine Water filtration Kit. The Biodegradable Carbon Block disposable filter reduces: Chlorine taste and odour, bad taste and odour, sediment, lead, atrazine, cyst, cryptosporidium, giardia and turbidity.

The kit comprises of a disposable quick change filter, quick connect filter head incorporating an automatic shut-off valve, drinking water tap, stainless steel mounting screws and John Guest plumbing fittings for installation (John Guest adaptors available to suit existing plumbing systems).

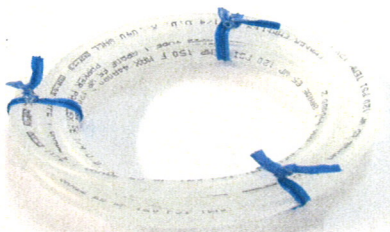

Household Quality Filtration for your RV or Boat

- Same technology used to provide quality household filtration.
- Unique quick change filter head
- Automatic shut-off valve
- Easy to install
- 40 years of proven quality
- Certified to the highest levels
- NSF 42 & 53 approved filter cartridge.
