

ST60A Tankless Hot Water System

Delivers up to a powerful 6.4L flow rate
with a rapid 35°C of temperature rise!

The Suburban **ST60A Tankless Hot Water System** is a powerful and efficient solution for your caravan or RV, offering endless hot water on demand. Designed to simplify your adventures, this 60,000 BTU water heater provides exceptional performance without the limitations of traditional tank systems.

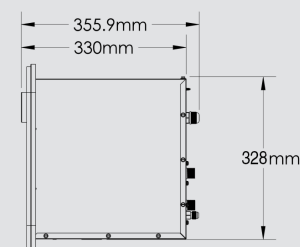

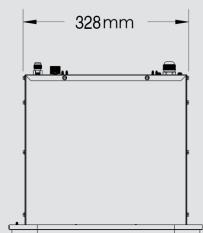

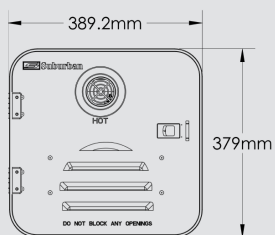

Endless Hot Water, Less Gas Consumption

The ST60A heats water instantaneously as it flows through the burner chamber, ensuring you only use energy when needed. Unlike tank systems that cycle continuously, this design minimises gas usage while delivering a consistent hot water supply. Whether you're enjoying longer showers or accommodating back-to-back use, you'll never run out of hot water.

Specifications

Max. / Nominal Heat Input	64 MJ/hr
Minimum Heat Input	16 MJ/hr
Max. Inlet Gas Pressure	3.48 kPa (14" wc)
Min. Inlet Gas Pressure	2.61 kPa (10.5" wc)
Rated Gas Inlet Pressure	2.74 kPa (11" wc)
Electrical Supply	12VDC
Total Input Current	<7A
Ignition Method	Automatic Ignition
Min. Water Flow Rate	2.6 LPM
Gas Inlet Connection	3/8" Male Flare
Water Inlet/Outlet Connections	1/2" Female BSPT
Dimensions (Casing, HxWxD)	328mm x 328mm x 330.2mm
Max Outlet Temperature	50°C
Weight (unit only)	8.6 kg
Weight (with door)	10.7 kg

Economical & Feature Packed

The ST60A is a cost-effective alternative to the Nautilus, offering electronic freeze protection, and intuitive digital controls for precise temperature settings. Upgrade your RV's water heating system for reliable, safe, and efficient hot water wherever your adventures take you.

Door Color Options: Black & White
(Sold Separately)
950-03020 Black Door
950-03022 White Door

Code: 950-03010

Reliable Safety Features for Peace of Mind

Engineered with advanced safety systems, the ST60A ensures worry-free operation:

- ✓ **Flame Out Protection:** Automatically shuts off gas if propane pressure drops or a burner issue arises.
- ✓ **Scald Protection:** Prevents overheating with an internal high-temperature kill switch.
- ✓ **Automatic Fan Monitoring:** Halts gas flow if airflow or combustion air supply is interrupted.
- ✓ **Voltage Protection:** Protects the unit from damage caused by low, high, or overcurrent voltage.
- ✓ **Active Freeze Protection:** Protects the unit from freezing temperatures as long as power and gas are provided to the unit.
- ✓ **High Pressure Protection:** A built-in pressure relief valve protects the unit from surges of high water pressure.

Faster Heating with Minimal Water Wastage

With a flow rate of 6.4L at a 35°C rise, the ST60A outperforms many competitors by reducing water wastage. Experience warm water in just 1-2 litres saving time and resources, enhancing your overall experience.
