UNIVERSAL AIR CONDITIONER GASKET KIT

Acts as a seal between your air conditioner and your roof to prevent rain from entering where the air conditioner has been installed.

The kit includes:

- ✓ One self-adhesive square gasket (356L x 356W mm)
- ✓ Two self-adhesive levelling pads

100-02090

TRUMA SAPHIR REVERSE CYCLE AIR CON. SAPHIR REVERSE CYCLEKIT

Had enough of balmy days and chilly nights camping out in the van? It might be the right time to get a reverse cycle air conditioner to make your stay comfortable no matter where or when you camp in this great country.

If you don't want any extra weight or height on your roof but still want the powerful cooling or cosy ambient warmth that a rooftop A/C offers, then the Truma Saphir may be your best friend. With a big 2400 watts of cool air and a toasty 1700 watts of warmth, all effortlessly supplied from a self-contained unit small enough to fit under your bed or in a cupboard, all you need to do is connect some ducting to any of the three included outlets and you'll be able to send air anywhere you want it in your van for maximum coverage and comfort.

FEATURES

- ✓ Remote Controlled Operation
- ✓ Automatic Heating & Cooling Function
- ✓ 3 Speed Blower with Sleep Mode
- ✓ 3 Outlets Included for Maximum Coverage
- ✓ Will Run off a 2kVA Generator*

- ✓ Handles Vans up to 6.5m
- ✓ Ultra-Light Weight at 23.5 Kg & Smallest Sized in its Class
- ✓ Low Mount Installation Provides Lower Centre of Gravity for Your Van Aiding Stability
- ✓ Smart Timer Function – Will Allow a Generous Cooling Time of Up to 15 Hours That Can be Programmed in Advance
- ✓ Pollen Filter to Provide Relief for Allergy Sufferers
- ✓ Closed Refrigeration Circuit Design Provide Maintenance-Free Operation

* Premium brand generators use only that have genuine 2Kva & above specifications

AIR CONDITIONERS

FURRION 9000 BTU UNDER BUNK AIR CONDITIONER

The Furrion 2.6kW Underbench Air Conditioner keeps your caravan perfectly cool or warm with smart auto mode technology and remote control convenience, making every trip easy and comfortable.

100-04000

FURRION 9000 BTU UNDER BUNK AIR CONDITIONER

Introducing the Furrion 2.6kW Underbench Air Conditioning Unit, the ultimate solution for small to medium-sized RVs. With its sleek design and auto mode technology, this AC unit is built to keep you comfortable in the Australian climate all year round.

The Furrion AC unit can be conveniently concealed under a bench, bed, or cabinet, freeing up valuable roof space for solar panels and reducing the weight load on pop-top caravans. The reverse cycle heat pump provides both cooling and heating capabilities, making it a versatile option for year-round use.

With the fan-only mode and dehumidification feature, this air conditioner can be used to circulate air and reduce humidity in your caravan or RV. The timer on/off function allows you to set the unit to turn on or off at specific times, so you can return to a perfectly cooled or heated space.

The Furrion AC unit also features an auto mode that adjusts the temperature based on the room's ambient temperature, ensuring maximum comfort with minimal effort. You can control the unit using the included remote control or the wired wall pad, making it easy to adjust the settings from anywhere in your RV.

The Furrion 2.6kW Underbench Air Conditioning Unit is designed with high efficiency and low power consumption in mind, so you can stay cool or warm without worrying about high energy usage. Get ready to experience ultimate comfort and an easy trip with the Furrion Underbench AC unit.

AIR HEATERS

AUTOTERM AIR HEATERS

Autoterm air heaters are designed to provide warm air to living areas of vehicles and buses, as well as to cars, motorhomes, campers, in housing and cabins of yachts and ships in the cold seasons. Quietest heaters in the market.

Simply turn the heater on and adjust the fan speed/heat output with the rotary knob.

100-02504

AUTOTERM DIESEL AIR HEATER 12VOLT 2KW KIT WITH DIGITAL CONTROLLER

The PU-27 Digital Controller is the recommended controller for most people as once you have it set up, you simply press one button and adjust the temperature up or down. It also has other functions the Rotary Controller does not such as multi day timers.

SPECIFICATIONS

Fuel: Diesel
Fuel Consumption: 0.1-0.24 L/h
Hot Air Flow: 34-75 m3/h
Set Weight: 6.5kg
Power Consumption: Min 10W to max 29W
Stepless DC Induction Motor
Made in Europe

FEATURES

- ✓ Silent pump. The Autoterm manufactured fuel dosing pump reduces noise output by 95% - perfect for the lightest sleepers.
- ✓ Brushless fan motor. No one else is using this technology that provides much more torque and longer lifetime of the motor.
- ✓ Stepless fan speed. All other heaters use fixed fans speed steps, but Autoterm computer algorithm can precisely choose the fan speed required to achieve the best heater temperature response, which maintains room temperature more accurately and allows more efficiency from the heater.
- ✓ Balanced fan. Each heater fan assembly is run on a balancing machine, the balancing prevents noise and vibration from the heater even at its max speed of 4500rpm. Prevents premature wear of the heater.
- ✓ Air intake silencer included. This is a genuine silencer that helps make Autoterm heaters the quietest heaters in the market.
- ✓ Operation at -40 degrees. These heaters are built not to fail. They are relied on all over the world to provide heat in extreme weather conditions.

100-02502

AUTOTERM DIESEL AIR HEATER 12VOLT 2KW KIT WITH ROTARY CONTROLLER

The PU-5 Rotary Controller is very easy to operate and install.

COAST AWNING WALL KITS

An inexpensive alternative for Pop Top and Caravan owners to extend your living space whilst on holiday. Innovative design has ensured that each Coast Awning Wall Kit is supplied with three doors (one on each wall), giving you flexibility on which side to open up for access. Suitable for rollout awnings (from 11ft - 18ft) these Awning Wall Kits are made from polyester; not only is polyester easy to wash and dry but it is known for its strength and durability.

BENEFITS AT A GLANCE

- ✓ Each window comprises three components: an outer polyester flap, Clear PVC and a flyscreen allowing for permanent airflow minus the insects!
- ✓ Installation is flexible (i.e. it can be fitted using telescopic poles or sail track)
- ✓ A draught skirt and wheel kit is provided with each kit, these are made from a light weight grey PVC
- ✓ Adaptable to suit awnings with its guide track at up to 9ft (2.7m) in height and projections of up to 8ft (2.4m)

Awning Wall Kit shown has been installed on a Caravan

SPECIFICATIONS

The walls are constructed of weaved Polyester yarns (0.46mm thick).
The windows are made from clear PVC with a 0.27mm thickness.
The side wall and front wall mudflaps are manufactured from a non-fraying, grey PVC with webbing.
The draught and wheel covers are made from a light weight grey PVC with webbing.

FIAMMA AWNINGS

FIAMMA CARAVAN STORE EVO AWNINGS

Restyling of the manual CaravanStore awning: new fabric tensioning mechanism and redesigned rafter and leg profiles.

A lightweight, manual rollout bag awning designed for caravans and minivans. Built for outdoor comfort, it offers practical sun protection and effortless setup wherever you travel. The Caravanstore Awning features an extra-wide roller tube for smooth, wrinkle-free retraction and quick leg positioning. Its improved design includes a Central Rafter fixing kit for secure installation and a lead bar with a second track for adding sunscreens or LED lights.

EASY INSTALLATION

Slides easily into the existing sail track and sets up in minutes. Once unrolled, simply pull out the legs and position them as needed. When packing up, the roller tube can be rolled in either direction for convenience. Compatible with most vehicles through a wide range of brackets, it can be wall, roof or rail mounted to suit your setup.

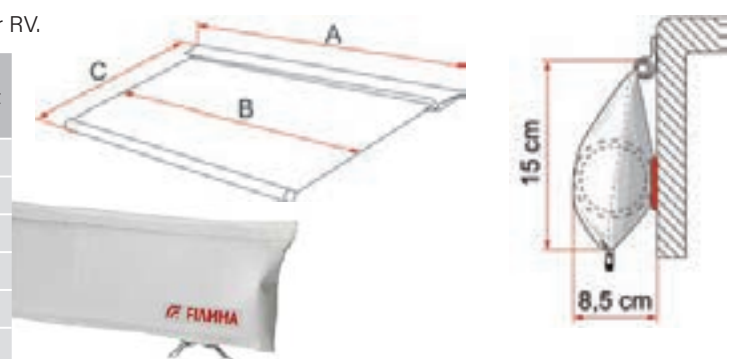

COLOURS AND MATERIALS

Housed in a soft, durable bag with a self-lubricating zipper that won't jam. The canopy, available in Royal Grey, is waterproof, rot-proof and UV resistant for long-lasting protection.

Use the table below to choose the right Caravanstore Awning for your RV.

Part Number	Description	Awning Length (A)	Canopy Length (B)	Extension (C)	Shade Surface	Weight

FIAMMA F45S AWNINGS

FIAMMA F45 S AWNINGS

Compact, sleek and easy to handle, the F45 S awning transforms your outdoor space into a shaded retreat in seconds, perfect for any RV getaway.

Fiamma's best-selling F45 S awning combines practicality with modern design, now more compact and functional than ever.

The updated lead bar includes two tracks for fitting a sunscreen or LED lights, while the durable polar white aluminium case keeps the awning protected when not in use. Simple to install and operate with an easy-to-hook winch loop, the F45 S is built for convenience and reliability. The canopy, available in five colours, is UV resistant, waterproof and washable, with colour printed on both sides for a long-lasting finish.

FIAMMA F80 AWNINGS

FIAMMA F80 AWNINGS

The new Fiamma F80s Awning range is the new, modern, and compact awning for roof installation. These awnings have an extremely small cross-section that allows it to integrate better with your vehicle's roof line curvature, and feature a number of improvements on its predecessor, the F65s.

NEW Triple Guide Feature

Three guides on the lead bar for fitting two front panels, awning shades or walls, and other accessories.

NEW LED Predefined

Position in Lead Bar + Case Housing for optional LED strips are built inside the case as well as the lead bar.

FEATURES

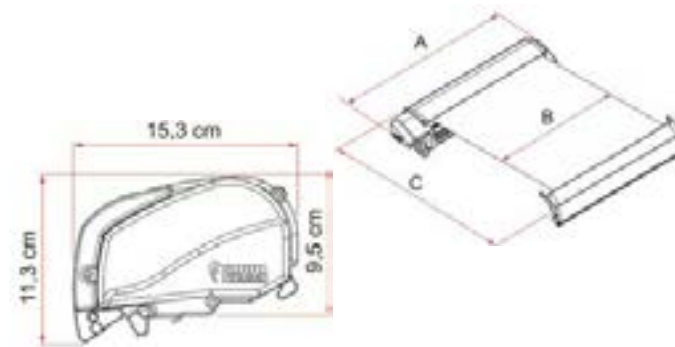

- ✓ Aluminium End Caps: Newly designed aluminium end caps for maximum strength.
- ✓ Extra-Strong Arms: Wider, reinforced and articulated arms with double steel cables for optimal canopy tension.

CANOPY FINISH

Available in two colours

- ✓ Royal Grey
- ✓ Royal Blue

FIAMMA ADAPTOR BRACKETS

200-04600

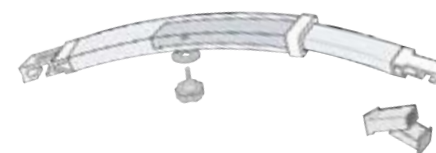

FIAMMA CURVED CENTRE RAFTER PRO

The Curved Rafter helps prevent water pooling and canopy flapping in the wind. Made from anodised aluminium telescopic bars, it suits awnings up to 250 cm with an adjustable length from 144 to 265 cm.

200-04612

FIAMMA CARAVAN STORE CENTRE RAFTER XL

200-04602

FIAMMA STRAIGHT CENTRE RAFTER

Made from anodised aluminium, the Straight Rafter helps to keep the awning taut. It comes with wall clips allowing you to mount it, for storage, inside your vehicle. Best suited to awnings that extend up to 250cm, the Straight Rafter's extension ranges from 142cm – 265cm.

FIAMMA ADAPTOR BRACKETS

If you like the look of Fiamma's F45 range of awning but your RV does not have a flat-walled surface to mount it on, do not worry! Fiamma have a range of adapter brackets allowing you to fit an F45 awning to your RV, some of which don't require any drilling!

200-04630

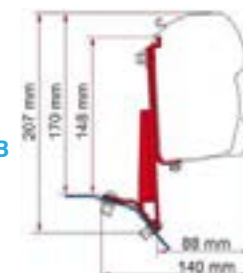

FIAMMA AWNING VW T2/T3 FITTING BRACKETS FOR F45

Suitable for VW T2 and VW T3 vehicles manufactured after 1980. No drilling required. Kit comprised of x 2,8cm brackets.

Suitable for VW Crafter and Mercedes Sprinters with high roofs built after June 2006. Comprised of x 112cm bracket, x 153cm bracket and x 160cm bracket.

FIAMMA AWNING ACCESSORIES

FIAMMA AWNING RAIN GUARDS

Awning rain guards are a great solution to prevent water from dripping behind the space where your Fiamma awning has been mounted. Made of durable rubber, the rain guard is easily installed onto the awning case (no need to remove the awning). They effectively protect your awning from water damage and ensure a dry, comfortable space. Comes in three widths and 550cm lengths.

200-04802

FIAMMA AWNING RAIN GUARD L 550CM

Suited to awnings that have been fitted using one of the adapter brackets that resulted in a gap of up to 9cm between the awning case and the RV wall. Can also be used on curved walls.

200-04806

FIAMMA AWNING RAIN GUARD M 550CM

For awnings, mounted with adapter spaced out from the wall (up to 4cm) or on curved walls.

200-04811

FIAMMA AWNING RAIN GUARD S 550CM

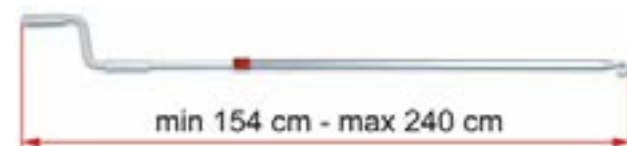

For awnings installed with the standard AS120 bracket on flat walls. Fits the 1.6cm gap between the flat wall of the RV and the back of the awning case.

200-04896

FIAMMA WINDING HANDLE TELESCOPIC

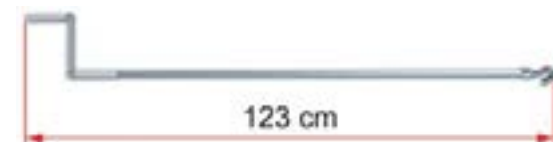

This telescopic handle is standard delivered with the F45L awning. Made from light aluminium, it is ideal for high motorhomes or caravans, allowing users to easily unwind their awning without stretching. Weighs only 1.32kg. Min length is 154cm but can extend up to 240cm.

200-04898

FIAMMA WINDING HANDLE STANDARD 123CM

This 123cm crank handle is standard delivered with F45S awnings up to 400cm. It has a folding handle and is made of ultra light aluminium. It can be cut down if required and weighs only 0.4kg.

200-04900

FIAMMA WINDING HANDLE SHORT 51CM

THE SHORTEST OF FIAMMA'S CRANK HANDLES THE 51CM VERSION IS ALSO MADE OF LIGHT ALUMINIUM, MEANING IT ONLY WEIGHS 0.24KG. IDEAL FOR SMALLER/ LOWER RVs.

FIAMMA AWNING ACCESSORIES

200-04901

FIAMMA ALU WALL BRACKETS FOR AWNING LEGS

Made of aluminium, these are installed on the outside wall of your RV, allowing you to mount the legs of awning on the side of your RV (instead of vertically dropping to the ground). Suitable for Fiamma F45S, F45L, F65, Caravanstore and F35 awnings. Comes in a set of 2.

200-04902

FIAMMA LEG WALL BRACKET KIT FOR F45 AWNINGS

These wall brackets are made of a sturdy, white plastic to complement the colour of your RV. Suitable for F45S and F45L awnings. Comes in a set of 2.

200-04910

FIAMMA LEG WALL BRACKET KIT FOR F45 AWN DEEP BLACK

200-05316

FIAMMA F45 TI SUPPORT LEG REGULATION HAND WHEEL KIT

This hand wheel secures the extendable legs on Fiamma awnings at the chosen height.

200-08004

FIAMMA TIEDOWNS (BLACK)

A secure Fiamma tie-down for awnings or privacy rooms. Fits awning rails or side clips and includes two 300 cm adjustable straps, stakes and tension springs.

- ✓ 2 x Tie Downs
- ✓ 2 x Front Hooks
- ✓ 2 x Springs
- ✓ 2 x Stakes

200-08007

FIAMMA ADAPTER KIT

Fiamma Adaptor kit to suit side w pro 4m and under.

200-08008

ADAPTER KIT FOR CLIP SYSTEM TO FIT FIAMMA F65 AWNINGS

200-08009

ADAPTER KIT FOR CLIP SYSTEM TO FIT FIAMMA F45 TIL AWNINGS

200-08002

FIAMMA FAST CLIP

Used to attach the walls of a Fiamma Privacy Room to an awning canopy, the improved Fast Clip system is suitable for use on awnings with a 250cm extension only. Its upper bar is now divided into 4 pieces allowing for precise closing at each section. Each section is now stronger with strengthened joints to minimise central bending. The levers have been made stationary (they can't come out of their position) and larger. This allows for easier unhooking. By turning the levers, the grip on the awning canopy can be increased/decreased. The plastic end caps have been shaped to limit damage to the side walls when threading them into the track on the Fast Clip System.

FIAMMA AWNING ACCESSORIES

FIAMMA F80 MOTOR KITS

Effortless control at your fingertips with the Fiamma F80 Motor Kit, designed to make setup as relaxing as your destination.

Motor Kit Plus F80s

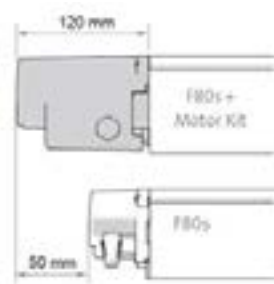

Motor Kit Compact F80s

The Fiamma F80 Motor Kit range offers smooth, automatic awning control for total convenience. Available in Compact or Plus versions to suit different travel needs, it allows you to extend or retract your awning at the press of a button. The 12V motor operates quietly about 57 dB and includes a manual crank handle for backup use. The Compact model features simple wall-mounted controls and automatic canopy tensioning, while both versions come in Polar White, Titanium, and Deep Black finishes to complement your vehicle.

FEATURES

- ✓ Reliable 12V motor for consistent performance
- ✓ Quiet operation at under 57 decibels for peaceful use
- ✓ Compact version: wall-mounted control panel for simple extend/retract
- ✓ Plus version: infrared remote control and one-touch operation with automatic canopy tensioning
- ✓ Manual crank handle included for emergency backup
- ✓ Compatible with F80s awnings of any length

FIAMMA AWNING ACCESSORIES

FIAMMA F45 MOTOR KITS

Relax and unwind with the F45 Motor Kit Compact, the lightweight upgrade that brings effortless, push-button control to your awning.

The Fiamma F45 Motor Kit Compact transforms your awning into a simple push-button system, combining quiet performance with easy operation. After a long day on the road, setup takes just one press as your awning extends smoothly into place. Weighing only 1.9kg, it features a reliable 12V motor with a built-in manual crank handle for backup use when power is unavailable. Operating quietly below 57 decibels, it is perfect for peaceful campsites.

Available in Polar White, Titanium, and Deep Black, the Motor Kit Compact adds comfort and convenience to every journey.

FEATURES

- ✓ Lightweight design at only 1.9kg, easy to install and use
- ✓ 12V motor ensures dependable operation
- ✓ Quiet running at below 57 decibels, ideal for campgrounds
- ✓ Wall-mounted control panel for smooth extend and retract functions
- ✓ Manual crank handle supplied as a backup if power isn't available
- ✓ Suitable for F45S awnings of any length

FIAMMA ACCESSORIES

FIAMMA DELUXE LADDER

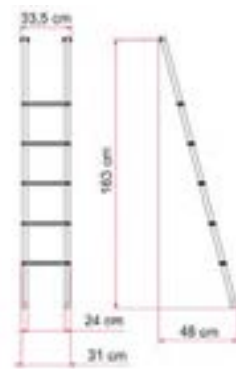

250-02037

FIAMMA DELUXE 5B LADDER

A quality aluminium ladder for sleeping berths in RVs. It has a 15° inclination and handy nylon hooks to hold it in position. The 5B Ladder has five steps.

Weighs: 2.6kg

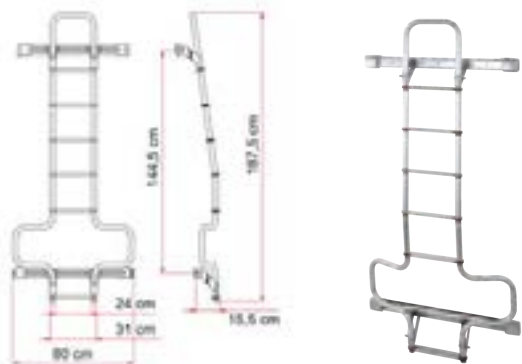

250-02039

FIAMMA DELUXE 6 DJ

A sturdy and lightweight external ladder with non-skid steps. Made from anodised aluminium, it is supplied with fixing bars for quick and easy installation on the rear door. It can also be combined with the Carry Bike 200 DJ (part number 350-02096). The Deluxe 6 DJ is suitable for installation on the following vehicles: Fiat Ducato, Citroen Jumper, Peugeot Boxer and Ford Transit (with double rear doors built after 2006). It has six steps.

Weighs: 6.5kg

250-02040

FIAMMA DELUXE 8 EXTERNAL LADDER

A quality aluminium ladder that is sturdy enough for external use. It has a comfortable 24cm step width with non-skid rungs for added safety. The 8 External Ladder can be folded up during travel and can be installed on the following vehicles: Fiat Ducato, Citroen Jumper, Peugeot Boxer and the Ford Transit (with double rear doors built after 2006). It has eight steps.

Weighs: 5.5kg

AWNING FLAP ELIMINATOR

COAST RV AWNING FLAP ELIMINATOR

Introducing the Coast RV Awning Flap Eliminator, the best solution to wind flap and waterproof wall attachment for your awning. Say goodbye to flapping walls and hello to a stress-free camping experience with this easy-to-install kit that is designed to fit most brands of roll-out awnings and walls.

The integrated 6mm sail track design makes it simple to attach walls, annexes, and accessories, leaving you more time to enjoy your vacation. Available in three sizes in black or white, it's quick and easy to set up and provides protection for your awning from wind-flap.

AWNING ACCESSORIES

200-08019

COAST PREMIUM AWNING TIE DOWN KIT

The ultimate tie down kit to keep your awning safe and secure! It can help prevent damage to your awning caused by high winds.

200-08020

HAPPY HOOK AWNING TIE DOWN KIT

Designed to pull the roller tube down to tighten the awning vinyl and reduce flapping caused by wind.

200-08142

AWNING HARDWARE STRAPS

These 12" (30.5cm) Velcro straps replace old or lost rollout awning straps and can also secure leads or hoses. Pack of two.

200-08144

RV AWNING PARTY LIGHT HOOKS

Sturdy sewn fabric tabs with grommets that slide into the roller bar channel of your awning. It enables you to hang lights, wind chimes and other lightweight items from the edge of your canopy. Each pack contains x 7 tabs.

200-08150

RV AWNING STABILISER KIT

Secure your awning with spiral stakes for extra holding power in any soil. Tension units keep ropes taut. Compact, easy-to-use kit fits all roll-out awnings, great for beach use, and attaches to the roller bar ends.

200-08082

FIXMYTEAR - 30CM CLEAR REPAIR PATCH

Fixmytear is popular product used to repair a variety of vinyl tears it is perfect for the caravan awnings and can even be used on canvas found in truck curtains, jumping castles, inflatable boats, boat sails, rubber waders, tents & more.

200-08086

CAMCO RV AWNING REPAIR TAPE 3' WIDE X 15' LONG

Camco's RV Awning Repair Tape is a permanent repair for rips and punctures on your RV awning. Use it for RV, boat sails, canvas, tents, rain wear, back packs, popup campers and more.

It has an aggressive adhesive and resists tearing in any direction. The roll is 7.6cm wide x 4.57m long.

200-08270

COAST CURVED ROOF RAFTER (WHITE)

Designed to give your awning canopy a gentle curve enabling rain to run off with ease. Keeping your awning canopy taut it also minimises flapping caused by wind. The Coast Curved Rafter is suitable for awnings that extend up to 8ft (243cm).

COAST PREMIUM RAFTERS

Designed with a curved top to protect awning fabric, these rafters prevent water pooling and keep the fabric taut, reducing flapping in windy or wet conditions.

200-12216

AUSSIE TRAVELLER AFK CAM HANDLES

Replacement Aussie Traveller anti-flap kit cam handle with spring and nut.

AWNING ACCESSORIES

AUSSIE TRAVELLER CURVED ROOF RAFTERS

Curved Roof Rafters have a dual purpose - to prevent the awning canopy from sagging, ensuring water run-off, and for keeping the awning fabric taut, reducing wind flap. Awnings that flap can cause your RV to shake or even cause damage to the awning itself. Aussie Traveller has produced two types of telescopic Curved Roof Rafters suiting most brands of rollout awnings. Please see the guide to see how many rafters are recommended per awning.

50 X 80CM

The Adventure Mat is our most versatile mat. This mat features a Velcro strap to easily secure when you roll it up to take on your adventure.

200-08816

TIDY TURF MATS MONSOON MAT
100 X 100

The Monsoon Mat is designed to fit inside your pop up ensuite tent. Stop all the mud and dirt ruining your refreshing clean shower.

200-08818

TIDY TURF MATS TELL HIM HE'S DREAMING MAT
60 X 150CM

The Tell Him He's Dream'in Swag Mat will be your camping best friend. Roll this little beauty out alongside your swag and notice the sand/dirt free sleep.

200-08820

TIDY TURF MATS THE DUNK MAT
100 X 150CM

Makes for a fantastic family size mat, it will even fit your pooch. It's nice having something that's a little larger for the times you're camping on sand or dirt.

FLOOR MATTING

ENDUROMATS

*THE IMAGE IS FOR DESIGN PURPOSES ONLY AND IS NOT INTENDED TO REPRESENT THE PRODUCT.

Perfect for camping, these Australian made mats help to keep your RV cleaner. Small dirt particles, such as sand, fall through the mesh, leaving larger stones on top for easy removal. Made of a PVC welded fibre, Enduromats strong, durable and tough but not on the grass underneath!

The mesh style fabric allows air to move beneath its surface allowing grass to breathe. Non-slip and mildew resistant, the lightweight mat is easy to carry and store. Because nothing sticks to the Enduromat, minimal maintenance is required. To clean, simply shake the mat and then fold as per normal to put back into the bag. It is even UV resistant so it will maintain its colour for years.

TRAVELITE SUNSCREENS

TRAVELITE FRONT SUNSCREENS

Coast to Coast have a brand-new range of Travelite Sunscreens that offer plenty of shade and privacy around the RV at an unbeatable price. The new Travelite range is designed to suit most popular awning styles and van types including roll out awnings, box awnings, campers and features end walls to suit both caravans and pop tops. Travelite Sunscreens are a great value solution for additional shade and privacy for your RV's outdoor living area. Each sunscreen is backed by a huge 4 year warranty and features double stitched edges to prevent fraying. Travelite makes fitting a sunscreen as easy as ever, simply thread the spline through the track in your awnings lead bar or utilise the Velcro straps for an end wall. Travelite is the new benchmark for great value sunscreens, each one comes complete with D rings, guy ropes, heavy duty pegs and a convenient, zip-up storage bag.

Get Smart With Altitude

Carefree Connects

Wireless Awning Control System
Carefree

Connects enabled remote control and motion sensing for your awning.

Features:

- Awning Extension and retraction
- LED lighting on/off/dimming
- Motion sensor sensitivity

Bright LED Lighting

Light Up Your Night

Bright LED lighting to illuminate your RV patio

Features:

- Awning Extension and retraction
- LED lighting on/off/dimming
- Motion sensor sensitivity

PRODUCT FEATURE

Single-Touch Operation
The Compass will fully extend and retract with just a touch of a button! Let the awning do all the work while you setup or clean up your campsite!

Exclusive Pitch Adjustment
A Carefree exclusive, adjust the pitch of each awning arm independently while the awning is closed! Perfectly setup your awning before you open it!

Memory Pitch
Another Carefree exclusive, the Compass will self-level and retract and when it deploys again it returns to the same pitch every time! Set your perfect pitch and forget it!

Scissor-Arm Technology
The Compass is engineered for maximum strength and durability. Using exclusive Carefree Scissor-Arm Technology to increase stability and rigidity in the awning arms.

- Open & Close the awning
- Adjust the optional motion switches sensitivity to complete override if this is installed
- Get your exact extension every-time you open the awning via setting the memory in the app

CAREFREE ALTITUDE

CAREFREE ALTITUDE

1

Altitude introduces a new high in awning intelligence and style. This advanced awning helps set your RV apart from the crowd with features you might find on much higher priced products.

Altitude makes the outdoors the 'coolest' part of any RV. With entertainment, connectivity, and smart tech, today's RV living is easier than ever. Altitude awnings offer cutting-edge features, including Bluetooth™ app control for extending, retracting, adjusting LED lights, and wind sensitivity. Designed for OEMs, Altitude is easy to install and perfect for tech-savvy, on-the-go RV buyers, blending seamlessly with the Caravan's sidewall.

FEATURES

- ✓ **Memory Pitch.** The awning extends to its last set pitch.
- ✓ **Exclusive Pitch** Adjustments are easier with new buttons, and you can change the pitch even when the awning is closed
- ✓ **Bluetooth Enabled.** The wireless app controls extension, retraction, LED lights, and motion sensor from your phone

CAREFREE ALTITUDE

CAREFREE ALTITUDE AWNING HARDWARE

Suitable for pop-tops & caravans due to their compact height. The pitch angle is adjustable with six different levels thanks to a simple but sturdy pin setup. The Altitude hardware also features inbuilt shocks for reliability that will soak up bumps and jarring while on the road. They are strong enough to support the awning without the use of legs, but if your planning longer stays, Carefree recommend the use of their HD Support Pole Kit 200-33066.

Single-Touch Operation

The Compass will fully extend and retract with just a touch of a button! Let the awning do all the work while you setup or clean up your campsite!

Exclusive Pitch Adjustment

A Carefree exclusive, adjust the pitch of each awning arm independently while the awning is closed! Perfectly setup your awning before you open it!

Memory Pitch

Another Carefree exclusive, the Compass will self-level and retract and when it deploys again it returns to the same pitch every time! Set your perfect pitch and forget it!

Scissor-Arm Technology

The Compass is engineered for maximum strength and durability. Using exclusive Carefree Scissor-Arm Technology to increase stability and rigidity in the awning arms.

CAREFREE ALTITUDE BT-12 CARAVAN ELECTRONICS

This optional electronics kit enables Bluetooth™ operation of the Altitude through a compatible smart device. It also includes a Combination switch that allows a Master ON/OFF as well as a one touch EXTEND or RETRACT button.

This kit allows you to:

- ✓ Open & Close the awning
- ✓ Turn the LED light bar On
- ✓ Adjust the brightness of your LED light bar
- ✓ Position the angle of the LED by bringing in or taking out the Awning
- ✓ Adjust the optional motion switches sensitivity to complete override if this is installed
- ✓ Get your exact extension every-time you open the awning via setting the memory in the app
- ✓ Bluetooth module included

CAREFREE ALTITUDE

ALTITUDE ACCESSORIES

200-37432

CAREFREE ALTITUDE BT-12 MOTION SWITCH

This switch mounts on the awning to detect unwanted motion such as wind. If extreme wind is detected it will tell the awning to promptly get out of harm's way by automatically retracting. This is a great bit of insurance should you be away from your van and the wind suddenly picks up.

200-37434

CAREFREE ALTITUDE BT-12 REMOTE

A great little extra as with this simple remote control so you can open and close your awning as well as turn on the LED & adjust the brightness without having open up a smart device.

200-37438

CAREFREE ALTITUDE BT-12 CONTROL MODULE

This part here is a replacement Bluetooth module on its own if required, its function is to communicate all functions from the switch or app to the awning.

200-37440

CAREFREE ALTITUDE LED SWITCH WITH FUSE

Simply an on/off switch to operate the LED bar from the inside of the van, this switch can be installed in any inside location but will need to be hardwired in to work. simple item for a simple operation & includes a fuse for added safety.

200-37442

CAREFREE ALTITUDE EXTEND & RETRACT SWITCH WITH DYNAMIC BRAKE

If the BT-12 option is not suited to your customers, maybe due to it being too tech-savvy for the end user or if the OEM wants to still have the New Motorised hardware for ease of operation but it's a cost sensitive option then this

Manual operation switch will be needed at a minimum.

To use simply hold down the OUT button to extend the awning and when the awning is fully extended you let go of the button, to retract simply hold down the IN button and again let go when the awning is completely rolled up in its travel position. If your customer wishes to use their OWN switching/control system ensure it has a "DYNAMIC BRAKE" ability built into the switch or the unit will not operate correctly.

200-33066

CAREFREE ALTITUDE HD SUPPORT POLE KIT

The new Carefree Altitude HD Support Pole Kit is a purposed designed support pole kit to suit Carefree's Altitude Awnings, and other rollout awnings without support legs. Staying in one place for an extended time with an Altitude awning will require them to have some kind of upright support.

The HD Support Pole Kit comes with two connecting heads so it can be used to support awnings with roll bars as well as box awnings. They are designed to fit both Carefree and other branded awnings.

Important! When using this kit with Altitude awnings, or any powered awning, ensure that the awning's power is switched OFF prior to installation! This prevents any sensors the awning has from activating and causing it to retract. If you need to adjust the awning pitch after set up, loosen the pole's straps and lower before adjusting.

FEATURES

- ✓ Cradle head to support awnings with roll bars
- ✓ Stabilizer Grip head to allow securing to a box awning
- ✓ Poles feature crank knobs to secure the pole to the adjusted height
- ✓ Comes with stakes and straps to secure the poles to the ground and awning.
- ✓ Designed for quick set up, under 5 minutes!

CAREFREE AWNINGS

CAREFREE ROLL OUT WINDOW AWNINGS

Window awnings offer an alternative to roll out awnings but still provide essential protection from the sun. Carefree have modified their window awnings to incorporate a more streamlined design.

The vinyl has also been given an update to an opaque white, complementary to any RV exterior. Two types of Carefree Window Awnings are available, the SL and the SL XL. The SL window awning is suitable for windows less than 36" (91cm) in height. If your window is more than 36" in height, you will require the SL XL window awning.

CAREFREE FIESTA ROLL OUT AWNINGS (NO ARMS)

Carefree's vinyl fabric features a superior construction with the top portion being called the Weather guard – this protects the fabric from the sun, scrapes and exposure when the awning is rolled up. The Carefree Fiesta has long been a favourite amongst RVers, not only in the USA but here in Australia as well.

It is a simple to use manual, spring loaded, rollout awning featuring a vinyl weathguard as previously mentioned. The 8' – 14' awnings project up to 7'3" (2.21m), while the awnings from 15' – 21' project up to 7'9" (2.36m).

FIESTA FEATURES

Remote and Travel Locks

These work together to ensure the Fiesta does not come undone during travel. They eliminate the need for you to stretch and fumble for the roller lock.

Heavy Duty Brackets

Solid and rugged, the awning hardware and castings are white to suit the trim of any RV.

Single Track Slider

Located on the inside of the hardware channels, it eliminates the rafter binding during setup and storage. You get a smooth gliding motion as soon as you slide the rafters up the hardware arms

Canopy Clamps

Built onto the hardware and self storing. Canopy Clamps help to keep your awning taught and provide extra protection from the elements. Not available on arms supplied to suit pop-tops.

CAREFREE LED AWNINGS

Carefree's new LED awning option will make you the envy of the campsite with light that is bright enough to read by. These fun, energy saving dimmable* LED's look incredible & are great for parties or just enjoying the evening outside.

** The 11' to 15' awnings project up to 7'3" (2.21 m), while the 16' to 20' awnings project up to 7'9" (2.36 m). To enjoy adjustable or dimmable LED lighting, this product must be paired with a BT-12 Controller (part number 200-37438) or a compatible third-party LED controller.*

CAREFREE AWNINGS

CAREFREE TRIPLE BLACK AWNING

It is a simple to use manual, spring loaded, rollout awning featuring a vinyl weather guard as previously mentioned.

Sizes vary the 11' – 14' awnings project up to 7'3" (2.21m), while the awnings from 15' – 20' project up to 7' 6 3/4" (2.30m).

FEATURES

- ✓ Black Springs
- ✓ Black Weather Guard (so they roll up black)
- ✓ Black Shale Fade Canopy (when rolled out the canopy has a black balance)

When replacing the Spring Assembly on your Carefree Fiesta (rollout) awning, take note of the following:

SPRING WIND CHART		
Length of Awning	Winds with Awning Closed	Winds with Awning Open
7'11" or less	6	14
8' – 12'	5	13
12' 1" – 18'	7	15
18' 11" and longer	8	16
To wind, rotate the end plug over the top and away from the RV		
To unwind, rotate the end plug over the top and toward the RV		

CAREFREE AWNINGS

CAREFREE ECLIPSE AWNINGS

The Carefree Eclipse awning is yet another innovative design from these 40 year strong manufacturers. It is a 12V electric awning that extends (and retracts) at the touch of a button (usually mounted near the door of your RV). You can choose to unwind it partially or to its 2.3m full extension. As the worm-gear motor unwinds the canopy, the arms glide up the vertical track (mounted to the outside wall of your RV). The end result is a stable canopy with truss like support. To retract the Eclipse simply hold the button and the motor will roll it up tight against your RV and that's it, eliminating the need to fumble for roller locks.

ECLIPSE FEATURES

Unmatched Performance
Eclipse has remarkable strength and support for an automatic awning, not to mention it's stylish good looks.

SELF LEVELLING

No need to level the canopy before you roll it up and the genius part is that when you do unwind it again, it will unwind to its last setting.

RAIN-DUMP FEATURE

When your Eclipse is on a flat pitch and rain is pooling on the canopy, the gas strut will momentarily retract and dump the water.

ADJUSTABLE PITCH

There are 6 settings on the awning arm giving you options to maximise shelter from the sun and rain.

200-36800

** All Carefree awnings are sold in two components, the vinyl and the hardware (arms). The hardware required will vary depending on size and type of RV. Please contact a Coast Team member to determine the correct hardware for your RV.*

200-33000

CAREFREE WHITE SHORT HARDWARE (POP TOP)

Best suited for Pop Tops or smaller caravans with a straight outer wall i.e. walls with a height of 1.6m – 1.7m from the floor line up to the awning railing.

200-33002

CAREFREE BLACK SHORT HARDWARE (POP TOP)

Suitable for use on Pop Tops or smaller caravans with a straight outer wall i.e. walls with a height of 1.6m – 1.7m from the floor line, up to the awning railing.

200-33008

CAREFREE BLACK LONG HARDWARE (UNIVERSAL)

Suitable for use on larger caravans with a straight outer wall i.e. walls with a height of 1.7m – 2.1m from the floor line, up to the awning railing.

200-33010

CAREFREE WHITE LONG HARDWARE (UNIVERSAL)

Best suited for larger caravans with a straight outer wall i.e. walls with a height of 1.7m – 2.1m from the floor line up to the awning railing. Comes with remote lock.

CAREFREE HARDWARE & ACCESSORIES

200-33020

CAREFREE WHITE CURVED HARDWARE BENT TOP AND BENT LEG

Suits RV's with a curved outer wall.

200-33012

CAREFREE AWNING HARDWARE 12V ECLIPSE

12V Awning arms to suit the Eclipse awning. Must be fitted to a flat walled caravan or motor home. It is 10.8cm wide and requires 1.8m from the awning rail to the floor line.

200-33022

CAREFREE WHITE CURVED HARDWARE BENT TOP AND STRAIGHT LEG

Suits most RV's with a curved roof such as Winnebagos and Renault Trafic.

200-34150

CAREFREE SPIGOT KIT FOR CAREFREE RAFTERS

The Spigot pin fits into the end of the Carefree Centre Rafter, which is then inserted into the awning barrel when extended.

CAREFREE SUPPORT CRADLE

Fits all roller awning brands, the awning support has a pivoting head. Once you roll up your awning, the pivoting head receives the roller and supports it, eliminating weight stress and potential bowing in the centre of your awning roller. The awning supports will not damage the awning fabric.

Recommended for use on flat walls of RVs and for awning widths of 16ft or greater.

TIPS FOR CAREFREE AWNINGS: CARE AND MAINTENANCE

FABRIC CARE

- ✓ Do not use oil-based cleaners or any granulated/ abrasive type cleaners on your Carefree awning.
- ✓ The easiest way to delay the need for a deep clean is to simply hose down the awning fabric once a month with clear water – this prevents dirt from becoming set in into the fabric.
- ✓ When the time comes for a thorough cleaning, you can leave the fabric on the frame. For vinyl fabric, simply use a soft brush and warm water with a natural soap. Allow the fabric to air dry completely before rolling back up.

MILDEW

- ✓ A fungus that looks like dirt.
- ✓ Common in areas where temperature and humidity is high, mildew can become a problem.
- ✓ Rinse fabric with clean water and allow to air dry completely before rolling back up.

LEAKING

- ✓ On vinyl canopies, side hems and poly cords are stitched with a sewing machine.
- ✓ The stitching may allow water to seep through – this is normal and not a warranty defect.
- ✓ In this instance, treat the seams with a seam sealer.

ARM CARE

- ✓ Always keep this clean to allow the arms and braces to operate smoothly.
- ✓ Periodically wash out the arm channels with a hose to keep them clean and eliminate dirt and debris.
- ✓ Once the arms have been cleaned and dried completely, you can spray the joints with a dry silicone lubricant.

CAREFREE FREEDOM AWNINGS

CAREFREE FREEDOM 12V AWNINGS

The Carefree Freedom 12V box awning delivers simple push button operation, extending and retracting at the touch of a button from inside your RV. Adjustable support arms fold neatly into the lead bar for easy setup and pack down. Finished in a clean white aluminium casing, the Freedom awning is available in two canopy colours for a smart, practical RV upgrade.

STABILUS GAS STRUTS

STABILUS GAS STRUTS

LIFT-O-MAT gas springs are non-locking gas springs. They are used whenever components must be brought conveniently into a defined end position. A LIFT-O-MAT can control the extension force and damping action depending on the function, ensuring user-friendly motion sequences.

ADVANTAGES AND PROPERTIES

- ✓ Optimised weight compensation during liftings, lowering, opening and closing actions
- ✓ Broad range of sizes and force variants available as standard products.
- ✓ Flat Spring characteristic curve; i.e., low force increase, even with high forces and large strokes
- ✓ Choice of linear, progressive or decreasing spring characteristic curves
- ✓ Compact form factor for installation in small spaces
- ✓ Large variety of end fittings for efficient assembly
- ✓ Dampened adjustment motion over defined ranges or continuously
- ✓ Extension speed control possible

CARAVAN BED FRAMES

CARAVAN BED FRAMES

Made from lightweight aluminium (which is 30% lighter than a standard steel bed frame), the Coast Bed Frames are designed in Australia. Their frame is powder coated in a neutral colour (stone beige) to compliment any RV's interior. Slats are made of sturdy European birch timber which is not a hard wood; it therefore offers more flexibility, making it more resilient to breaks. The slats have a textured finish on the side that makes contact with an applied mattress - this reduces shifting caused by movement. The slats are attached to the frame by means of rubber boots which are more flexible than the polypropylene alternative (as harder plastics tend to crack and split over time due to movement). Comes with a 1 year manufacturer's warranty on the frame.

250-00300

CARAVAN BED FRAME ALUMINIUM PRINCE SPLIT HEAD

SPECIFICATIONS

Dimensions (open): 1450W x 1580L (mm)
Dimensions (closed): 1450W x 1400L (mm)
Weight: 13.5kg

250-00302

CARAVAN BED FRAME ALUMINIUM DOUBLE SPLIT HEAD

SPECIFICATIONS

Dimensions (open): 1325W x 1580L (mm)
Dimensions (closed): 1325W x 1400L (mm)
Weight: 12.5kg

150-00200

POP TOP INSERT BOWS

These curved bows slide into most pop top vinyl sleeves to ensure the vinyl or canvas folds in when the roof is lowered.

They extend up to 255mm in length.

CANOPY LIFT MECHANISMS

CANOPY LIFT MECHANISMS (FLAT)

A flat 'scissor' style canopy lifter which raises the roof on a pop-top or campervan. It is made of a steel track on the bottom and top sections, as well as two steel lengths that form an 'X' and pivot in the centre

250-00500

CANOPY LIFT MECHANISM STANDARD TENSION SPRING

SPECIFICATIONS

Width: 900mm
Lift Height: 685mm
Weight Rating: 40kg

CANOPY LIFT MECHANISM STANDARD TENSION SPRING

SPECIFICATIONS

Width: 700mm
Lift Height: 560mm
Weight Rating: 35kg

250-00520

CANOPY LIFT MECHANISM (TUBULAR)

Tubular scissor lifter with steel track for pop-top or campervan roofs.

SPECIFICATIONS

Width: 900mm
Lift Height: 685mm

250-00530

CANOPY LIFT MECHANISM 1200MM

Flat scissor lifter with steel track for raising pop-top or campervan roof.

SPECIFICATIONS

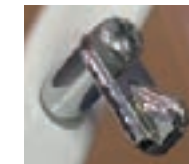

Width: 1200mm
Lift Height: 990mm
Weight Rating: 35kg

CANOPY EASY LIFT ARMS

Canopy easy lift arms (pair), made from 16mm square tube steel with a wall thickness of 1.2mm.

- ✓ White powder coat finish
- ✓ Sold per pair

3 STAGE CAMPER LIFTER WITHOUT WINGS

Once you have successfully opened your Jayco camper trailer these lifters act as a support to keep your camper trailer in the 'open' position.

SPECIFICATIONS

Compacted ext: 770mm
Maximum ext: 2047mm

250-03100

COAST CAMPER ROOF SUPPORT POLE

Coast Camper Roof Support Poles provide

extra support for raised roofs or added loads like awnings.

- ✓ Made from white powder coated light weight aluminium
- ✓ Rubber end caps for a non-slip fit
- ✓ Can be trimmed to fit various RVs.

SPECIFICATIONS

Length: 1500mm
Width: 22mm
Length with Rubber End Caps: 1525mm
Rubber End Cap Width: 35mm

250-03009

CAMPER LIFTER CHANNEL DOOR

Door and surround to suit Jayco camper lifter channels.

250-03010

PUSH RODS 66"

These strong, flexible push rods guide the roof of your camper trailer upwards as you wind the crank. They help to push the lifter arm up.

TAPE FOAM

TAPE FOAM PVC SEALING

This general purpose foam tape is manufactured for use in applications requiring positive seals on irregular surfaces or when flex and conformability to tight radius curves are critical considerations.

- ✓ Low density foam is easy to compress and conformable, but is still strong and resilient
- ✓ Insulates against temperature, sound and vibration
- ✓ Formulated from durable Poly Vinyl Chloride (PVC) for long service life.
- ✓ Closed cell structure completely seals out air, moisture, light and dust when compressed at least 30%.

LIPPERT SLIDE OUT ROOMS

LIPPERT SLIDE OUT ROOMS

Exclusively available through Coast to Coast, Lippert present their ready-to-use in Wall Slide Out Systems, allowing Australian manufacturers to provide more living space to RV consumers without compromising overall size.

In order to provide greater flexibility, improved aesthetics and pricing, Lippert Slide Out Systems are no longer sold in kits. Individual components can now be ordered to suit your specific requirements and a list of parts and required quantities is now available.

For your convenience it is still possible to order all the components that make up each of the superseded kits. Just let your friendly Coast to Coast sales team know the kit number and quantity required and we'll handle the rest.

DURABLE AND CORROSION RESISTANT

Lightweight anodised aluminium resists rust better than systems with chains, cables and exterior mounting brackets.

MORE SPACE

Slide-Out mechanism fits inside the wall cavity leaving significantly more interior space. Other bulky systems require a slide room fascia to cover motor and pulleys.

LEAK FREE

The 50/50 power split ensures both slide room sides properly compress seals. Independent side control allows different stroke lengths to compensate for bulb seals setting or wearing down unequally.

LIGHTWEIGHT

Lightest slide system on the market keeps overall RV weight down.

NO ADJUSTMENTS

The In-Wall Slide-Out System never needs complicated adjustments.

SMART CONTROL TECHNOLOGY

Smart system continually monitors motors for safe operation, and stops the slide-out if an issue is detected.

SPECIFICATIONS

- ✓ Each Slide Out System (per side) consists of:
x 1 Motor Drive, x 2 Drive Gears and x 1 Torque Shaft
- ✓ Can be installed on RVs with a wall thickness of 25 - 38mm
- ✓ Has a manual override function
- ✓ Switch is mounted internally (to move room in or out)

COAST SLIDE OUT TRAY

COAST HEAVY-DUTY SLIDE OUT TRAY

Ergonomically designed, this slide-out tray requires just a simple pull for smooth access, making it a practical and convenient addition to your RV

The slide-out tray elevates your RV experience by offering effortless access to stored items, eliminating the frustration of hard-to-reach spaces. With a robust 125 kg capacity, it handles substantial loads and meets various storage needs with ease. Crafted from high-quality aluminium and powder coated in Interpon Textura Black, it ensures long lasting performance. Proudly made in Australia, this tray supports local manufacturing while delivering exceptional quality and reliability.

FEATURES:

- ✓ **High-Quality Construction:**
Crafted from 3mm aluminium for the tray and mounting angles, and 2mm aluminium for the high side kit, ensuring durability and stability.
- ✓ **Smooth Operation:**
Engineered for effortless sliding and easy access to your items.
- ✓ **Powder-Coated Finish:**
Interpon Textura Black coating for enhanced durability and a sleek look.
- ✓ **Ergonomic Design:**
Features a simple pull mechanism for convenient operation.
- ✓ **Heavy-Duty Capacity:**
Supports up to 125KG, suitable for a variety of items and equipment.
- ✓ **Volume:**
37 litres of storage without sides;
105 litres with sides.
- ✓ **Weight:**
Slide: 12.63 kg
Sides: 4.19 kg

RV Storage Optimization:

Maximize storage space and access hard-to-reach areas.

Tool and Equipment Storage:

Securely store tools and camping gear for easy access.

300-00100 RV COLLAPSIBLE BUCKET

Made from a rugged and watertight material, this bucket is the perfect size for RVing, camping and fishing.

With an 11L capacity and opening up to 23.5cm tall, it takes up minimal storage space by folding to a compact 3.5cm when not in use. Comes with a convenient zippered storage bag.

300-01124 VINYL TABLECLOTH

Has rounded edges and an easy to clean waterproof surface. Dimensions: 132W x 213L (cm)

300-01108 12 EGG CARRIER

300-01100 LANTERN HANGER

Helps to keep bugs up and away from your campsite (lantern not included).

200-08019

COAST PREMIUM AWNING TIE DOWN KIT

The ultimate tie-down kit to keep your awning safe and secure! It prevents wind damage and includes screw-in pegs for easy installation with the power drill adaptor socket.

INCLUDES:

- ✓ 2 x Large Alloy Screw In Peg 300mm
- ✓ 2 x ABS Guy Rope Holders
- ✓ 1 x Alloy Screw In Peg Power Drill Adaptor Socket 17mm
- ✓ 2 x Reflective Glow Guy Rope with Spring and Runner
- ✓ 2 x Tie Down Awning Clamps Stainless Steel

300-01200

LARGE ALLOY SCREW IN PEG WITH ABS GUYROPE HOLDER CLIP

- ✓ The screw action grips into the soil for a safe and secure guy rope tie down point
- ✓ Comes complete with a guy rope holder clip to tie down your awning quickly and easily
- ✓ Designed for use with the Power Drill Adaptor Socket (sold separately) that allows the screw to be quickly driven into the ground with ease

300-01209

ALLOY SCREW IN PEG POWER DRILL ADAPTOR SOCKET

- ✓ Designed to suit large alloy screw in pegs
- ✓ Power Drill Adaptor Socket 17mm

350-00021

ARK BLACK SHIN PROTECTOR WITH TOW BALL COVER

Ensures that the tow ball cover is secured whilst towing, suitable for 50mm and 1 1/8 tow balls.

TOWING ACCESSORIES

350-00046

TARP CLIPS 4 PC JAR

Reese® Tarp Clips provide a quick, strong solution for securing tarps, awnings, or tents without eyelets. Made from heavy-duty, impact-resistant plastic with a vice-like grip.

- ✓ High-impact material won't damage tarps or canopies
- ✓ Easy to tighten and release
- ✓ Ideal for tarps, tents, covers, and awnings
- ✓ Comes in a handy reusable storage jar

350-00048

HITCH PIN LOCK & 3.6M CABLE

Secure your gear with ease, ideal for Utes, trailers, caravans, and roof or bike racks. Installs in seconds with a push-lock feature, stays on while towing. Durable 3.6 m vinyl-coated braided steel cable, corrosion-resistant

350-00050

CHROME CLIP-ON TOW BALL COVER

Protects clothing from grease, clips on securely with spring clip, fits 50mm & 47.63mm (1 7/8") tow balls.

350-00054

BLACK CLIP-ON TOW BALL COVER

Fits securely with internal spring, suits 50mm & 47.63mm (1 7/8") tow balls

350-00052

BLACK SOFT PVC TOW BALL COVER

Protects clothing from grease, fits securely with moulded shape, suits 50mm & 47.63mm (1 7/8") tow balls

350-00070

BLACK SHIN PROTECTOR

No more bruised shins. Made from soft rubber the shin protector fits securely over the tow bar goose neck.

350-00056

TOW BALL BUDDY COVER & SHIN PROTECTOR

Enhance the look of your tow bar and keep your shins out of trouble with the ark tow ball buddy.

- ✓ Clip on chrome cover
- ✓ Covers ball and ball mount
- ✓ Soft shin protector
- ✓ Suits 50mm and 1 7/8" tow balls

350-00060

HAYMAN REESE HITCH STEP

Designed to stay in place whilst towing, the Hitch Step mounts over your tow ball. Three simple steps is all it takes to assemble your step onto the towbar's tow ball mount. The step features a high grade aluminium body with machine cut non-slip tread, making it corrosion resistant and giving extra grip for those slippery situations.

- ✓ Easy to install, 4 bolts and you're done
- ✓ Fits virtually any tow bar, with a flat sided tow ball mount
- ✓ Aluminium construction that is lightweight, corrosion resistant and looks great on the back of your car
- ✓ High-grip non-slip step, keeping you safe in the wet
- ✓ Raised upper lip to prevent you sliding off
- ✓ Ideal for boat owners, helps keep your feet dry when launching or retrieving your boat

SPECIFICATIONS

Weight Capacity: 120kg
Length: 355mm
Width: 75mm

SHACKLES

AS 2741-2002 applies to lifting shackles and does not specifically cover tow bar use. The Caravan Industry Association of Australia recommends using shackles compliant with AS 2741-2002 to secure rated safety chains up to 3500kg. Suitable shackles have the following specifications:

- ✓ Meet the requirements of AS 2741-2002
- ✓ Shackle grade is "S" or "6"
- ✓ Working load limit (WLL) is 1000kg
- ✓ Shackle diameter is 10mm
- ✓ Either bow or dee shackles are suitable, with bow shackles allowing greater movement. Breaking load is typically six times the working load limit.

Source: RVMAP Technical Alert - D Shackle Confusion Resolved, 20.10.2014

450-05000

DEE SHACKLE GALVANISED 8MM (5/16")

Not to be used with safety chains as this is a general purpose shackle.

HYDRAULIC CONVERSION WITH 3/4" MASTER CYLINDER

Converts mechanical couplings to hydraulic systems for more reliable braking. Suits hydraulic drum brake setups and is zinc plated.

TOWING MIRRORS

MILENCO TOWING MIRRORS

350-00401

MILENCO AERO 4 GRAND
AUTOMOTIVE CONVEX
GLASS TOWING MIRROR
(TWIN PACK)

The mirror head design (Registered Design) utilises airflow around your car to stabilise and balance the mirror head at speed. This mirror has been extensively tested at speeds up to 250kph (155 mph), to ensure that you get the best vision possible. This design also offers superior performance in high winds and the effect of passing large commercial vehicles has been minimised.

350-00402

MILENCO FALCON MIRRORS

Lightweight and strap-free, Falcon mirrors feature an aerodynamic head to reduce vibration while towing.

Easy to attach, just position the rubber grips on your side mirror and tighten the thumb wheels. The adjustable convex head maximizes tow vision.

Includes a storage bag and fits most 4WDs and vans like the Nissan Navara. Sold in pairs

SPECIFICATIONS

Mirror Head: 220W x 140H (mm)
Arm: 420mm

350-00405

MILENCO AERO 3 XXL WIDE CONVEX MIRROR(TWIN
PACK)

The Aero Extra Wide Mirrors and Grand Aero Extra Wide Mirrors are the same as the Aero 3 Mirrors and the Grand Aero 3 Mirrors.

This mirror has longer arms for wider caravans, RVs or travel trailers, the Extra Wide Mirrors are only available in convex.

This enables users to have a better field of vision, particularly in instances when they have a narrow car and a wide caravan.

350-00407

MILENCO GRAND AERO 3 EXTRA WIDE CONVEX TOWING
MIRROR (TWIN PACK)

The Aero Extra Wide Mirrors and Grand Aero Extra Wide Mirrors are the same as the Aero 3 Mirrors and the Grand Aero 3 Mirrors. These mirrors have longer arms for wider caravans, RVs or travel trailers, and the Extra Wide Mirrors are only available in convex.

The arm is approximately 41 cm, as opposed to the Aero standard arm of 31 cm.

This gives you a better field of view, particularly when you have a narrow car and a wide caravan.

TOWING MIRRORS

350-00403

MILENCO GRAND FALCON CONVEX TOWING MIRROR
TWIN PACK

The Grand Falcon Mirror offers a new design utilising a similar

operation as the Milenco Grand Aero Mirror, but with using only a single thumb screw on each clamp for quick and easy fitting with a larger head, giving maximum field of view.

Typically the larger field of view will show the roof, down to the wheels on the towed caravan/trailer.

Fitting is extremely simple with a single screw that clamps both the car mirror and the arm at the same time.

350-00409

MILENCO GRAND AERO PLATINUM TOW MIRRORS TWIN
PACK

The Aero Platinum Mirror is an innovative new design, specifically developed to securely fit to the extremely tapered mirror bezels, now found on increasing numbers of manufacturers vehicles to improve fuel efficiency by reducing aerodynamic drag.

350-00413

MILENCO MGI SAFETY
TOWING MIRROR CONVEX
SINGLES

This mirror is ideal for those who tow occasionally. The MGI Milenco Safety Mirrors are simple to fit, but more importantly, they meet all the latest Safety Regulations for Towing Mirrors. The tensioning straps and handles means they can be adjusted to fit most typical traditional car mirrors. Sold in singles

TOWING MIRRORS

REICH TOWING MIRRORS

Reich made quite a name for themselves when they developed the Move Control Series of caravan movers.

Now these innovative Germans have produced a range of towing mirrors designed to give you a vibration free, hassle-free & obstruction free towing experience.

They feature a turn knob which controls the length of the straps, ensuring maximum tightening security onto the existing car mirror.

350-00600

REICH EXCELLENT VIEW TOWING MIRROR

The pioneer in the Reich Mirror Series, adjustable clip-on mirror for vans, 4x4s, and motorhomes. Rigid design reduces vibration, with rubber pads to protect mirrors. Large 20 x 13 cm convex mirror. Sold singly.

350-00610

REICH HANDY MIRROR XL

Features adjustable straps with quick release, an adjustable mirror head, and jointed arms for larger vehicle mirrors. Large 20 x 13 cm convex mirror. Sold singly.

350-00620

REICH HANDY MIRROR XL EXTENDED

Same features as the XL mirror above but has longer arms making it suitable to tow wider & longer caravans. Sold singularly.

350-00640

REICH SPEEDFIX MIRROR

The name says it all! The Speedfix is a clip-on mirror with a patented rod end.

The innovative fastening system, in conjunction with a semi flex arm, ensures suitability with most 4WD and car mirrors. The rigid design and aerodynamic head ensures a vibration-free towing experience. Comes with a carry bag and is sold in pairs.

BRAKE CONTROLLERS

BRAKE CONTROLLERS

350-01232

TEKONSHA #9030 VOYAGER 12V BRAKE CONTROL

The Voyager has recessed controls which protect the gain and level settings from accidental readjustment.

Its internal sensor measures the amount of deceleration and sends the required amount of power to the trailer brakes. Its circuitry ensures minimum interference with other electronic systems such as ABS & cruise control. The Voyager has the traditional 4-wire hook up and comes with a U-shaped bracket for permanent installation. The LED display shows a complete circuit when green and as power (whether manual or automatic) is applied, it will change colour. Suitable for single and double axle trailers.

350-01254

TROJAN BREAKAWAY SWITCH

Ensures safe towing by activating trailer brakes if disconnected. Sealed for reliable performance in all conditions.

KEY FEATURES:

- ✓ Automatically engages trailer brakes if separation occurs
- ✓ Sealed construction for durability and weather resistance

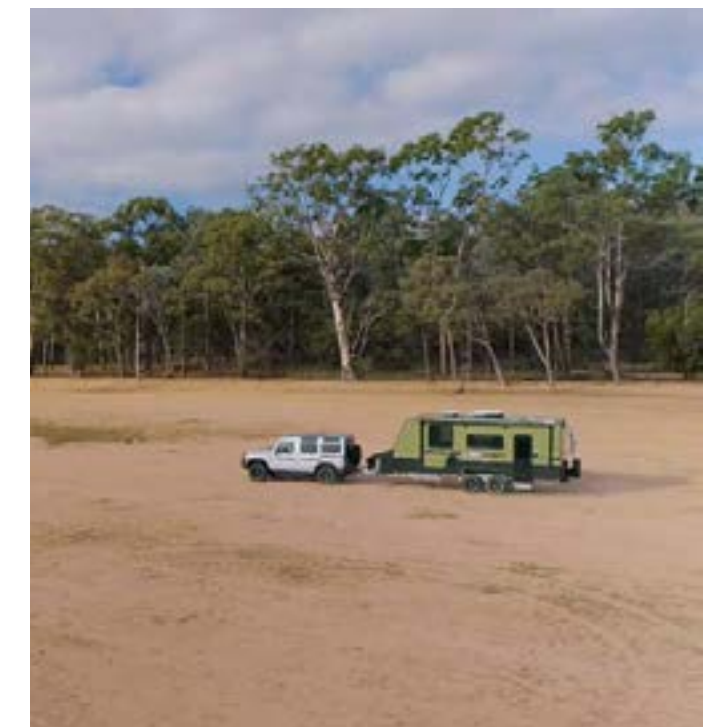

350-01274

BREAKSAFE REMOTE BATTERY MONITOR

Monitors the Breaksafe battery charge from the tow vehicle, with a warning light and buzzer if the battery is low.

**SPECIFICATIONS**

Dimensions (mm): 63W x 22H x 49L

BRAKE CONTROLLERS

CURT TRIFLEX™ BRAKE CONTROLLER

The TriFlex™ proportion-based brake controller features a compact size, a digital display and the ability to manage up to eight brakes at a time.

- ✓ Triple-axis accelerometer for responsive, smooth stops.
- ✓ Third axis provides dynamic power adjustments when going up or down a hill
- ✓ Nine levels of sensitivity adjustment for varying loads or driving conditions
- ✓ User-selectable power output and trailer brake light activation
- ✓ Automatic levelling and calibration eliminate setup requirements
- ✓ The digital display shows power adjustments in 0.1 increments
- ✓ Built-in reverse-polarity and short-circuit protection
- ✓ Tow vehicle 'low voltage' and trailer disconnect indicators
- ✓ Compatible with low-volt, PWM, ABS, cruise control and electric over hydraulic
- ✓ Mounts at various angles above or below dash for usability.
- ✓ Auto sleep mode prevents battery drain after 5 minutes of inactivity.
- ✓ Equipped with a quick plug for fast, easy installation
- ✓ Includes mounting hardware

BRAKE CONTROLLERS

350-01342

CURT SPECTRUM BRAKE CONTROLLER - DASH MOUNT

Powerful, precise braking in a sleek, dash-mounted design.

The CURT Spectrum Brake Controller offers modern performance with a compact, stylish interface.

- ✓ Push-button rotary knob easily adjusts brake settings
- ✓ OEM-style interface with 10 tri-colour LEDs for clear feedback
- ✓ Main module mounts out of sight or a clean dashboard look
- ✓ Built-in motion sensor ensures smooth, responsive braking
- ✓ Manual override provides instant control when needed
- ✓ Choose between drill or adhesive mounting options
- ✓ Automatic levelling and calibration for easy setup
- ✓ Operates 2-8 trailer brakes (1-4 axles) with consistent power
- ✓ Built-in reverse-polarity and short-circuit protection
- ✓ Compatible with low-voltage, ABS, PWM, cruise control, and electric-over-hydraulic systems.
- ✓ LED indicators alert you to trailer disconnect or low voltage
- ✓ Quick plug-and-play installation with included mounting hardware
- ✓ 48 mm knob diameter suits most dash layouts

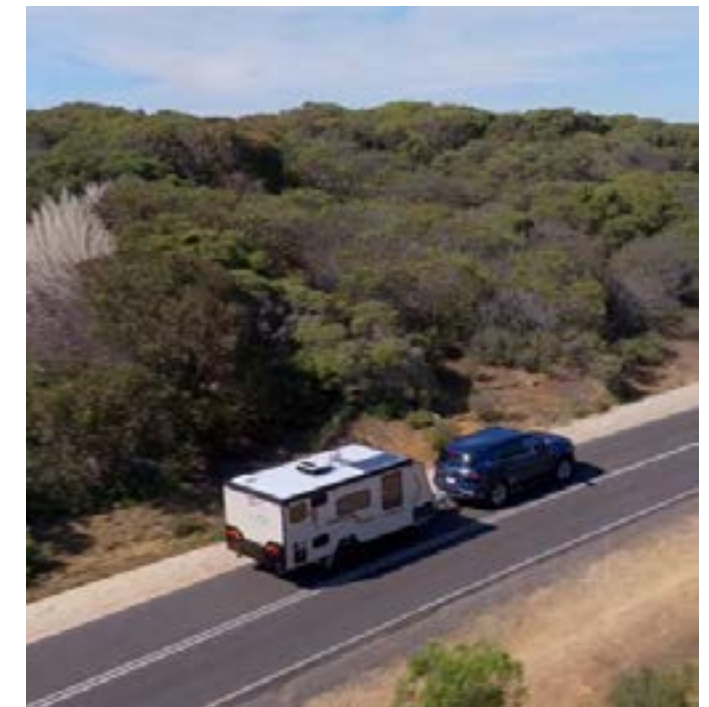

350-50000

CURT REBELLION™ XD BALL MOUNT

Dynamic, adaptive suspension ball mount featuring ShockDrop™ technology.

- ✓ Dynamic, adaptive suspension ball mount featuring ShockDrop™ technology
- ✓ Dampens jerking and jarring from bumps and potholes for smoother towing
- ✓ Cushioned isolator reduces rattling and vibration for a more comfortable ride
- ✓ Increases driver control by reducing trailer sway
- ✓ Improved trailer control during sudden braking
- ✓ Virtually maintenance-free with no airbag or bearings to service
- ✓ Six-position adjustable head for precise trailer levelling
- ✓ Cast steel construction for dependable towing power
- ✓ Tested and rated to 4500kg / 450kg
- ✓ Fits 50mm square hitch (Class 4)

350-05232

SECURELATCH™ PINTLE HOOK

The CURT SecureLatch pintle hook is fast and easy to adjust, featuring an auto-locking system and rated to 13,500kg. For use with the Rebellion™ XD Pintle Mount Attachment.

- ✓ Auto-locking system secures the primary latch with no manual coupling
- ✓ Cupped hook holds the pintle ring firmly to reduce noise and movement
- ✓ Built-in backplate helps position the pintle ring for easier hookup
- ✓ Quick, one-tool height adjustment with no disassembly required
- ✓ Integrated safety chain hangers keep chains off the ground
- ✓ Rated to 13,500kg gross trailer weight and 2720kg vertical load
- ✓ Suits pintle rings with 2-1/2" or 3" inside diameter
- ✓ Austempered cast iron construction for strength and durability
- ✓ Zinc-plated hardware for corrosion resistance
- ✓ Battleship grey finish for long-lasting exterior protection

**350-50002****REBELLION™ XD TONGUE ATTACHMENT
(50MM TOW BALL)**

7/8" hole to accept a 50mm tow ball.
Mounts onto CURT Rebellion™ XD
Adjustable Ball Mount.

- ✓ Mounts onto CURT Rebellion XD Adjustable Ball Mount
- ✓ 7/8" hole to accept a 50mm tow ball
- ✓ Constructed from cast steel for optimum strength
- ✓ Protected by a dark grey Teridium powder coat finish
- ✓ Weight capacity: 3500kg/350kg

**350-50004****REBELLION™ XD TONGUE ATTACHMENT
(70MM TOW BALL)**

- ✓ Mounts onto CURT Rebellion XD Adjustable Shank
- ✓ 1-1/4" hole to accept a 70mm tow ball
- ✓ Constructed from cast steel for optimum strength
- ✓ Protected by a dark grey Teridium powder coat finish
- ✓ Weight capacity: 4500kg/450kg

**350-50006****REBELLION™ XD PINTLE MOUNT
ATTACHMENT**

Accepts any CURT mount-style pintle hook or
ball and pintle combination hitch. Mounts onto
CURT Rebellion™ XD Adjustable Ball Mount.

- ✓ Mounts onto CURT Rebellion XD Adjustable Shank
- ✓ Accepts any CURT pintle hook or ball and pintle combo hitch
- ✓ Integrated rubber dampener for vibration resistance
- ✓ Cast steel construction for optimum strength
- ✓ Dark grey teridium powder coat finish
- ✓ Weight capacity limited to Rebellion XD ball mount
- ✓ Includes four bolts for mounting (Rebellion XD sold separately)

**350-50010****REBELLION™ XD TONGUE & HITCH
LOCK SET**

This lock set for the Rebellion™ XD
ball mount provides security for
your towing setup. The integrated
design fits all CURT Rebellion XD
accessories.

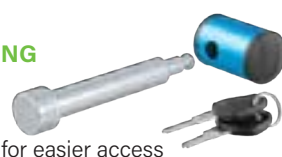

- ✓ Lock set secures both Rebellion XD tongue and shank
- ✓ Locks replace standard clips and hitch pin for increased security
- ✓ The unique integrated design fits all CURT Rebellion XD accessories
- ✓ Easy-to-operate, 1/4-turn lock activation
- ✓ Locks keyed alike for convenient one-key operation
- ✓ Cast aluminium accessory lock for superior weather resistance
- ✓ Stainless steel hitch lock for lasting rust resistance
- ✓ Includes two locks and two keys

**350-51002****CURT 5/8" GROOVED TOW HITCH PIN
WITH CLIP SET**

- ✓ 15.8mm diameter pin fits 50mm Square Hitch (Class 4)
- ✓ Secures ball mounts and other receiver tube inserts
- ✓ Grooved pin allows clip attachment at any angle
- ✓ Protected by a durable zinc-plated finish

**350-51010****CURT 5/8 IN RIGHT ANGLE LOCKING
TOW HITCH PIN**

- ✓ 15.8mm pin fits 50mm Square Hitch
- ✓ Right-angle design with swivel head for easier access
- ✓ Protected by a durable chrome-plated finish
- ✓ Easy-to-operate, 1/4-turn lock activation
- ✓ Watertight dust cap prevents internal corrosion
- ✓ Includes two keys for added convenience

**350-51012****CURT 5/8 IN DOGBONE LOCKING SS
TOW HITCH PIN**

- ✓ 15.8mm pin fits 50mm Square Hitch
- ✓ Stainless steel construction for lasting rust resistance
- ✓ Easy-to-operate, 1/4-turn lock activation
- ✓ Watertight dust cap prevents internal corrosion

**350-51014****CURT 5/8 IN DOGBONE CHROME
LOCKING TOW HITCH PIN**

- ✓ 15.8mm pin fits 50mm Square Hitch
- ✓ Protected by a durable chrome-plated finish
- ✓ Easy-to-operate, 1/4-turn lock activation
- ✓ Watertight dust cap prevents internal corrosion
- ✓ Includes two keys for added convenience

**350-52000****CURT TRUTRACK™ WEIGHT
DISTRIBUTION HITCH WITH SWAY
CONTROL**

TruTrack™ weight distribution hitches
with sway control are one of the most
advanced weight distribution hitches on the market.

- ✓ Integrated sway control actively resists sway and levels the vehicle and trailer
- ✓ Welded head with cast pieces provides solid spring bar attachment
- ✓ Uses spring & cam system with hardened components, instead of metal friction
- ✓ Adjustable brackets provide fixed support unlike spring bar chain models
- ✓ Brackets use friction to resist lateral movement, replacing a sway control

**350-52500****CURT SWAY CONTROL KIT**

CURT Sway Control Kit is adjustable and easy to install. It comes with a sway unit, a trailer-mounted attachment ball, and bolts, a hitch-mounted attachment ball, a weld-on tab, a mount reinforcement plate, and attachment clips.

Though a weight-distribution hitch is not an ideal solution for trailer sway on its own, CURT weight distribution hitches are made to be combined with a sway control unit and many are available with sway controls included for a complete package.

- ✓ Features adjustment bolt to accommodate different load sizes
- ✓ On/Off handle allows easy sway control engagement or release
- ✓ Two sway control units are recommended for larger trailers
- ✓ Compatible with most A-frame trailers (bolt-on bracket included)
- ✓ Includes sway control unit, trailer-mounted attachment ball & bolt, hitch-mounted attachment ball, weld-on tab to adapt for left-hand use or for use without weight distribution hitch, mount reinforcement plate and attachment clips.

**350-00030****CURT TRAILER BALLS**

CURT Trailer Balls are designed for strength,
ease of use, and ultimately, to get you to your destination without
hassle.

These tow balls are an excellent extension of
your class 3 or class 4 trailer hitch and ball
mount, and are the ideal choice for most
pickup trucks and SUVs (NOTE: Never
exceed the lowest weight capacity of any
towing component; i.e. the vehicle, hitch,
trailer, etc).

To give you peace of mind while towing to that
next destination, we also carefully test our trailer
balls and ensure that each one meets U.S.
VESC specifications.

- ✓ Fine threads for superior hold
- ✓ Chrome-plated finish
- ✓ Zinc-plated hardware
- ✓ VESC tested for safety

**450-00500****CURT WHEEL CHOCK SET
(UP TO 17" WIDE WHEELS)**

- ✓ Ideal for chocking wheels on a parked trailer
- ✓ Perfect for adding safety during vehicle maintenance
- ✓ Compatible with wheels up to 17" wide
- ✓ Raised tread offers a better grip on the wheel
- ✓ Saw-tooth edges on the base provide solid traction on the ground
- ✓ Constructed from durable plastic
- ✓ Always to be used with vehicle brake
- ✓ Not for commercial use

LIPPERT LCI SWAY COMMAND KIT

LIPPERT LCI SWAY COMMAND KIT

Tow with confidence. Tow with peace of mind. If you tow a travel trailer RV you know all too well how scary a sway event can be, especially when making emergency maneuvers at high speeds or in heavy crosswinds.

Lippert's new patent pending Sway Command Tow Control Technology is here to take away those fears and promote safety by applying the brakes before a sway event can get out of control!

The Sway Command utilizes both an accelerometer (measures lateral force) and gyroscope (measures angular velocity) to quickly and accurately differentiate between side-to-side and up-and-down movement to prevent false activation - very useful, especially off road!

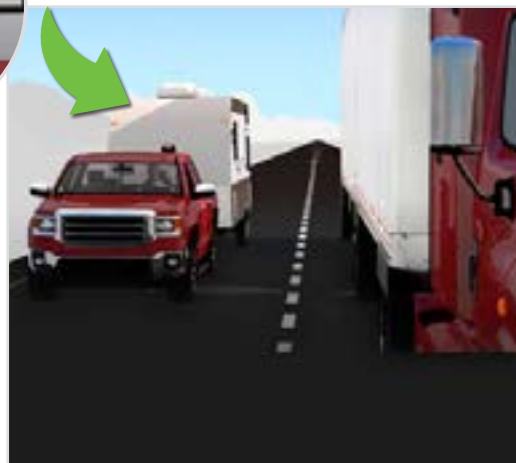

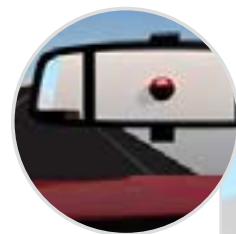

It has an advanced, patent pending, microprocessor technology that electronically detects trailer sway to apply the brakes swiftly to suppress unwanted sway. A light pod mounts to the front of the trailer to signal to the driver when the system is functioning properly.

The Sway Command has been rigorously tested in sway inducing towing conditions, including emergency maneuvers, so you can be confident in its abilities. Plus, the controller works independently from your existing brake control so if there is a short or disconnect in the tow vehicle connection, the Sway Command won't also be affected.

LCI SWAY COMMAND 1.5 AUS KIT

TRAVEL RACK PRO

COAST TRAVEL RACK PRO

350-20090

COAST TRAVEL RACK PRO
A-FRAME MOUNTED ACCESSORIES CARRIER

The perfect solution to help you transport bikes and other cargo on your next adventure. Featuring a durable and robust design, the rack easily attaches to your drawbar for improved versatility, visibility and access to your gear while you're on the road.

*Bike and bike carrier not included

FEATURES

✓ Increased storage space:

Coast Travel Rack Pro gives you the ability to add additional storage space and carrying racks for items that may not fit inside the caravan, such as bicycles, kayaks, luggage and outdoor gear.

✓ Enhanced versatility:

The Travel Rack Pro allows you to bring along more items on your trips, which can enhance the overall versatility of your caravan and make it more suitable for a wider range of activities. When you have arrived and set up at your destination, you can remove the bike rack from the travel rack pro and use it on your car's tow ball for the day trips away.

✓ Easy to install:

Coast Travel Rack Pro is easy to install and doesn't require drilling, which makes it a convenient and accessible option for most people.

✓ Durable and Robust:

The Travel Rack Pro is made of steel, which will withstand the rigours of the road and safely carry loads up to 60kg.

✓ Cost-effective:

A cargo rack is often a cost-effective solution for adding storage space and versatility to your caravan without having to buy a larger vehicle.

Additional attachments and accessories are currently in development and will be available soon.

350-20092

COAST TRAVEL RACK PRO
HARDWARE COVERS & END CAPS

Durable Protection for Your Rack. These Plastic End Caps fit U-bolts and bar ends, offering a clean finish and added durability to your Coast Travel Rack Pro, ensuring it stands out and stays protected.

COAST RV CARAVAN BIKE RACK

COAST RV CARAVAN BIKE RACK

Carry more and explore further with the Coast RV X-Series bike racks, available in X2 and X4 options, designed for secure A-frame mounting while keeping drawbar access clear for every adventure.

Take your bikes on every trip with confidence using the Coast RV X2 and X4 Caravan Bike Racks. Designed for caravan A-frame drawbars, these elevated racks securely carry two or four bikes while maintaining access to gas bottles, toolboxes and other drawbar fittings. Built for Australian touring conditions, both racks use high-grade Extra 400 steel with zinc plating and a textured powder-coated finish for durability. The pivoting design allows safe rotation, giving easy access to drawbar storage without removing the bikes.

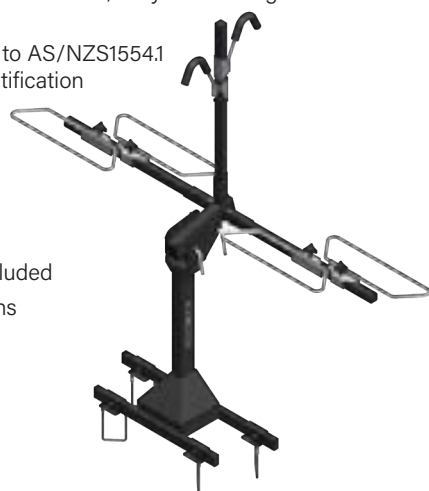

350-20052

COAST RV X2 CARAVAN BIKE RACK 2 BIKE

- ✓ Designed for caravans – A-frame bike carrier purpose-built for drawbar mounting
- ✓ Carries 2 bikes – elevated rack suitable for wheel sizes from 20" to 29"
- ✓ Heavy-duty construction – made from Extra 400 high-grade steel
- ✓ Durable protection – zinc plated and Textura powder-coated for corrosion resistance
- ✓ 60kg load capacity – strong enough for modern touring bikes
- ✓ Pivoting design – rack rotates for safe, easy access to gas bottles and toolboxes
- ✓ Certified quality – welding to AS/NZS1554.1 standard and ISO 9001 certification
- ✓ Rack weight – 30.7kg including all hardware

WHAT'S IN THE BOX

- ✓ 1x Coast RV X2 Caravan Bike Rack (2 Bike)
- ✓ All mounting hardware included
- ✓ User installation instructions

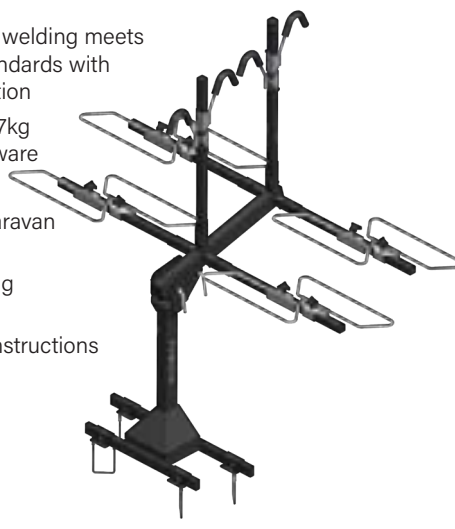

350-20054

COAST RV X4 CARAVAN BIKE RACK 4 BIKE

- ✓ Designed for caravans – A-frame rack tailored for drawbar installation
- ✓ Carries 4 bikes – elevated rack suitable for wheel sizes from 20" to 29"
- ✓ Heavy-duty construction – Extra 400 high-grade steel frame
- ✓ Long-lasting protection – zinc plated and Textura powder-coated finish
- ✓ 80kg load capacity – ideal for multiple family bikes or e-bikes
- ✓ Pivoting design – rack rotation gives safe access to gas bottles and toolboxes
- ✓ Certified quality – welding meets AS/NZS1554.1 standards with ISO 9001 certification
- ✓ Rack weight – 45.7kg including all hardware

WHAT'S IN THE BOX

- ✓ 1x Coast RV X4 Caravan Bike Rack (4 Bike)
- ✓ Complete mounting hardware set
- ✓ User installation instructions

QUICK FIT BIKE RACKS

QUICK FIT BIKE RACKS

350-20100

QUICK FIT XF3 FOLDING BIKE RACK 60KG CAP

The Quick Fit XF3 securely transports 3 bicycles.

- ✓ Compatible with most tow bars and bikes (including e-bikes)
- ✓ Ingenious folding system for easy transport and storage
- ✓ Quick and simple fitting with patented quick connector
- ✓ Boot remains accessible with the tilt mechanism
- ✓ Stable aluminium wheel holders for bikes
- ✓ Lockable and removable Quick Fit frame holders
- ✓ Includes storage bag and 7-plug lighting
- ✓ Secures with lock on quick connector
- ✓ Compatible with ride-on ramp (350-20120) for easier bike loading

SPECIFICATIONS

Number of bicycles: 3
Tilttable: Yes
Foldable: Yes
Mounting of bicycles by lockable and removable frame holders
Weight: approx. 21 kg
Maximum load: 60 kg
Bicycle frame diameter: Ø 22 - 75 mm*
Wheel base bicycle max: 1250 mm
Bicycle tyre width max: 55 mm
Wheel holder distance: approx. 220mm
Colour: Black
Material: Coated steel + aluminium

350-20102

QUICK FIT XF2 FOLDING BIKE RACK 60KG CAP

The Quick Fit XF2 safely carries 2 bicycles reliably.

- ✓ Fits most tow bars and bikes (including e-bikes)
- ✓ Folds for easy transport and storage
- ✓ Quick fitting with patented connector, tilt mechanism for boot access
- ✓ Stable aluminium wheel holders, lockable/removable frame holders
- ✓ Ready to use, secured with quick connector lock
- ✓ Compatible with ride-on ramp (350-20120) for easier loading

SPECIFICATIONS

Number of bicycles: 2
Tilttable: Yes
Foldable: Yes
Mounting of bicycles by lockable and removable frame holders
Weight: approx. 17 kg
Maximum load: 60 kg
Bicycle frame diameter: Ø 22 - 75 mm*
Wheel base bicycle max: 1400 mm
Bicycle tyre width max: 50 mm
Wheel holder distance: approx. 210mm
Colour: Black
Material: Coated steel + aluminium

* Vehicle (with load) must stay under 2.5m wide, 4.3m high, and rear overhang under 60% of wheelbase or 3.7m

QUICK FIT ASSIST RAMPS

A ramp makes effort unnecessary and bicycles can be easily manoeuvred onto the bike carrier. These ramps are suitable for Quick Fit bike carriers and are easy to fold up and store.

By placing a pin in the bike carrier's wheel holder, you can attach the ride-on ramp firmly and manoeuvre the bikes on and off easily.

QUICK FIT PRO BIKE ASSIST RAMP

350-02028
FIAMMA CARRY-BIKE
CARAVAN XL A - NAT ALUM
50KG RATED

A compact solution for transporting up to two bicycles! The Fiamma Carry Bike XL A fits caravans with a standard A-frame, pivoting forward for storage access. It supports two bikes with a total weight of 35kg and features a lightweight, sturdy frame with an anodised finish.

- ✓ No drilling required for installation
- ✓ Reinforced rail support with an aluminium blocking system
- ✓ Includes installation brackets and hardware

SPECIFICATIONS

Suits caravans (including Hobby & Al-Ko) with an A-frame (up to 130mm deep)
 Capacity: 2 bikes (max total weight 35kg)
 Dimensions: 1280mm (W) x 380mm (D) x 1000mm (H)
 Weight: 5.3kg
 Note: Remove any A-frame covers before fitting

350-02004
FIAMMA CARRY BIKE CARAVAN
XL A PRO 200 E-BIKE - NAT ALUM

Equipped with an external two-piece rail for versatile installation, this bike rack is perfect for shorter drawbars. It fits all caravans with standard A-frames, including Hobby models with extended frames and new Alko frames (minimum A-frame size: 34.2cm)

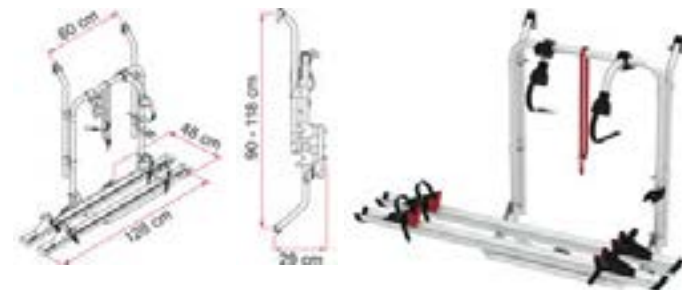

- ✓ No drilling required
- ✓ Tilts forward for gas bottle locker access, even with bikes

- mounted
- ✓ Carries 2 standard bikes or 2 e-bikes

350-02017
FIAMMA CARRY BIKE VAN 200D

An easily installed bike carrier for vans with double rear doors (no need to drill the vehicle). The wheelbase is adaptable, from 58 – 62cm, to adapt to different sized doors. Carries up to two bicycles and is suited to vehicles such as: Fiat Ducato before 1999, Ford Transit and Ford Transit (high roof).

SPECIFICATIONS

Max Load Weight: 35kg

350-02043

FIAMMA CARRY BIKE PRO

Anodised aluminium frame with oval section tubes, height adjustable from 80 to 150cm.

SPECIFICATIONS

Wheelbase: 80 - 150cm
 Max. load: 60kg
 Capacity: 2 / 4 max

350-02045

FIAMMA CARRY BIKE PRO C
WITH BLACK AESTHETICS
40-80CM MOUNT HEIGHT

Compact structure with adjustable height from 40 to 80cm, ideal for vehicles with rear window.

SPECIFICATIONS

Wheelbase: 40 - 80cm
 Max. load: 60kg
 Capacity: 2 E-Bikes

350-02136

FIAMMA CARRY-BIKE LIFT 77
MANUAL WINCH

The Fiamma Lift 77 bike carrier features a tilting shelf that lowers by 77cm, allowing for easy loading and unloading of bicycles. With its adjustable height, the carrier adapts to different needs and preferences. It takes approximately 1 minute and 30 seconds to fully ascend or descend under load.

FIAMMA CARRY BIKE ACCESSORIES

350-02000

FIAMMA BIKE FRAME
ADAPTER

Frame adapter for easy attachment to Bike-Block of bikes with non-standard frames without a cross bar such as ladies bikes and BMX's.

350-02252

FIAMMA CABLE LOCK FOR CARRY BIKE
2.5M

Comes with 2 keys.

350-02340

FIAMMA BIKE RAIL PLUS

NAT ALUM with BLK End Caps & Quick Strap- 128cm.

350-02602

FIAMMA CARRY BIKE MOTORISED
(12V) LIFT 77

One of the most practical motorised bike carrier models, suitable for many different motorhomes. Max Load 60kg

350-02052

FIAMMA CARRY BIKE UL

The UL bike rack is designed for motorhomes without a rear window and carries two bikes as standard. To add a third bike (max load 55kg), an extra Bike-Block and Rail are required. Weighing 5.6kg, the rack features adjustable mounting bars from 80-150cm, making it a preferred choice among motorhome manufacturers.

350-02290

FIAMMA BIKE - RACK RAIL 128CM

With Quick Strap.

350-02298

FIAMMA CARRY BIKE RAIL PREMIUM 128CM

350-02215

FIAMMA RAIL PREMIUM XL (E - BIKE)

The XL version is longer (139cm) and suited for particularly long E-Bikes and Mountain-Bikes (with wheelbase > 125cm).

350-02350

FIAMMA CARRY BIKE RACK HOLDER

A locking system for added security when not carrying any bikes.

350-02501

FIAMMA BIKE COVER PREMIUM S 2/4 BIKES

Same features as the Bike Cover S but with self-lubricating side zippers and velcro, forms a complete enclosure around the bikes. For a correct installation, you must place it before bicycles.

350-02503

FIAMMA BIKE COVER S 2 TO 3 BIKES SOLD EACH

It adapts to any size load thanks to its adjustable straps. Delivered as standard with transparent pocket to insert the rear signal plate.

350-02521

FIAMMA BIKE COVER EXTRA STRONG "CARAVAN"

With K-Way system, special version to cover bikes on Carry Bike CaravanXL A, XL A PRO /E-Bike & Active / E-Bike.

350-02530N

FIAMMA CARRY BIKE COVER S

Made from lightweight and waterproof polyester, the Bike Cover S has the capacity to cover up to x4 bicycles, thanks to its adjustable straps (with hooks). It comes with a transparent pocket to insert a rear signal plate. Please note, the Bike Cover S is not suitable for bike racks where the bicycles are exposed over the top of the roof.

Weighs: 1kg

HAYMAN REESE WEIGHT DISTRIBUTION SYSTEMS

Hayman Reese, Australia's trusted towing brand for over 60 years, delivers reliable Weight Distribution Systems that restore vehicle balance, enhance control, and reduce sway for safer towing.

Hayman Reese, Australia's leading towing brand for over 60 years, proudly backs their products with a comprehensive Lifetime Warranty. Weight Distribution Systems (WDS) restore your vehicle's geometry by transferring weight from the rear wheels to both the front wheels and trailer wheels, leveling the connection between the trailer and vehicle for safer and improved handling.

Without a WDS, the trailer's ball weight raises the vehicle's front suspension, causing trailer sway, reduced steering and braking responsiveness, poor traction, and misaligned headlights. Over time, this can lead to lower fuel efficiency and increased tyre wear, especially on the rear tyres. Hayman Reese offers a range of WDS to enhance control and reduce sway while towing.

Check the table on the side to find the best WDS for your specific towing requirements

Ball Weight:	RECOMMENDED WEIGHT DISTRIBUTION SYSTEM				
	Mini	Intermediate	Medium	Heavy	Super Heavy
0-80kg	✓				
80-135kg		✓			
135-275kg			✓		
275-365kg				✓	
365-545kg					✓

350-05300

HAYMAN REESE 180LB MINI

The Mini WDS is the solution for towing lighter ball weights such as a trailer. It is a two bar system (19mm diameter) which uses chains to hold the spring bars into position and can be used with any Hayman Reese towbar. It is easily setup and removed and is best suited to trailers with a ball weight up to 80kg.

350-05310

HAYMAN REESE 285LB INTERMEDIATE

The Intermediate WDS is the solution for towing intermediate ball weights such as a camper trailer. It is a four bar system (19mm diameter) which has a working range of between 80kg and 135kg ball weights.

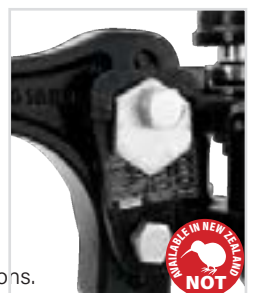

The snap up brackets make raising and lowering the chains effortless. There are also triangular plates which allow you to adjust and equalize each pair of bars together.

350-05320

HAYMAN REESE 600LB STANDARD MEDIUM 30" SPRING BARS

Australia's most popular towing aid, rated for trailers with 135 to 275kg ball weight. Features a durable, lightweight cast steel head, hook style spring bars with integrated cams for 6 inch A-frames, and a Hex Cam washer with six head angle adjustment options.

HAYMAN REESE HITCHES

350-05330

**HAYMAN REESE 600LB
CLASSIC MEDIUM 30"
SPRING BARS**

The Classic WDS is similar to the 600lbs Standard WDS but features Hayman Reese's traditional welded head. It has straight, trunnion-style spring bars with integrated cams and a durable, lightweight cast steel shank.

Suitable for towing most popular caravans, it supports a ball weight of 135kg to 275kg.

350-05340

**HAYMAN REESE 600LB
CLASSIC MEDIUM 28"
SPRING BARS**

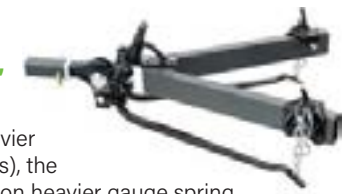

This WDS has all the same features and benefits as the 600lbs Classic Medium WDS above, except that it has slightly shorter spring bars. This is to accommodate caravans or horse floats with a shorter A-frame. It is also suitable for towing most popular caravans and also has a ball weight capacity of between 135kg & 275kg.

350-05350

**HAYMAN REESE 800LB
STANDARD HEAVY DUTY 30"
SPRING BARS**

Suitable for towing larger and heavier trailers (such as twin axle caravans), the Standard Heavy Duty WDS relies on heavier gauge spring bars to handle the heavier load. This WDS has a ball weight capacity of between 275kg and 365kg and has 30" hook style spring bars with integrated cams. A Hex Cam adjustment washer allows for up to six head-angle adjustments, while the drop shank allows for up to six height adjustments.

350-05380

**HAYMAN REESE 1200LB
SUPER HEAVY DUTY**

The Super Heavy WDS has a working ball weight range of between 365kg and 545kg.

Please note however, that if you intend to carry a load in excess of 3,500kg, you will need a 70mm tow ball. Manufactured for serious heavy-duty towing, it has a fine tooth adjustment washer which allows for up to nine head angle adjustments. The drop shank allows for six height adjustments and because of the added weight, Hayman Reese have made it compatible with the Dual Cam HP Sway Control (this is available separately).

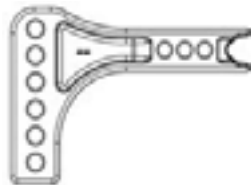

DROP SHANKS FOR HAYMAN REESE WEIGHT DISTRIBUTION SYSTEMS AVAILABLE

Hayman Reese have a range of Drop Shanks available to setup the system on 4WD's and other vehicles where the lowest/ highest setting is not low/ high enough. Please seek advice from your Coast stockist to check which Drop Shanks are compatible with your vehicle.

Towing Tips

All trailers, including caravans, affect the performance of the towing vehicle. They affect fuel consumption, acceleration, braking ability, general control and manoeuvrability. These effects worsen as the size and weight of the trailer increase relative to that of the towing vehicle. The extra length and width can be hard to manage, with wind, road roughness and passing vehicles having a greater effect than on the vehicle alone. This puts additional responsibilities on a driver.

The following information applies to vehicles not exceeding 4.5 tons gross vehicle mass (GVM).

Rules for Towing

- ✓ Towing more than one trailer at a time is not allowed
- ✓ Nobody is allowed to ride in trailers or caravans
- ✓ When towing and driving on a road without street lights, drive at least 60m behind heavy vehicles or other vehicles towing trailers, unless overtaking
- ✓ Learner drivers and learner and provisional motorcycle riders are not allowed to tow
- ✓ P1 car license holders can tow small trailers with up to 250kg of unloaded weight.

Remember

- ✓ Allow longer distances for braking, overtaking and joining a traffic stream
- ✓ When reversing, it is advisable to have someone outside the vehicle giving directions
- ✓ Look further ahead than normal so you can react to changes in traffic or road conditions
- ✓ Use a lower gear when travelling downhill to increase vehicle control and reduce strain on brakes
- ✓ Slow down well before entering corners and curves
- ✓ Trailers tend to jerk the back of the vehicle around and can cause sway (snaking). If a trailer starts to sway, the vehicle's brakes should not be applied, except as an absolute last resort. If the trailer's brakes can be operated by themselves they should be applied gently, otherwise a steady speed or SOME EAZ LIFT WDH QUESTIONS slight acceleration should be held if possible until the sway stops
- ✓ Take care not to hold up traffic unnecessarily
- ✓ Plan more rest stops and shorter travelling days as towing is more stressful and tiring than normal driving
- ✓ There is no specific speed restriction while towing a trailer. However, the posted speed limits must not be exceeded. Always drive to the road, traffic and weather conditions.

Before each trip, check

- ✓ Vehicle and trailer are roadworthy.
- ✓ All tyres are properly inflated.
- ✓ Trailer's wheel-bearings, suspension and brakes work properly.
- ✓ All lights work and safety chains are properly connected.
- ✓ Oil, water, brake fluid, battery and other service checks on the vehicle.

At regular intervals during the trip, check

- ✓ Couplings, all doors, hatches, covers and any load or equipment are still properly secured.
- ✓ If travelling to another State, check with the relevant roads authority whether there are different rules.

The Towing Vehicle

Vehicles must be suited to the trailer. Vehicle manufacturers usually indicate in the owner's manuals the maximum weight and

other features of trailers appropriate for the vehicle. These limits should not be exceeded.

Registration

- ✓ All vehicles must comply with all relevant standards for registration and be roadworthy at all times
- ✓ Rear number plates and lights must not be obscured by the tow bar when there is no trailer connected.

Towing vehicles must be properly equipped with:

- ✓ Tow bars and couplings of a suitable type and capacity
- ✓ Electrical sockets for lighting
- ✓ Brake connections if the trailer is fitted with power or electric brakes

Additionally

- ✓ For vehicles with automatic transmission, an extra transmission oil cooler may be needed
- ✓ Some vehicles need structural reinforcement and/or special suspension and transmission options and load-distributing devices to be able to tow heavier trailers.

Tow Bar

A properly designed and fitted tow bar is essential for towing. The rated capacity of the tow bar and coupling should not be exceeded.

The tow bar should be clearly and permanently marked with its:

- ✓ Maximum rated capacity
- ✓ Make and model of the vehicle it is intended for or the manufacturer's part number
- ✓ Manufacturer's name or trade mark.

This is compulsory for vehicles built after 1 January 1992. The exception is where the tow bar is a permanent part of the vehicle.

Tow bars must not protrude dangerously when there is no trailer connected

Load Equalizers

- ✓ Help the vehicle retain normal suspension height and effective steering control
- ✓ Transfer some of the weight from the tow bar to the front and rear suspension of the vehicle.

As load equalizers may overload the tow bar and its components, check with the tow bar manufacturer for advice before use.

The Trailer

Trailers must be a suitable size and type for their intended tasks. They must be built to meet the standards for registration. If a trailer is required to be registered it must be fitted with a rear number plate.

Towing Ratio Requirement

The loaded mass of the trailer must not exceed the lesser of:

- ✓ Rated capacity of the tow bar and tow coupling.
- ✓ Maximum towing capacity of the vehicle.
- ✓ Maximum carrying capacity of the trailer.
- ✓ Maximum rated carrying capacity of the tyres.

If the vehicle manufacturer has not specified the maximum towing mass, the maximum towing mass is:

- ✓ One and a half times the unladen mass of the towing vehicle, provided that the trailer is fitted with brakes which are connected and in working order, or
- ✓ The unladen mass of the towing vehicle if the trailer does not require brakes. Vehicles with a manufacturer's gross combination

mass (GCM) more than 4.5 tons may tow in accordance with the above requirements. The GCM is the gross combination mass of the car and loaded trailer.

Braking System

The minimum braking system for a trailer depends on the type of trailer, its weight and the weight of the vehicle:

- ✓ 0 – 750 kg loaded weight – no brakes required.
- ✓ 751 – 2000 kg loaded weight – braking on both wheels on at least one axle.
- ✓ 2001 – 4500 kg loaded weight – braking on all wheels, and an automatic breakaway system in case the trailer becomes detached from the vehicle.

Brakes must be operable from the driver's seating position.

Towing Coupling

All couplings:

- ✓ Must be strong enough to take the weight of a fully loaded trailer.
- ✓ Should be marked with the manufacturer's name or trade mark and rated capacity.
- ✓ Must be equipped with a positive locking mechanism. The locking mechanism must be able to be released regardless of the angle of the trailer to the towing vehicle.

Safety Chains

- ✓ Must comply with Australian Standards.
- ✓ Trailers less than 2500kg when loaded must be fitted with at least one safety chain.
- ✓ Trailers over 2500kg when loaded must be fitted with two safety chains.

To prevent the front end of the drawbar from hitting the ground if the coupling is disconnected, safety chains must be:

- ✓ As short as practicable and connected to the towing vehicle.
- ✓ Crossed over if two chains are fitted.

Loading Trailers

It is important that trailers are not overloaded and that loads are properly secured to or contained within the trailer:

- ✓ A load must not project more than 150mm beyond the trailer's width or be more than 2.5m overall width, whichever is less.
- ✓ Loads that project more than 1.2m behind a trailer must have a red flag attached to the end of the load. This flag must be at least 300 mm square and clearly visible. To avoid having an over hanging load, you should purchase a trailer that suitably contains the load.
- ✓ Overall length of the vehicle and trailer combination including its load must not be more than 19m.
- ✓ To reduce sway, heavy loads should be concentrated towards the centre of the trailer.
- ✓ Loads should be kept as low and as close as possible to the axle or axles with about 60% of the total weight forward of the centre of the axle or axles. As a general rule, about 5-10% of the total mass of the trailer plus load should be supported by the vehicle through the coupling. The trailer drawbar should be level or slightly 'nose down'.

HEADLOKT BIKE HELMET

This inspired the creation of Headlokt—a helmet that doubles as a lock. Designed for cyclists who value both safety and practicality, Headlokt eliminates the hassle of forgetting locks or awkwardly carrying helmets while shopping. Combining smart design with safety standards, Headlokt revolutionises bike security as the world's first helmet that's also a lock. Discover the innovation behind Headlokt and experience the perfect blend of style, convenience, and protection for your rides.

350-06810
HEADLOKT WHITE BICYCLE
HELMET SMALL 53-55CM

350-06812
HEADLOKT WHITE BICYCLE
HELMET MEDIUM 55-58CM

350-06814
HEADLOKT WHITE BICYCLE
HELMET LARGE 58-61CM

Headlokt is the first helmet that doubles as a lock, featuring an integrated retractable cable lock. The sleek Matt Black shell is complemented by Aqua detailing on the dial and padding.

Combining urban style with functionality, Headlokt keeps riders safe and their bikes secure

FEATURES

- ✓ First class design and utility for your everyday riding so it looks good and is practical.
- ✓ A hard-wearing cable and combination lock allow you to secure both your bike and helmet. Keeping the important stuff safe at all times.
- ✓ Fully integrated lightweight lock unit seamlessly fitting the shape of the helmet.
- ✓ Rear dial for precise and adjustments and fit to individual head sizing.

350-06816
HEADLOKT BLACK BICYCLE

COAST MELAMINE DINNER SET

COAST MELAMINE DINNER SET

Ideal for travel, these lightweight and durable melamine dinner sets come in stylish designs. While not microwave-safe, they're conveniently dishwasher safe (top rack only), making them a practical choice for life on the go.

400-00262

COAST 100% MELAMINE 16PCS DINNER SET DANDELIONS

Set includes 4 of each:

- ✓ Dinner Plates
- ✓ Side Plates
- ✓ Bowls
- ✓ Coffee Cups

400-00264

COAST 100% MELAMINE 16PCS DINNER SET DESTINATIONS

Set includes 4 of each:

- ✓ Dinner Plates
- ✓ Side Plates
- ✓ Bowls
- ✓ Coffee Cups

These lightweight and durable melamine dinner sets are available in two contemporary designs, perfect for travelling. The 100% melamine dinner set features a stylish white base with a two-toned grey dandelion design, making it ideal for use in camping, RVs, caravans, and boats. Offering exceptional durability, these sets are lightweight with a porcelain-like feel. They're easy to clean and provide an excellent, eco-friendly alternative to disposable plastic plates and cups.

CAMCO DINNERWARE

CAMCO MELAMINE RANGE

The "Life is Better at the Campsite" range features a durable, virtually unbreakable melamine construction with a white background and multi-colour RV and truck design, as well as an alternative blue tree and truck design. Perfect for boats, camping, and RVs, this BPA-free dinnerware is easy to clean and top-rack dishwasher safe. Each design is sold in boxes of 12. Please note, this dinnerware is not microwave-safe.

CARAVAN ACCESSORIES

400-90000N

BOATIES FRYPAN

Designed for use in RVs where stove and cooking space is limited, the Boaties Frypan has a rectangular shape and is made of heavy gauge aluminium. This, combined with a double layer of non-stick coating, creates a quality frypan with excellent heat transfer and even cooking temperatures. The handle is compact and has an ovenproof (max oven temperature: 220°C) silicone grip, remember to take care as the grip will get very hot. The front edge is conveniently sloped whilst the rounded corners make pouring liquid contents easy. Suitable to use on gas, electric and induction hobs.

400-00495

FIAMMA EASY DRY

Suitable for use with any Fiamma Carry Bike, the Easy Dry is quickly installed onto the rail support base, without the need to drill anything. It can also be used on other bike carriers, provided their tube diameter is 35mm. The Easy Dry is a great option to dry towels or swimmers as they come with plasticized ropes and the width is adjustable for slightly larger items. It is made from anodized aluminium with a 22mm diameter, making it sturdy but lightweight. Has eight lines.

SPECIFICATIONS

Length (cm): Adjustable from 100 – 120
Closed Width (cm): 37
Open Width (cm): 60
Weight (kg): 1.2

400-90010N

BOATIES BAKING PAN

The Boaties Baking pan has all the same structural features as the Boaties Frypan (above) except that it is slightly larger and has a detachable silicone grip handle. With the Boaties Baking pan, you're able to roast and bake. Meals can be prepared on the stove top and then transferred to the oven for cooking.

SPECIFICATIONS

Dimensions: 21L x 31W x 6D (cm)

400-90020N

BOATIES FRYPAN LID

The Boaties Frypan Lid is made from stainless steel and is suitable for use on the Frypan. It stops splatter and enables it to be used as a casserole dish. It also features a handy steam vent.

400-00530

RV & MARINE MINI DISH DRAINER

Fits RV sinks & is sized just right for limited counter space. Its sloped drainer tray keeps counters dry. When your dishes are dry, simply snap the drain tray back onto the top of the rack for handy storage. Made from a durable, heavy-duty plastic it even has space for utensils.

400-00546

CAMCO STACK-A-PLATE

The Stack-A-Plate keeps plates secure and organised during travel with a non-slip backing to prevent movement in your RV cupboard. Made from bright white, durable plastic, it's dishwasher safe (top rack). This two-piece set holds plate up to 26cm and 18.4cm

400-00642

POP-A-BAG HOLDER

Stores grocery bags efficiently. The plastic bag holder/dispenser mounts easily onto walls or inside cabinets with screws or double sided tape. Comes in white & holds up to 25 grocery bags.

400-00650

ADJUSTABLE BROOM WITH CLIP ON DUST PAN

Full size broom telescopes down to store compactly. Soft-bristled head adjusts to different angles for maximum cleaning power. The handle length is adjustable from 61 - 132(cm) & the dustpan clips onto the broom handle for storage.

400-00654

RV FOLDING IRONING BOARD

A wooden tabletop ironing board with fabric cover that is small & easy to use. It features a sturdy chrome-wire iron rest & measures 81L x 30W (cm) when set up for use.

400-00656

RV WALL MOUNT TRASH CAN

A compact trash can that can be mounted onto a wall or inside a cabinet. Features a handy swing-top lid & comes with screws for mounting.

SPECIFICATIONS

Dimensions: 13W x 28H (cm)

CAMCO FRIDGE ACCESSORIES

400-00690

FRIDGE BRACE

Keep food from sliding as you travel. The Fridge Brace helps to keep cartons upright to reduce the risk of messy spills. Comes in a pack of 2.

SPECIFICATIONS

Weight: 145g
Dimensions: 73D x 130W x 135H (mm)

400-00692

DOUBLE FRIDGE BAR

Keep order in your RV's fridge whilst travelling. These spring loaded bars keep items in place and extend from 406 – 711 (mm).

SPECIFICATIONS

Weight: 295g
Dimensions: 19D x 102W x 476H (mm)

400-00694

REFRIGERATOR BARS

These are x 3 single bars that act in the same manner as the Double Fridge Bar (above).

SPECIFICATIONS

Weight: 349g
Dimensions: 17D x 92W x 594H (mm)

400-00686

CAMCO FRIDGE AIRATOR WITH ON/OFF SWITCH

Camco RV Fridge Airator helps to cool the RV fridge evenly and keeps your food fresher. The Fridge Airator features a high-volume air circulator that absorbs odours with replaceable activated charcoal pack. Battery operated. Version with on/off switch available for easy use.

- ✓ Absorbs odours with activated charcoal
- ✓ Keeps food fresher by cooling your fridge evenly
- ✓ On/off switch saves battery life
- ✓ Perfect for any small sized refrigerator
- ✓ Replaceable charcoal pack included
- ✓ Runs on two size D batteries (not included)

400-00696

CAMCO MINI ICE CUBE TRAY PACK OF 2

Small trays fit perfectly into RV or marine freezers. Provides small size cubes for quick freezing.

SPECIFICATIONS

Length: 22.86cm
Width: 10.16cm
Height: 2.54cm

CARAVAN ACCESSORIES

FLAT OUT STORAGE REELS

Flat Out Storage Reels were made for the harsh Australian environment. They are the ideal storage solution for electrical leads or any of the Flat Out Hoses. Made from a grey, impact resistant plastic, they feature a turning handle (to assist with winding up) & a grip handle for comfortable carrying. Great for domestic, travelling & even the construction industry, they come with a Flat Out limited 3 year guarantee.

400-00700**FLAT OUT MULTI-REEL**

Can hold one of the following:

- ✓ 40m of heavy-duty power lead
- ✓ 18m of flat drink water hose
- ✓ 9m of flat sullage hose
- ✓ 375 x 80 (mm)

**400-00710****FLAT-OUT BARE COMPACT-REEL**

Can hold one of the following:

- ✓ 20m of heavy-duty power lead
- ✓ 12m of flat drink water hose
- ✓ 7m of flat sullage hose
- ✓ 300 x 65 (mm)

**400-00800****FIAMMA OMNI STOP**

An innovative yet simple accessory, ideal for keeping plates & items in place as you travel. Easy to lock & unlock, the securing bar is made from anodized aluminium & is 25cm high. The support handle is made from a sturdy plastic & is 20cm long.

**400-00850****FIAMMA SOAP DISPENSER**

A 200ml refillable liquid dispenser ideal for soap or shampoo. The container is transparent which helps to identify when you're running low. Its heavy-duty push style pump ensures no mess with every use.

**SPECIFICATIONS**

Dimensions: 150H x 8D x 55W (mm)

400-00900**FIAMMA MOSQUITO NET FOR MOTORHOMES & CARAVANS**

The mosquito net consists of two overlapping panels, each being 230 x 35 (cm). The bottom of each panel is reinforced & stays taut. It is easily installed by sliding into the wall track provided.

POLE CARRIERS & ACCESSORIES

400-01100**POLE CARRIER (200CM X 15CM)**

CARAVAN ACCESSORIES

COAST RV POLE CARRIER

A lightweight PVC carrier designed to keep annexe poles, awning rafters and other long gear secure and protected in transit. It reduces clutter inside your van and mounts easily to your caravan or trailer A-frame with sturdy zinc plated steel brackets. Keeps poles dry, organised and ready for setup at camp, giving you a simple and reliable storage solution for every trip.

FEATURES

- ✓ Lightweight and durable PVC construction for long lasting performance without extra weight
- ✓ Versatile storage for awning rafters, annexe poles, fishing gear and more
- ✓ Zinc plated steel brackets for a secure, corrosion resistant mount to your A frame or chassis
- ✓ Protects poles and long items from damage, dirt and weather during transit
- ✓ Space saving design that frees up valuable storage inside your van
- ✓ Quick, simple installation for faster setup at camp

NUOVA MAPA ONDA SWIVEL ALUMINIUM TABLE LEG BLACK ANODIZED

COAST PICNIC TABLES

COAST PICNIC TABLES

We all know storage space is at a premium whilst you're travelling, so taking the essentials (like tables and chairs) can sometimes be a pain. Why not install a picnic table on the outer wall of your RV? It's one less thing you have to pack and you can never leave it behind! Quick and easy to install, the Coast Picnic Tables feature powder coated, stainless steel hinges and are rated to a huge 30kg*. The table itself is made from SMC (sheet moulding compound) which is the same material used by Audi and Porsche! Available in white, the Coast Picnic Tables are suitable for installation on fibreglass and aluminium clad RVs (note that in the case of aluminium clad vans, the Picnic Table with Backing Plate must be installed). Comes with 2 keys so that you can lock your table in a "closed" position when not in use.

**Whilst the Coast Picnic Tables are rated to hold 30kg, you should ensure that the structure you're fitting it onto (i.e. aluminum cladding or fibre glass paneling) can hold that weight. Coast recommends that you:*

- 1) Check with your RV's manufacturer, prior to installation, how much weight the walls will hold.
- 2) Ensure you do not exceed the weight that your RV manufacturer has recommended.

400-02700

PICNIC TABLE (WITH BACKING PLATE)

The backing plate creates a neat frame between the two fixed brackets on the picnic table. It Allows for extra mounting points should there not be any supporting studs behind the spot you've chosen to install it.

ADCO RV COVERS

ADCO RV COVERS

Australia and New Zealand has seen the new era of RV protection, thanks to the American RV cover giant ADCO making their newest Designer Series covers exclusively available from Coast to Coast. Backed by a huge 3-year warranty, the ADCO Designer Series Olefin HD™ RV Cover is available to suit Camper Trailers, Caravans, Pop Tops and Motorhomes.

They're designed for high sun exposure, high moisture, long term storage and even snow, making it the most durable cover on the market! It features superior UV stabilised and breathable fabric that blocks out 99.8% of the sun's damaging UV rays. On the Caravan, Pop Top and Motorhome models, there are zippered panels along one side. These allow you access to the interior of your RV whilst the cover is on, and because of the eyelets on these panels, they can also double as an awning!

FEATURES

- ✓ Top panel is made of Olefin HD™ fabric. This new proprietary fabric has outperformed other leading roof materials and beads rains.
- ✓ Side panels are made of four layers of polypropylene with a soft lining that won't scratch your RV paintwork.
- ✓ A cinching system with buckles prevent billowing fabric on the front and rear.
- ✓ The lining of the cover is reinforced on all corners to protect against tears caused by sharp edges.
- ✓ Air vents help to eliminate moisture build-up.

PREMIER ONE CLEANING PRODUCTS

If you've ever found giving your RV a good clean bit of a mission, Premier One have come up with a great, practical idea! Telescopic, industrial strength poles that have a screw-end to attach a brush head. The brush head has super soft, non-abrasive fibres on it...so you don't have to worry about scratching the paintwork on your RV.

There are two types of telescopic options available:

- ✓ A non-flow through pole, with a comfortable safety grip
- ✓ A flow through pole, with a comfortable safety grip.

This one is particularly useful because you can attach hose to it, allowing water to flow through the pole and onto the brush head. There is also an "on/ off" switch at the end of the pole so that you're able to minimise water wastage.

These poles and brushes are great for use on your RV or around the home, cleaning those hard to reach windows is now a breeze. Also great for the marine, transport and manufacturing industries.

400-05100

PREMIER ONE QUAD BRUSH HEAD

400-05110

PREMIER ONE BI-LEVEL BRUSH HEAD

Two-sided, contoured brush head. Soft bristles that are safe to use on all vehicles and designed to get into difficult spots.

OUTBACK'S RV SUPER WASH

This product has been specially formulated to dissolve iron ore and red dirt quickly and efficiently without using dangerous chemicals or damaging the sensitive surfaces on your RV or Caravan. It is made with an acid-free, environmentally sustainable solution that can be used safely on a wide range of surfaces from painted to plastic to aluminium.

RV Super Wash is a highly versatile product that can be used on any surface of your Vehicle making it the ideal solution for the keen travellers making their way across the expansive landscape.

400-05360

OUTBACK'S RV SUPER WASH 750ML

GUSTO BLOWER

Gusto is a revolutionary caravan cleaning device that cleans the dirt, dust and sand off your feet and shoes before you enter your van. It harnesses the cleaning combination of a blower and bannister brush in one to create an effective and reliable cleaning solution for travellers.

CUSTOM-BUILT TO FIT ALL MAKES & MODELS

The custom-built, slimline device seamlessly recesses at the entry point to your van, camper trailer or RV vehicle and hooks up to your existing 12v power source. Includes a mounting hook to hang the handle and hose in a convenient location whilst parked and a lockable door to protect from the elements when on the move.

SIMPLE TO USE SYSTEM

This simple to use, sensor operated system is suitable for both young children through to older travellers. Operated by the simple swipe of a hand for 30 seconds to gently and effectively clean debris from your shoes, feet and step to keep your van sparkling clean on the inside. No fiddly trigger systems – just swipe and away she goes. Enough pressure to clean effectively whilst being safe for use by children.

FEATURES

- ✓ Lightweight 6.5kg
- ✓ 2.5m long, flexible, crush resistant hose
- ✓ Removable nylon brush head
- ✓ Designed to fit cupboards or bench cavities deeper than 250 mm.
- ✓ Dust and waterproof seals
- ✓ Mounting and hanging hook included
- ✓ Lockable door
- ✓ Proximity sensor-operated power switch
- ✓ Replaceable fuse
- ✓ 12 month warranty

450-00060**TRAIL A MATE HYDRAULIC JOCKEY WHEEL AND JACK KIT**

Specifically designed for use with a caravan chassis, the Trail A Mate provides a unique way of making the hitching and unhitching of your caravan or camper trailer very easy (no matter how low your caravan or camper trailer might be). By removing the pin, the wheel can be replaced by the base plate and an adjustable clamp, thus turning the jockey wheel into a jack.

The kit includes: hydraulic jack on shaft, lifting clamp, jockey wheel, base plate with pin, lifting handle, bracket and bars, and a comprehensive instruction guide.

**450-00085****TRAIL A MATE MARK II HYDRAULIC JACK ONLY**

A heavy-duty jack designed for lifting large caravans, boats and trailers. It comes with a base that enables the Mark II to be used not only as a lifting device but also as a jack stand. Manufactured to Australian and New Zealand standard 2693/2007, it has a lift capacity of up to 35cm.

**SPECIFICATIONS**

Working Load Limit: 1500kg
Aggregated Trailer Mass: 3500kg

450-00087**TRAIL-A-MATE JACK COVER**

Keep your Trail-A-Mate jacks in the best possible condition with the Trail-A-Mate Jack Cover. The cover ensures thorough protection all year round from the harsh Australian elements. Made from heavy-duty all-weather material, the high-quality construction is made to last.

**450-00089****TRAIL A MATE 60MM CLAMP FOR MARK II HYDRAULIC JACK**

An optional clamp to enable you to use the Mark II Hydraulic Jack as a jockey wheel instead of having it permanently fixed to your RV's frame.

**450-00940****TRAIL-A-MATE JOCKEY WHEEL CLAMP ANTI-THEFT LOCK**

Brand new, easy to install anti-theft lock by Trail-A-Mate.

Designed to secure their popular Hydraulic Trailer Jacks. This anti-theft device protects your expensive jockey wheels such as Trail-a-Mate or any jockey wheel from being stolen.

FEATURES:

- ✓ Converts a standard jockey wheel clamp into a lockable clamp
- ✓ Fits in minutes
- ✓ Comes complete with dust cap

* Does not include A-Frame Clamp

**450-00102****COAST JACK PADS (80MM)**

Made with a durable plastic construction, Coast's Jack Pads are easy to attach. They have a universal fit & a unique channel that prevents ants from crawling up the stabilizer legs. Comes in a set of 4 & includes 4 anti-rattle sleeves.

**SPECIFICATIONS**

Dimensions: 158L x 138W x 74H (mm)

450-00118**STABILISER JACK PADS**

Prevent your jacks or awning legs from sinking into grass or sand. Interlocking for convenient storage with a handy velcro strap. Built in handle for ease of use. Solidly constructed of a durable polypropylene with UV filters & comes in a set of 4.

**450-00104****COAST RV STABILISING JACK PADS WITH HANDLE SET OF 4**

Make stabilizing your caravan easy with Coast RV Stabilising Jack Pads. Durable, lightweight, and crafted from sturdy PP plastic, these pads offer a steady base on uneven terrain. Each pad has a handle for quick setup and keeps your RV secure on gravel, grass, or sand. Ideal for any RV owner, they prevent sinking and protect the ground beneath—an essential for smooth setup on your adventures!

**SPECIFICATIONS**

220 x 162 x 22mm
1.04kg

JACK LEVELLING BASES**450-00120****ALKO BIG FOOT CARAVAN JACK**

Alko Big Foot Caravan Jack Steady "Foot" - Anti sinking bases for the bottom of jack legs, comes in a set of 4. 1.0: 80mm

FIAMMA CHOCKS FOR FIAMMA LEVELS (GREY)

Sold in pairs, chocks are used with Level Ups, Level Pros or Level Magnums to secure the wheels during long stopovers. They come with steel hooks and are solidly made from UV-resistant polyethylene.

450-00304

CURVED LEVELER AND WHEEL CHOCK

- ✓ Easy drive-on leveller adds up to 4" (101mm) in height
- ✓ Honeycomb design makes leveller lightweight but durable
- ✓ Included chock has non-slip rubber grippers on the bottom
- ✓ Compact length makes leveller compatible with tandem wheel spacing without modification

450-00396

EXPLORE CVL2 LEVELLING RAMP (PAIR)

Australian-made tandem axle trailer levellers with a 5-tonne capacity. Super strong, they raise wheels up to 100mm (no jockey wheel needed) and feature an extra-wide tread for tyres up to 250mm. Lightweight at 1.8kg each.

SPECIFICATIONS

Dimensions:
Overall Length: 57cm
Maximum Height: 14cm
Width: 25cm

450-00398

WHEEL CHOCKS TO SUIT CVL2 LEVELLING RAMPS

450-00399

STORAGE BAGS FOR CVL2 LEVELLING RAMPS

Designed specifically for the CVL2 range, the storage bag is made from tough polyester with a PVC backing. Each bag will fit a set of CVL2 levellers and a set of wheel chocks.

450-00280

FIAMMA LEVEL BAG S

A smaller version of the Level Bag (part number 450-00273), the Level Bag S is suitable for use with Level Pros and Level Magnums.

SPECIFICATIONS

Dimensions: 150H x 220W x 570L (mm)

450-00442

COAST RV 5000KG 3-STEP LEVELLING RAMP WITH CHOCK & BAG PAIR

The Coast RV Accessories Range makes caravan setup quick, safe and hassle-free, with durable gear built for Australian conditions so you can enjoy more time outdoors.

450-00444

COAST RV 5000KG LEVELLING RAMP WITH CHOCK & BAG KIT

Achieve stability on uneven ground with the Coast RV 5000kg Levelling Ramp Kit. This compact all-in-one kit includes a sturdy ramp, secure chock, and carry bag, lifting up to 5000kg with a max height of 90mm. Enjoy a comfortable, level interior whether parked on gravel, dirt, or grass.

SPECIFICATIONS

Ramp - 428 x 195 x 87mm
Chock - 117 x 93 x 83mm
Bag - 245 x 635 x 185mm
Max Lift Height is 90mm

450-00446

COAST RV STD PLASTIC WHEEL CHOCK EACH

Keep your RV secure with the Coast RV Standard Plastic Wheel Chock. Lightweight, durable, and easy to store, it prevents movement on any terrain. Sold individually for flexible setup.

JOCKEY WHEELS

COAST JOCKEY WHEELS

Coast to Coast's quality jockey wheels are perfect for caravans, trailers, and horse floats. Available in 6", 8", and 10" sizes, the smaller wheels suit paved surfaces, while 10" wheels handle soft ground. Choose from standard or swivel clamps for easy rotation. Packaged individually with retail clamp options, these versatile jockey wheels ensure a reliable towing experience.

Wheel Diameter: 140mm
Tread width: 40mm

450-00910

TRAILER COP ANTI-THEFT COUPLING LOCK

Anti theft lock that expands inside a 50mm coupler to stop trailer towing, installs in a minute.

450-00924**KOVIX TRAILER HEAVY-DUTY PADLOCK**

Built for maximum security, this unique alarmed trailer lock is the ultimate deterrent to wouldbe thieves. Designed by Kovix Australia the heavy duty KTR-18 alarmed trailer lock is made from 304 grade stainless steel. Resistant to impact, drilling and cutting this ultra-strong trailer lock features an 18mm pin with an anti-cutting sleeve.

This smart lock's alarm can be turned on or off and is triggered by a motion sensor that activates the 120dB alarm for 10 seconds. The lock is rust resistant and its electronics are water proof so it can be left out in the elements. Built to suit standard 50mm ball hitches, Off Road DO35 and Treg-style block hitches, the KTR-18 is as versatile and smart as it is tough.

**FEATURES**

- ✓ Anti-Impact and Drill Resistant
- ✓ Weatherproof Electronics (IP67)
- ✓ Removable Ball to Fit a Wide Range of Hitches (H 100mm x W 155mm x D 35mm. Inside W 80mm)
- ✓ Built in Loud Alarm - Sounds at 120dB
- ✓ Long Life 3V Lithium Battery Included
- ✓ Double Locking Pin System

450-00932**KOVIX DO35 COUPLING LOCK**

Protect your caravan, camper or boat with this purpose-built lock for the DO35.

**Unique Features:**

- ✓ Fits the DO35 coupling
- ✓ Weather resistant
- ✓ Ultra-Strong. Heavy-duty, 304 stainless steel build
- ✓ 18mm locking pin
- ✓ Anti-impact, saw and drill resistant

**450-00927****MILENCO SECURITY PIN LOCK TO SUIT DO35 PIN COUPLING**

- ✓ Secures your RV
- ✓ Complete with plastic storage case
- ✓ Made from Heavy-Duty Steel
- ✓ Integrated high security lock
- ✓ Fast and simple to fit
- ✓ Compact and lightweight
- ✓ Variable height setting

MILENCO SECURITY CABLE

- ✓ Coated braided stainless steel cable
- ✓ Secure your valuables Bicycles, BBQ, Portable Fridge
- ✓ Integrated combination security lock
- ✓ Fast and Simple to Fit
- ✓ Compact and Lightweight design
- ✓ Combination lock – set your own code.

Closed Dimensions: 380D x 590W x 310H (mm)
Mounting Plate To Top Of Step: 180mm
Mounting Plate To The Top Of Bottom Step: 305mm

**450-01416****COAST SINGLE PULL-OUT CARAVAN STEP ALUMINIUM 545MM WIDTH**

Lightweight manual pull-out step with aluminium and steel construction for durability and everyday use. Features non slip step boards and smooth pull-out operation. Simple to install with minimal tools required.

**SPECIFICATIONS**

Max static load: 200kg
Step size: 509mm (W) x 199mm (D)
Weight: 3.92kg

450-01418**COAST DOUBLE PULL-OUT CARAVAN STEP ALUMINIUM 497MM WIDTH**

Sturdy double step design providing extra height and safer access. Built from aluminium and steel with non slip step boards and smooth pull-out operation. Ideal for higher entry points while remaining easy to use and compact when stowed.

**SPECIFICATIONS**

Max static load: 200kg
Step size: 461mm (W) x 199mm (D)
Weight: 7.40kg

**450-01422****COAST MK2 SILVER SPRING LOADED ALUMINIUM FOLD OUT SINGLE STEP - 588MM WIDE**

This folding aluminium RV Step features a light weight and sturdy design and can support up to 200kg. It has anti-slip strips, grippy rubber feet for extra stability and adjustable feet that offer four height adjustments.

FEATURES

- ✓ Anit-skid tread
- ✓ Spring loaded
- ✓ Rated to 200kg
- ✓ Step weight 4.7kg
- ✓ Dimensions: 588mm wide overall - Tread width 552mm

**450-01424****COAST MK2 SPRING LOADED BLACK ALUMINIUM FOLD OUT SINGLE STEP 588MM WIDE**

The Coast Mk2 Spring Loaded Fold-Out Step provides easy entry and exit for caravans and RVs. Made from durable black aluminium, it mounts neatly under the door and folds out smoothly when needed.

FEATURES

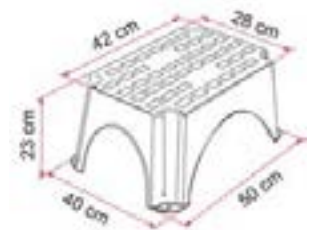

- ✓ Spring-loaded fold-out design
- ✓ Lightweight aluminium construction
- ✓ Slip-resistant tread surface
- ✓ Compact and easy to store
- ✓ 200kg load rating

**SPECIFICATIONS**

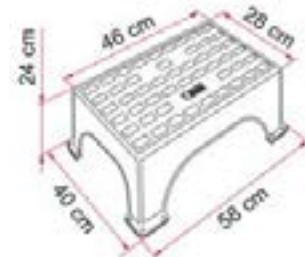

Tread Width: 552mm
Weight: 4.7kg

450-01530**FIAMMA PLASTIC STEP SMALL**

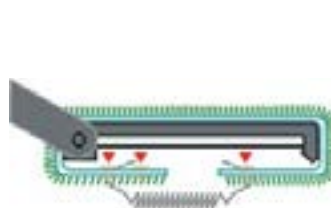

Step in & out of your RV safely! Has a non-skid surface & is made from UV resistant HD polyethylene. Holds up to 150kg & comes in grey.

**450-01552****FIAMMA MAGNUM PLASTIC STEP**

Fiamma's durable, UV-resistant step holds up to 200kg and comes in grey

**450-01570****FIAMMA CLEAN STEP**

Suitable for use on electric or manual steps, it helps to keep your RV clean. Made from durable plastic it has a grass appearance & is supplied with springs for installation. Can be adapted to fit steps from: 380 x 400mm up to 450 x 400mm. Available in green.

**450-01990****WHEEL NUT**

Wheel nut for alloy rim

SPECIFICATIONS

Dimensions: ½" Thread Diameter With A 2mm Pitch

**450-02020****COAST SPARE WHEEL CARRIER 6 STUD SILVER**

Coast to Coast very own Spare Wheel Carrier to suit popular 4, 5 and 6 stud wheels. Ideal for caravans, campers, horse floats and all trailers.

FEATURES

- ✓ Heavy-duty galvanized spare wheel mount
- ✓ Suits 4, 5, and 6 stud wheels
- ✓ Comes ready for easy installation and simple use
- ✓ Designed to fit 4 and 5 inch A frames.

WHEEL SPATS

NUOVA MAPA ELECTRIC STEPS

These durable electrical steps are made from galvanised steel and feature anodised aluminium footrests that won't rust, spaced for comfort. Order a separate wiring loom as needed.

450-02100**12V SINGLE ELECTRIC STEP****SPECIFICATIONS**

Step Width: 575mm
Step Tread Depth: 210mm
Step Weight: 7.8kg
Step To Mounting Plate: 197mm

JERRY CAN HOLDER

Has a lockable chain.

LCI LIPPERT ELEC-BRAKE HUB DRUMS

Lippert Components Brake Drum Hub Assemblies are an industry standard. Lippert Trailer hub assembly (hub and drum) provides surface area for brake shoes to grip when brakes are activated and are compatible with standard axles from most manufacturers.

LIPPERT Brake assembly plates feature a bushed oval magnet. This feature comes as standard and for good reason as the bush provides added protection against dust. In a standard magnet dust intrusion quickly builds up and provides a friction point for the magnet and causes accelerated wear.

Electric Brake Hub Drums

The hub drum is what connects the trailers wheels to the trailers axle and houses the wheel bearings. The hub drum is the part that rotates and inside this drum sits a stationary electric brake assembly plate containing the braking shoes and magnet. The Hub also provides a steel inner face for the magnet to stick onto when powered. When this happens, the shoes are activated and they expand out to grip the inner walls of the rotating drum providing friction which in-turn drastically slows down the spinning drum.

Due to the magnet dragging on the inner-face of hub drum they wear out. They can be machined to provide a flat surface for the magnet to comfortably adhere to but eventually you will need to simply replace them. Electric Hub drums also feature bearings so they can be attached as one unit to your axle and have the wheel studs already fitted so you can easily attach them to your wheels both bearings & wheel stud PCD's will vary depending on what they are suited for.

Electric Brake Backing Plate

The Electric Brake Backing Plate fits inside the hub drum, holding the shoes, magnet, actuator levers, connections, and mechanical handbrake. The magnet is connected to a lever that opens the brake shoes when electrified, gripping the spinning hub drum to slow down the trailer. It also features a mechanical handbrake: a separate lever connects to the shoes, allowing you to attach the trailer's park brake cable. Activating the handbrake pulls the lever, opening the shoes and providing parking stability.

2 TONNE OUTER

450-03520

COUPLE - MATE REVERSING HITCH AID

An easy to install device which makes hitching your caravan or trailer a breeze. The side arms guide the trailer hitch towards the tow ball, thus preventing damage to the tow vehicle. Made from double dipped, zinc plated steel.

450-03530

COUPLE - MATE TREG PIN LOCK

Featuring a latch lock with a screw lock for added security, the treg pin lock is used to lock the trailer onto your tow vehicle, or simply lock the trailer when left unattended. It has a 3/4" diameter for use with treg couplings. Note that the lock mechanism needs lubricant periodically to ensure correct operation.

450-04012

COAST RV 2-WAY
BUBBLE TEE LEVEL
EACH

Compact and durable two way bubble level that lets you level your caravan quickly and accurately

450-04810

HEAVY-DUTY BOLT
ON JOCKEY WHEEL
DOUBLE CLAMP

Heavy-duty bolt on double clamp with a universal backing plate for easy fitment on 4, 5 or 6 inch chassis, no drilling or welding needed. Includes bolts

HEAVY-DUTY COUPLINGS

ARK XO EXTREME OFF ROAD COUPLING

Quick hitch off road coupling for all compliant 50 mm tow balls except flat flange types, so you can stop switching hitches.

Choice of 2 ratings

- ✓ 2 tonne for mechanical over-ride brake systems. Part No.450-04900
- ✓ 3.5 tonne for electric brake systems. Part No. ORXOF50 450-04902
- ✓ Full off road articulation
- ✓ No more switching hitches
- ✓ Quick-hitch locking system
- ✓ Fits 50mm tow balls that comply with Australian Standards AS4177.2 and don't have a flat flange
- ✓ Complies to Australian standards AS4177.3
- ✓ Strong fully cast steel parts

Boost off road capability and skip swapping hitches with the Ark Extreme off road coupling.

450-04900 ARK XO EXTREME OFF ROAD COUPLING 2 TONNE

450-04902 ARK XO EXTREME OFF ROAD COUPLING 3.5 TONNE

450-04996 CRUISEMASTER 3500KG DO35 V3 - PLUS COUPLING INCLUDES TOW-PIN & H/BRAKE

FOR ROAD SAFETY AND OFF-ROAD CAPABILITY

High articulation ensures the trailer follows you in challenging terrains and provides safety during road accidents.

EASY LOCKING MECHANISM

The DO35 features a simple locking mechanism, with a Check lock cap to keep dirt out and indicate secure attachment.

PATENTED DROP-ON DESIGN

Our patented tow pin and viewport allow easy hitch alignment in any terrain.

ARTICULATION: 360 degrees axial, minimum 70 degrees other axes.

LOCKING: Fully ADR 62/02 compliant including automatic secondary lock

FINISH: Supa Alloy 5

BOLT PATTERN: 4 bolts at 185mm x 54mm

RATING: 3.5 Tonne

ACTION: Drop-On

MAINTENANCE: Fully Greasable

NEW FEATURES: New polyurethane
bushed Tow Pin, Dustcap & Bumpstop.
New Integrated Handbrake lever

SHACKLES

The current standard applying to shackles is AS 2741-2002, however this standard does not specifically cover the use of rated shackles in an application such as attaching a trailer to a tow bar. This standard covers the use of shackles for lifting purposes. The Caravan Industry Association of Australia's recommendation is that a shackle meeting the requirements of AS 2741-2002 be used to secure rated safety chains up to 3500kg capacity.

- ✓ Meet the requirements of AS 2741-2002
- ✓ Shackle grade is "S" or "6"
- ✓ Working load limit (WLL) is 1000kg
- ✓ Shackle diameter is 10mm
- ✓ Either "bow" or "dee" shackle design is suitable, although it is noted that the "bow" design provides greater angular displacement

A significant detail to understand is that the breaking load of a shackle is generally six times the working load limit."

WEIGHT SCALES

COAST RV SCALE

450-05980

COAST RV TOW BALL SCALE 350KG BLACK

The Coast RV Caravan Tow Ball Weight Scale is essential for safe towing. Accurately measures tow ball weight from 0kg to 350kg, helping you achieve the ideal balance for a smooth, stable ride.

Simple to use:

just place the hitch coupler on the scale for instant readings in KG and LBS. Ensure optimal performance and confidence on every journey.

FEATURES

- ✓ Measures tow ball weight from 0kg to 350kg
- ✓ Helps maintain proper weight distribution for safe towing
- ✓ Reduces the risk of swaying and instability on the road
- ✓ User-friendly design with clear KG & LBS markings
- ✓ Essential for balanced, stable, and controlled towing
- ✓ Durable finish with a protective power coat for long-lasting performance

SPECIFICATIONS

Overall Height: 510 mm
Base Diameter: 100 mm
Net Weight: approximately 1.72 kg

450-05932

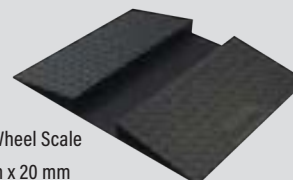

COAST RV WHEEL SCALE RAMP

The Coast RV Wheel Scale Ramp guides your wheel smoothly onto the scale for steadier, more accurate readings. Lightweight, grippy and shaped to fit the scale, it makes weighing easier and more consistent, especially when working on your own.

SPECIFICATIONS

Size: 325 mm x 265 mm x 30 mm
Weight: 700 g
Material: Durable non-slip composite
Designed for use with the Coast RV 1500KG Wheel Scale
Centre channel dimensions: 72 mm x 260 mm x 20 mm

450-05930

COAST RV 1500KG ORANGE WHEEL SCALE WITH CASE

Check the weight of your caravan, trailer or RV one wheel at a time with this compact 1500 kg wheel scale. It includes a rechargeable battery, tough carry case and smart weighing modes to make setup quick and simple. Pair it with the optional ramp for added accuracy when positioning your wheels.

FEATURES

- ✓ 1500 kg capacity for most caravans, trailers and campers
- ✓ Rechargeable battery with up to 15 hours use
- ✓ Three weighing modes for tow vehicles, single and dual axle trailers
- ✓ Optional ramp for improved accuracy and stability
- ✓ IP44 rated for outdoor use
- ✓ Lightweight design with a durable protective case

SPECIFICATIONS

Size 350 mm x 60 mm x 30 mm
Weight 1.28 kg
Runtime 15 hours

MILENCO PRECISION CALIBRATED NOSE WEIGHT GAUGE

450-05998

MILENCO PRECISION CALIBRATED NOSE WEIGHT GAUGE RATED 400KG

Experience unmatched precision and reliability with the Milenco Noseweight Gauge, designed to British standards for superior performance. Ensure safe, stable caravan loading every journey

FEATURES

- ✓ Calibration stays accurate after 1,000 uses, while competitors can drift by up to 30 kg
- ✓ Measures up to 130 kg with 2 kg accuracy for easy, precise loading
- ✓ Matched to standard caravan height with no extra elevation needed

Uncompromising Performance: Built to industry standards for reliability and safety.

Choose the Milenco Precision Calibrated Noseweight Gauge for peace of mind on the road.

A leading supplier to the RV market, offering a comprehensive range of remote caravan movers and one of the largest and most varied caravan security and safety product ranges in Australia. As a design-led company, Purple Line specialises in manufacturing innovative and affordable product solutions based on the needs of the market.

450-06002

KOJACK 4T JACK KIT

The ideal caravan jack that is able to lift a huge 4 tonnes almost effortlessly. Its 3-piece jack handle ensures a smooth hydraulic action. The Kojack mounts under the caravan chassis, so there's no need to dismantle jockey wheels, and it's compatible with both ball and block fittings to match most Australian caravans such as Gold stream, Elite and Jayco.

Each kit includes:

x 1 4ton hydraulic Kojack,
x 1 ball fitting,
x 1 block fitting,
x 1 100mm extension,

x 1 Allen key,
x 1 3-piece jack handle, x1 fitted
carry case and attachment
collars.

SPECIFICATIONS

Weight: 12kg

Lift Range: 220mm (more if extension pieces are used)

450-06010

KOJACK BASEPLATE

Kojack® Baseplate adds stability: If you have a Purple Line® Kojack® 4 tonne caravan jack and want to make it even more stable and secure, the new Kojack® Baseplate is the answer. Ideal for soft ground, gravel or sand, Baseplate gives you a footprint three times the size of the Kojack® itself, which means three times the stability and a third of the downward pressure. It clips onto the Kojack® easily and securely and can also double as a secure footing for your jockey wheel.

FEATURES

- ✓ Can be used under jockey wheels to keep them in place and stop them from sinking
- ✓ Spring loaded latch keeps the jack in place
- ✓ Solid metal construction
- ✓ The ideal upgrade for kojack jack
- ✓ Suitable for most terrain including: sand, mud, grass, bitumen and gravel
- ✓ Australian designed and developed
- ✓ 2 Year warranty

450-06032

PURPLELINE TORPEDO HITCH PIN LOCK

Add extra security to your vehicle

- ✓ Towing rating 3500kg
- ✓ Resistant to cutting, drilling & gas freezing
- ✓ Suits class 4 receiver up to 75mm
- ✓ Compliant with Australian Standards: 41771-2004

450-06040

SOCKET EXTENSION

An extender socket great for use on corner steady legs and the Kojack Leveller (to stabilise, raise or lower an RV). It can also be used to tighten or loosen other bolts and nuts provided they are 19mm in size. Made from high tensile steel and designed for use with a torque sensitive rechargeable drill.

450-06050

SOCKET EXTENSION WITH UNIVERSAL JOINT

Similar to the Socket Extension (above) except that it has a universal joint to facilitate tight spots. It can also be used to tighten or loosen bolts and nuts of 19mm, and is also made from high tensile steel.

450-06059

KOJACK 150MM EXTENSION PIECE

450-06064

NEMESIS WHEEL CLAMP

The Nemesis wheel lock is a high-security device made from hardened steel, resistant to cutting, drilling, and tampering. It features a 9-lever, pick-resistant barrel lock by Lowe and Fletcher (UK). Convenient to carry in its bag, it's built with composite metals for tamper resistance and includes a 7-pin anti-pick, anti-drill locking bolt with a tubular key. Suitable for steel and alloy wheels, it fits wheels up to 17 inches and tyres up to 275mm. The new model includes three keys and serves as a visible theft deterrent.

Ideal for

- ✓ Cars
- ✓ Large Off-Road Tyres
- ✓ Some light commercial vehicles check wheel and tyre combinations.
- ✓ Motorhomes
- ✓ Caravans
- ✓ Camper Trailers
- ✓ Boat trailers
- ✓ Horse floats

450-06066

NEMESIS PRO WHEEL LOCK

The FullStop Nemesis Pro comes complete with 3 anti-copy tubular keys, ensuring that only you and your trusted associates have access to your caravan or camper trailer. Its high-visibility design, a signature Purpleline trait, ensures that your vehicle is easily identifiable, deterring potential thieves.

FEATURES:

- ✓ Super quick and easy installation
- ✓ Uses a receiver nut to attach to the wheel
- ✓ Covers your wheel nuts to prevent wheel removal
- ✓ Suitable for all-sized steel and alloy wheels
- ✓ Made from hardened, high-strength composite steel
- ✓ 7-Pin cylinder lock resists cutting, picking, drilling and freezing
- ✓ Includes 3 anti-copy tubular keys for added security
- ✓ High-visibility – A Purpleline security trait!

450-06072

PURPLELINE ANTI THEFT PACK

Complete Security Kit keeps you safe: Purple Line® has made it a whole lot easier to guard your caravan against thieves with its new Complete Security Kit, which combines the tough Samurai wheel clamp and Saracen® hitch lock in one compact, easy-to-use kit. Keyed alike for maximum convenience, both units have Purple Line's tough, 7-pin locking mechanism, as also used in the big Nemesis® wheel clamp and the Saracen Australian Hitch Lock. All in a convenient carry bag and backed by a 2 year warranty.

FEATURES

Samurai Wheel Clamp

- ✓ Simple to use, compact and quick fit
- ✓ Fits tyre widths 145 to 275mm
- ✓ Suitable for both on and off road wheels
- ✓ 2 Year warranty Saracen Hitch Lock
- ✓ High security hitch lock
- ✓ Quick and easy to fit
- ✓ Resistant to cutting, picking, drilling and gas freezing
- ✓ Made from high strength composite materials
- ✓ 2 Year warranty

450-06074

GEMINI DUAL AXLE WHEEL LOCK

The FullStop Gemini showcases our signature Purpleline trait with its high-visibility design. Not only does it make your van easily identifiable, but it also acts as a powerful deterrent against potential thieves. Choose the FullStop Gemini today and experience the peace of mind that comes with top-tier twin-axle van security. With its cutting-edge features, including easy installation, dual high-security locks, composite steel construction, and anti-copy tubular keys, this device sets the standard for safeguarding your valuable asset.

- ✓ Suitable for twin axle vans
- ✓ Two high-security locks weld the wheels together
- ✓ Super quick and easy installation
- ✓ Uses a receiver nut to attach to

450-06076

PURPLELINE FULL STOP COMPLETE SECURITY KIT OFF ROAD VERSION

This duo of Samurai Wheel Clamp and Saracen Off-Road Hitch Lock the latter which is specifically designed in Australia for the Hitchmaster DO35 articulated hitch – provides an easy-to-use kit, that is 'keyed alike' for your convenience.

Each unit has Purple Line's tough, 7-pin locking mechanism and rugged steel construction. Plus, they come in a slim carry bag that's easy to store when travelling.

FEATURES

- ✓ Made from high strength steel
- ✓ 7-Pin cylinder lock resists cutting, picking, drilling and freezing
- ✓ Includes 3 anti-copy tubular keys for added security
- ✓ Suitable for all-sized steel and alloy wheels and the Hitchmaster DO35 articulated hitch and Alko Click Lock™ hitches

450-06085

GULLWING EURO HITCH LOCK

Designed to fit Alko stabilizer hitches AKS2004 and AKS3004, found predominantly on European RVs such as Bailey, Swift and Adria. It is highly secure, easy to fit and takes a couple of minutes to install. The Gullwing can be fitted to a van whether it is hitched or not.

450-06086

SARACEN ULTRA HITCH LOCK

The Saracen Ultra hitch lock suits Australian standard 50mm ball hitches and fits both when HITCHED and UNHITCHED.

Saracen Ultra suits any trailer with a standard 50mm ball hitch – boat and work trailers, caravans and camper trailers, horse floats, box trailers, car and motorcycle trailers - any trailer at all.

FEATURES

- ✓ Made from specially hardened high strength steel
- ✓ Resistant to cutting and drilling
- ✓ Incorporates a high-security, 7-pin barrel lock, resistant to picking, drilling and gas freezing.
- ✓ Suits Australian standard 50mm ball hitches
- ✓ Fits both when HITCHED and UNHITCHED.

450-06089

SARACEN OFF ROAD HITCH LOCK

Protect your off-road van with Purple Line's new Saracen® Off-Road hitch lock, designed for the tough Hitchmaster® DO35 articulated hitch. Built with durable metal and a secure 7-pin locking mechanism, it's easy to fit and engineered for maximum anti-theft protection. Backed by a 2-year warranty, it's as rugged as the Aussie vans it defends. It has all the proven Saracen features including:

- ✓ High strength steel construction
- ✓ Anti-pick seven-pin cylinder lock
- ✓ Anti-copy tubular key
- ✓ Suits V1, V2, V3 DO35 & DO45

450-06090

AEROPLUS CARAVAN WIND DEFLECTOR

Proven to reduce drag, the AeroPlus improves towing stability by directing airflow over your RV. This in turn, helps to minimize wear and tear to your tow vehicle whether it be mechanical or your tyres. It is made from ABS plastic and fits most 4WDs, SUVs and station wagons. The AeroPlus is easily fitted onto an existing horizontal roof rail by means of two clamps which are tightened by hand. As you drive, it directs the air over the top of your RV and thus reduces drag and improves fuel economy.

It is suitable for use on most roof rails such as Rola, Rhino and Thule (providing that the rail is not wider than 80mm).

Comes with angled spacers to increase the angle of the AeroPlus and a two year manufacturer's warranty.

SPECIFICATIONS

Weight: 7kg (including packaging and fittings)
3.5kg (ABS plastic tail only)
Dimensions: 135W x 20H (cm)

Note: The AeroPlus has been wind tunnel tested up to a speed of 60mph (96kmph). It is therefore advised that if travelling whilst the AeroPlus is fitted, 96kmph is not exceeded. Drivers should always adhere to the road rules of the state they are travelling in.

450-06082

SARACEN AUSTRALIAN HITCH LOCK V2

The new Saracen V2 hitch lock adds extra security with a tow chain lock feature and hardened steel collars. Made from high-tensile steel, it resists cutting, drilling, and picking attempts. Quick to fit, it's ideal for securing most Australian caravan hitches. Comes with two durable keys.

SPECIFICATIONS

Compatible with the following hitches: Alko, Trigg Boss, Meher, Trojan and some other standard Australian hitches.
Comes with a one year manufacturer's warranty.

MILENCO RAMPS

450-06400

MILENCO INTERNAL UNIVERSAL SILVER THERMAL CAB BLIND

One-size-fits-all blind with black sucker pads and handles blocks light for restful sleep. Warm demister before removal in winter

JAYCO J-TECH SUSPENSION

JAYCO J-TECH SUSPENSION

Discover the advanced performance of Jayco's JTECH Independent Suspension, purpose designed for a superior towing experience. Engineered to provide exceptional stability, a smoother ride, and precise handling, this suspension system ensures your travels are safer and more comfortable. With increased ground clearance and no added ride height, towing has never been easier.

- ✓ Electrocoated Surfaces: Offers optimum protection against corrosion and stone chips, ensuring durability and longevity.
- ✓ Pedders Off-Road Shock Absorbers and Springs: Large diameter and heavy-duty components specifically designed for Jayco RVs and tough Australian conditions.
- ✓ Aeon Rubber Springs: Provide an optimal progressive rate when the suspension is compressed, enhancing ride quality.
- ✓ Adjustable Wheel Alignment: Toe-in and toe-out adjustment capabilities for precise wheel alignment.

Lights and Lenses	160 - 162
Truck and Trailer Lighting	163 - 165
Replacement LEDs	166
Reflectors	167
Sphere Wireless Lighting	168 - 169

GAS EQUIPMENT

(Product Group - 550)

Gas Regulators and Hoses	196 - 197
Gas Unions, Nuts and Valves	198 - 199
Gas Cylinders and Cradles	199
Gas Detector	199

Renogy's latest battery and charging technology offers compact design, EV grade safety and long lasting off-grid performance. A modern power solution built for demanding touring environments.

500-11006

RENOGY REGO | 12.8V 104AH SLIM & SOLID STATE SMART BATTERY

SPECIFICATIONS

Battery Type: Lithium Iron Phosphate
Nominal Voltage: 12.8V
Rated Capacity: 104Ah (0.5C, 25°C)
Voltage Range: 10V to 14.8V
Maximum Charge Current: 100A
Maximum Discharge Current: 200A
Peak Discharge Current: 290A@30s
Cycle Life (0.5C, 25°C): 6000 Cycles (80% DOD, 80% EOL)
Protection Rating: IP67

500-11050

RENOGY CORE | 12V 100AH LIFEPO4 BATTERY 260X169X211MM

SPECIFICATIONS

Battery Type: Lithium Iron Phosphate (LiFePO₄)
Rated Capacity: 100Ah
Nominal Voltage: 12.8V
Cycle Life: 5000 cycles (80% DOD, 80% End of Life at 25°C)
Charge Voltage: 14.4V
Maximum Charge Current: 100A
Maximum Discharge Current: 100A
Charge Temperature Range: 0°C to 55°C

500-11042

RENOGY CORE | RENOGY ONE CORE (AU MODEL)

SPECIFICATIONS

Operating Voltage: 8-60V DC (5V DC for USB-C input)
Max Power Draw: 3.2W @ 100% brightness / 1.5W idle
Wi-Fi (2.4GHz IEEE 802.11b/g/n)
Bluetooth LE & Mesh
Touchscreen Size: 4" / 480 × 480p resolution
Levelling Sensor: ±89°, 0.1° accuracy
Operating Temperature: -20°C to 70°C
Operating Humidity: 0-95% RH
Dimensions: 106 × 106 × 26.6 mm
Weight: 128g

500-11062

RENOGY MINI | 12V 300AH LIFEPO4 BATTERY 384X194X253MM

SPECIFICATIONS

Battery Type: Lithium Iron Phosphate (LiFePO₄)
Rated Capacity: 300Ah
Nominal Voltage: 12.8V
Cycle Life: 5000 cycles (80% DOD at 25°C)
Charge Voltage Range: 10V to 14.8V
Maximum Charge Current: 150A
Maximum Discharge Current: 200A
Peak Discharge Current: 380A (up to 10 seconds)
Discharge Temperature Range: -20°C to 65°C

500-11078

RENOGY CORE BLUETOOTH MODULE

SPECIFICATIONS

Communication Protocol: RS485
Port Type: RJ45
Input Voltage: 5V or 12V
Protection Grade: IP54
Standby Power Consumption: 0.04W
Operating Power Consumption: 0.05W

500-11044

RENOGY CORE BLUETOOTH MODULE

SPECIFICATIONS

Continuous Current 300A
Peak Current 500A (<10 seconds)
Voltage Input Range 8V to 60V
Battery Capacity Range 1Ah to 6500Ah
Power Supply 8V to 120V DC
Communication Bluetooth LE and BLE Mesh

CHARGING SOLUTIONS

Dedicated chargers for AC mains, vehicle alternators or dual-input systems with MPPT support.

500-11072

RENOGY REGO | IP67 DC-DC WITH MPPT BATTERY CHARGER (ANDERSON)

SPECIFICATIONS

System Voltage: 12V/24V - 12V/24V
Solar Input Voltage: 50 VDC
Output Voltage: 9-32 VDC
Alternator Input: 9-32 VDC
Maximum Output Current Rating: 50A@12V; 25A@24V Output Power: 720W
Battery Types: AGM/SLD, GEL, FLD, LI, USER

500-11002

RENOGY REGO | 12V AC-DC 35A BATTERY CHARGER

SPECIFICATIONS

Output Current 35A max
Input Voltage Range 180-264V AC (45-65Hz)
Output Voltage Range 9-17V DC
Charging Profile 4-stage adaptive
Operating Temperature -20°C to 60°C
Dimensions 228 x 160 x 72 mm

500-11018

RENOGY PRO | IP67 50A DCDC BATTERY CHARGER WITH MPPT

SPECIFICATIONS

System Voltage: 12V/24V - 12V/24V
Solar Input Voltage: 50 VDC
Output Voltage: 9-32 VDC
Alternator Input: 9-32 VDC
Maximum Output Current Rating: 50A@12V 25A@24V
Output Power: 720W
Battery Types: AGM/SLD, GEL, FLOODED, LITHIUM

500-11014

RENOGY REGO | REGO 12V 60A DC-DC BATTERY CHARGER

SPECIFICATIONS

System Voltage 12 V
Rated Max Charge Current 60A
Rated Max Charge Power 800 W
Battery Types SLD/AGM; FLD; GEL; USER; LI
Self-Consumption ≤50 mA
Max Alternator Input Current 70A

500-11070

RENOGY REGO | 12/24-12/24 30A BIDIRECTIONAL DC-DC BATTERY CHARGER

SPECIFICATIONS

System Voltage: 12V / 24V - 12V / 24V
Power Type: DC to DC
Alternator Input: Traditional Alternator: 13.5-16.0VDC, Smart Alternator (Euro 6): 12.5-16.0VDC
Maximum Output Current Rating: 30A
Rated Max Charge Power: 450W
Communications: CAN (RV-C) , Bluetooth

500-11039

RENOGY CORE | DCC30S 12V 30A DUAL-INPUT DC2DC MPPT CHARGER.

SPECIFICATIONS

System Voltage: 12V DC
Max Charging Current: 30A
Max Solar Input Voltage: 30V
Max Solar Input Power: 400W
Charging Efficiency: Up to 97%
Battery Types: SLA, GEL, FLD, LiFePO₄
Operating Temp Range: -35°C to 65°C

500-11016

RENOGY PRO | 400W LIGHTWEIGHT PORTABLE SOLAR PANEL KIT**SPECIFICATIONS**

Watt: 400W
 Open Circuit Voltage: 47.2V
 Short Circuit Current: 11A
 Optimum Operating Voltage: 40V
 Optimum Operating Current: 10A
 Maximum System Voltage: 600VDC
 Maximum Series Fuse Rating: 15A

500-11008

RENOGY REGO | 12/24/36/48V 30A MPPT SOLAR CHARGE CONTROLLER**SPECIFICATIONS**

Rated Charge Current: 30A
 Battery Voltage Range: 12V / 24V / 36V / 48V (auto-detect)
 Max PV Input Voltage: 150V DC
 Max Solar Input Power Up to 1600W (at 48V)
 Operating Temperature: -20°C to 55°C
 Protection Rating: IP67

500-11012

RENOGY REGO | 12V 60A MPPT CHARGE CONTROLLER**SPECIFICATIONS**

Rated System Voltage: 12V
 Rated Charge Current: 60A
 Rated Max Charge Power: 800W
 Battery Operating Range: 10 -16V
 Battery Types: SLD/AGM; FLD; GEL; USER; LI
 Max Input Current (short-circuit, I_{sc}): 50A
 Power Limiting Protection: Up to 800W/12V

500-11076

RENOGY REGO | 30A MPPT SOLAR CONTROLLER**SPECIFICATIONS**

System Voltage: 12V/24V
 Power Type: DC to DC
 Solar Input Voltage: 100V
 Maximum Output Current Rating: 30A
 Rated Max Charge Power: 450W (12V Battery) 900W (24V Battery)
 Communications: CAN(RV-C), Bluetooth
 Compatible Batteries: AGM, GEL, Std Lead Acid, Lithium LiFePO4, User Mode

500-11098

RENOGY CORE | ROVER LI 40 AMP MPPT SOLAR CHARGER**SPECIFICATIONS**

Nominal Voltage: 12V / 24V auto recognition
 Rated Charge Current: 40A
 Max PV Input Power: 520W (12V) / 1040W (24V)
 Max PV Input Voltage: 100V DC
 Tracking Efficiency: Up to 99%
 Peak Conversion Efficiency: 98%

500-11100

RENOGY CORE | ROVER LI 60 AMP MPPT SOLAR CHARGER**SPECIFICATIONS**

Nominal Voltage: 12V / 24V / 36V / 48V auto recognition (for non-lithium batteries)
 Rated Charge Current: 60A
 Rated Load Current: 20A
 Max PV Input Power: 800W (12V), 1600W (24V), 2400W (36V), 3200W (48V)

500-11080

RENOGY CORE | PUH 1000W PURE SINE WAVE INVERTER**SPECIFICATIONS**

Rated Power: 1000W
 Surge Power: 2000W
 Input Voltage: 12V DC
 Output Voltage: 220-240V AC
 Efficiency: 90%

500-11082

RENOGY CORE | PUH 2000W PURE SINE WAVE INVERTER**SPECIFICATIONS**

Continuous Power: 2000W
 Surge Power: 4000W
 Input Voltage: 12V DC
 Output Voltage: 220V ±10%
 Input Range: 11-16V DC

500-11084

RENOGY CORE | PUH 3000W PURE SINE WAVE INVERTER**SPECIFICATIONS**

Rated Power: 3000W
 Surge Power: 6000W
 Input Voltage: 12V DC
 Output Voltage: 220-240V AC
 Efficiency: 90%

500-11090

RENOGY REGO | 12V 2000W PURE SINE INVERTER WITH TRANSFER SWITCH**SPECIFICATIONS**

Continuous Power: 2000W
 Surge Power: 4000W (0.1s)
 Nominal Output Voltage: 230V AC
 Output Frequency: 50Hz ± 0.1Hz
 Wave Form: Pure sine wave
 Inverter Efficiency: >91%
 Full Load Efficiency: 87%

500-11086

RENOGY PRO | 2000W/80A INVERTER CHARGER WITH RCD/MEN BUILT-IN COMMS**SPECIFICATIONS**

Continuous Power: 2000W
 Surge Power: 4000W
 AC Output Voltage Range: 240VAC
 Output Frequency (Nominal): 50/60 Hz ± 0.1Hz, default 50Hz
 Output Waveform: Pure Sine Wave
 Efficiency: >91% peak
 THD: <4%

500-11094

RENOGY PRO | 12V 3000W HF INVERTER CHARGER**SPECIFICATIONS**

Continuous Power: 3000W
 Surge Power: 6000W
 Output Voltage: 240V AC
 Output Frequency: 50/60Hz ±0.1Hz (default 50Hz)
 Waveform: Pure sine wave
 Efficiency: >91% peak
 DC Input Voltage Range: 10.5-15.5V

SPHERE EVO LITHIUM BATTERIES

SPHERE EVO LITHIUM BATTERIES

* Note: These batteries can't be used to start motor vehicles

Sphere lithium batteries are the future of mobile power storage. Lithium batteries are much lighter than traditional lead acid and AGM batteries and deliver unrivalled cycle life, more than four times more cycles compared to lead acid and AGM batteries.

Sphere Lithium batteries are fully sealed, feature a built in BMS for safety, charge faster than AGM, support active cell balancing and now offer a 5 year warranty, IP67 protection and Bluetooth monitoring via the Sphere App.

FEATURES

- ✓ New Advanced BMS
- ✓ Dynamic Cell Balancing technology
- ✓ 2000 Cycles at 100% Discharge.
- ✓ 4000 Cycles at 50% Discharge

- ✓ Connect in series up to two batteries (24-volt system)
- ✓ Connect in parallel up to 4 batteries.
- ✓ Heavy-duty ABS case
- ✓ Heavy-duty M8 Terminals
- ✓ Maintenance-free

500-00850

SPHERE 12V 100AH LIFEPO4 EVO LITHIUM IRON PHOSPHATE BATTERY

SPECIFICATIONS

Capacity: 100Ah
Voltage: 12.8VDC
Discharge Rate Max: 100A
Maximum Pulse Rate (3 sec): 250A
Nominal Charge Rate: 30A
Max Charge Rate: 60A
Cycles@ 100% DOD: 2000
Operating Range: -20°C to +60°C
Dimension: 334 x 175 x 219

500-00852

SPHERE 12V 120AH LIFEPO4 EVO LITHIUM IRON PHOSPHATE BATTERY

SPECIFICATIONS

Capacity: 120Ah
Voltage: 12.8VDC
Discharge Rate Max: 100A
Maximum Pulse Rate (3 sec): 250A
Nominal Charge Rate: 30A
Max Charge Rate: 60A
Cycles@ 100% DOD: 2000
Operating Range: -20°C to +60°C
Dimension: 334 x 175 x 219

SPHERE BATTERIES

SPHERE BATTERIES

Sphere 12V Valve Regulated AGM Rechargeable Batteries are available in two models to suit most needs. Ideal for use in caravanning and camping, the AGM design offers improved discharge and recharge efficiencies. They require less maintenance, are spill proof and are safer for you and the environment compared to conventional alternatives.

500-00820

SPHERE 12V 100AH VALVE REGULATED AGM RECHARGEABLE BATTERY

SPECIFICATIONS

Internal resistance: Fully Charged at 25°C: 4.9 Ohm
Max. Discharge Current: 1200A(5s)
Operating Temperature Discharge: -15 ~50°C
Charge: 0 ~40°C
Charge Method (25°C) Max.
Charge current: 40 Cycle use: 14.4-15.0v(-30mv/ °c)
Float use: 13.5-13.8v(-20mv/ °c)
Dimensions: 307L x 168W x 214H (mm)

500-00822

SPHERE 12V 120AH VALVE REGULATED AGM RECHARGEABLE BATTERY

SPECIFICATIONS

Internal resistance: Fully Charged at 25°C: 4.9 Ohm
Max. Discharge Current: 1200A(5s)
Operating Temperature Discharge: -15 ~50°C
Charge: 0 ~40°C
Charge Method (25°C)
Max. Charge current: 40 Cycle Use: 14.4-15.0v(-30mv/ °c)
Float Use: 13.5-13.8v(-20mv/ °c)
Dimensions: 330L x 171W x 219H (mm)

COAST RV BATTERY BOX

500-02024

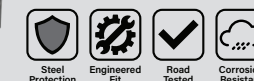

COAST RV STEEL CHASSIS MOUNT BATTERY BOX TO SUIT RENOGY 300AH MINI BATTERY

Engineered by Coast RV.

This single unit Chassis Mount Battery Box is built to protect your RV power source from harsh road conditions and debris. Made from heavy duty powder coated steel, it offers strong and reliable long term performance. For increased power needs, two boxes can be mounted side by side with optional brackets sold separately.

SPECIFICATIONS

Internal Max Size: W 416mm x D 238mm x H 314mm
Accepts Battery Base:
Max: W 371mm x D 202mm
Min: W 371mm x D 186mm
Construction: Steel, Powder Coated
Suitable for: Most compact Case 300+amp
Only Lithium batteries
Weight: 9.28 kg

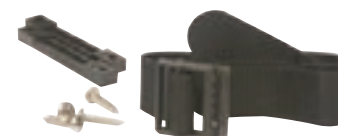

500-02012

BATTERY BOX LARGE COMES WITH LID WITH STRAP 328L X 188D X 195H

500-02036

CAMCO REPLACEMENT BATTERY BOX STRAP & HARDWARE

500-02032

CAMCO BATTERY BOX SMALL

- ✓ Internal dimensions 273L x 184D x 200H mm, plus 50 mm extra headroom for battery terminals.

500-02038

CAMCO STANDARD BATTERY TRAY PLASTIC

500-02034

RAMBLER POWER BOX

Go Further. Stay Powered. Anywhere.

Adventure-Ready Power in a Box

Heading off-road, setting up a mobile workspace, or powering appliances at camp? The Sphere Rambler Power Box delivers smart, reliable 12V power wherever you need it. Built tough for RVs, 4WDs, and off-grid setups, it supports Lithium, AGM, Gel, and Lead Acid batteries.

- ✓ **Battery Compatible:** Works with Lithium, AGM, Gel & Lead Acid batteries
- ✓ **Multiple Outputs:** 6 Anderson plugs, 3 cig sockets & 4 USB (incl. QC3.0)
- ✓ **Digital Display:** Shows voltage, capacity & temperature
- ✓ **High Output:** 175A Anderson plug for inverters & heavy gear

- ✓ **Charger Ready:** Prewired for DC-DC charger (sold separately)
- ✓ **Smart Protection:** Built-in circuit breaker & fuse system
- ✓ **Secure Fit:** Non-slip base & internal tie-down strap
- ✓ **Flexible Charging:** Use with solar, alternator or AC

SPHERE RAMBLER BATTERY BOX

500-02000

SPHERE RAMBLER BATTERY BOX WITH POWER ACCESSORY PORTS & COVERS 455X265X325MM

Whether you're heading off-road, setting up a mobile workspace, or running appliances at camp, the Sphere Rambler Power Box is ready to deliver reliable 12V power wherever you need it. This heavy-duty battery box is designed to support a wide range of battery types, including Lithium, AGM, Gel, and Lead Acid – with smart features that make it a perfect fit for RV, 4WD, and off-grid setups.

FEATURES

- ✓ Versatile compatibility for Lithium, AGM, Gel, and Lead Acid batteries
- ✓ Multiple output options with 6 Anderson plugs, 3 cigarette lighter sockets, and 4 USB ports including QC3.0 fast charge
- ✓ Built in display provides clear readouts for voltage, battery capacity, and temperature
- ✓ High output capability via a dedicated 175A Anderson plug for inverters and other high draw equipment
- ✓ Charger ready and prewired for DC DC charger integration (sold separately)
- ✓ Smart protection with built in circuit breaker and fuse protection
- ✓ Tough and secure design with non slip base pads and internal tie down strap
- ✓ Flexible charging compatibility with solar, alternator, or AC chargers

SPECIFICATIONS

- 1 x Sphere Rambler Power Box (case and lid)
- 1 x Internal tie-down strap
- 1 x Tie-down bracket and mounting hardware
- 1 x Set of non-slip base pads
- 1 x 5-piece Anderson plug dust cover set

Where Adventure Begins

**500-02356****PROJECTA INTELLI - WAVE
1500W PURE SINE INVERTER**

Power some demanding 240V appliances on the go, including circular saws, electric irons, angle grinders and coffee machines. LCD display and remote control unit provide information on battery voltage, power usage and load capacity.

- ✓ Output 1500w continuous, 2100w 140% surge 3min. 3000w 200% surge 3 sec, RCD switch.

**500-02376****PROJECTA 12V 25A
MULTI - CHEMISTRY
LITHIUM BATTERY CHARGER**

A highly advanced automatic charger for those serious about portable power, the IC25 can be set to suit the battery's chemistry type and features adjustable charge rate to perfectly match the size of your batteries. Comes with a 5 year warranty.

- ✓ Charge Lithium, Gel, Wet, AGM or Calcium batteries with chemistry specific charge profiles. Includes a power supply mode, adjustable output.

**500-02380****PROJECTA 12V 25A
MULTI - CHEMISTRY
LITHIUM BATTERY CHARGER**

With class leading multi-stage charging technology this advanced automatic charger is ideal for the high power demands of caravans and motorhomes delivering an extremely comprehensive and accurate charge that gives your batteries longer life and better performance. Comes with a 5 year warranty.

- ✓ Charge Lithium, Gel, Wet, AGM or Calcium batteries with chemistry specific charge profiles. Includes a power supply mode, adjustable

output, digital remote, temperature compensation.

500-02382**PROJECTA 12V 7A
MULTI - CHEMISTRY
LITHIUM BATTERY CHARGER**

Delivers a high quality charge tailored to suit all battery chemistry types. Ideal for use on smaller passenger vehicles through to 4WDs. Comes with a 5 year warranty.

- ✓ Charge Lithium, Gel, Wet, AGM or Calcium batteries with chemistry-specific charge profiles. Includes a power supply mode, and adjustable output.

**500-02404****PROJECTA INTELLI-GRID 12V
3000W INVERTER/180A CHARGING**

Projecta's next generation in dual battery management, ideal for 4WD and camper trailer applications. Provides an advanced charge from both solar and alternator inputs.

Market-leading temperature compensation allows IDC25X to provide 25A charge both in hot and cold climates making it ideal for under bonnet installation

- ✓ This super-efficient design is engineered to perform reliably in hot conditions, with a maximum charging capacity of 75°C. It operates up to 90°C, ideal for under-the-bonnet use. It offers the highest level of protection against dust, water, and pressure washing (IP68 & IP69K). Fully potted with thermal epoxy resin, it ensures durability and resistance.

**500-02408****PROJECTA INTELLI-GRID 12V
3000W INVERTER/180A CHARGING**

The monitor communicates directly with the Inverter Charger and the battery so no additional shunts are required making it easy for installation and use.

**500-02418****PROJECTA PRO WAVE 1100W
12V PURE SINE WAVE INVERTER**

This 1100W inverter is loaded with features found on larger models and is suitable for powering lightweight household appliances. Featuring greater starting power than modified sine wave inverters allowing it to start more favourite appliances.

- ✓ Output 1100w continuous, 1320w 120% surge for 10min. 2200w 200% startup surge for 1 sec, digital remote, 3 year warranty.

500-02420**PROJECTA PRO WAVE 1600W
12V PURE SINE WAVE INVERTER**

Featuring dual AC outlets, the PW1600 has class leading features and performance making it the perfect unit for running multiple appliances at once.

- ✓ Output 1600w continuous, 1920w 120% surge for 10min. 3200w 200% startup surge 1 sec, digital remote, 3 year warranty.

500-02422**PROJECTA PRO WAVE 2100W
12V PURE SINE WAVE INVERTER**

Available in 12V or 24V models, the PW2100 features 4200W startup to power very demanding 240V appliances on the go, including toasters, kettles and air conditioners.

- ✓ Output 2100w continuous, 2520w 120% surge for 10min. 4200w 200% startup surge 1 sec, digital remote, 3 year warranty.

500-02424**PROJECTA PRO WAVE 500W
12V PURE SINE WAVE INVERTER**

The ideal companion for taking creature comforts on the road. Delivers reliable power completely noise free, allowing sensitive devices to run wherever and whenever desired.

- ✓ Output 500w continuous, 600w 120% surge for 10min. 1000w 200% startup surge, digital remote, 3 year warranty.

**500-06400****PROJECTA INTELLI - START 900A
LITHIUM JUMP STARTER
& POWER BANKS**

This powerful lithium jump starter, suitable for petrol engines up to 6.0L, features ultra-safe LiFePO₄ technology, Rapid Recharge in 40 seconds, USB power bank, and built-in LED light. Lightweight and long-lasting, it offers up to 2000 cycles and 14 starts per charge

**500-06402****PROJECTA INTELLI - START 1200A LITHIUM JUMP STARTER
& POWER BANKS**

This powerful and compact lithium jump starter is capable of starting most petrol engines up to 7.0L* and diesel vehicles up to 4.5 litres.

**500-06404****PROJECTA 12V 1400A PROFESSIONAL JUMP STARTER**

This powerful and compact lithium jump starter is capable of starting most petrol engines up to 7.0L* and diesel vehicles up to 4.5 litres. Rapid Recharge Technology (RRT). Lasts 4X longer* than other Jump Starters. Ultra-safe Lithium Iron Phosphate (LiFePO₄) battery 90% lighter than equivalent lead acid Jump Starter Built in L.E.D flood light Power bank functionality

**500-06406****PROJECTA INTELLI - START
12/24V 2000A PROFESSIONAL
JUMP STARTER**

Unlike other jump starters, Projecta Intelli-Start Jump starters are built using a Lithium Iron Phosphate (LiFePO₄) battery designed specifically for jump starting. The lightweight, high-cranking battery delivers more power to the premium ergo-designed clamps.

**500-02440****PROJECTA 3000W POWERBOARD
INVERTER-DC2DC-SHUNT**

Projecta's Powerboard offers a safe, easy-to-install power solution for Jayco RVs, ensuring reliable performance and eliminating installation risks.

- ✓ **Dedicated Jayco Solution**
Designed for mounting into contemporary Jayco campers, caravans and motorhomes. The Projecta Powerboard provides a conveniently packaged solution engineered for integration with the Intelli-Jay battery management system.
- ✓ **Easy to Install**
pre-wired power boards with all the required accessories. Simply plug and play to get the most out of your dual battery system.
- ✓ **Heavy-Duty Construction** – boasting a sturdy and long-lasting heavy-duty steel mounting body, which is further enhanced by its powder-coated finish.
- ✓ **Multi Chemistry Compatibility**
Projecta Powerboards support multiple chemistry types including Gel, AGM, Calcium, and Lithium, making them versatile and compatible with a range of batteries.

500-00084
SPHERE CAMPER BLADE FAN & DUAL LIGHT WITH USB-C INPUT USB-C CORD INC.

- ✓ Three mounting clips two on rear & one on top
 - ✓ Two speed fan
 - ✓ On/Off light switch
- Amber & White light mode

SPECIFICATIONS

Height: 223mm
Width: 144mm

500-00200
SAFETY HUSH SMOKE ALARM

The Hush Smoke Alarm suits fast flaming fires and installs easily with no wiring. It features a 10-minute false alarm pause, auto-reset sensor and a 9-month 9V battery.

SPECIFICATIONS

Diameter: 85mm
Height: 35mm

LED REPLACEMENT BULBS

500-05748

**LED MR8 REPLACEMENT BULB
(COOL WHITE) 0.8W**

Replaces MR8 halogen bulbs with 6 bright LEDs, 60 lumens, and 12V DC equivalent to a 10W halogen

**SPECIFICATIONS**

Dimensions (mm): 34 x 25

500-05751

**LED MR16 REPLACEMENT BULB
(COOL WHITE) 4W**

Replaces traditional MR16 halogen bulbs with 3 bright LEDs, 210 lumens, and 12V DC equivalent to a 45W halogen

**SPECIFICATIONS**

Dimensions (mm): 50 x 47.8

500-05752

**LED MR11 REPLACEMENT BULB
(COOL WHITE) 1.8W**

Replaces traditional MR11 halogen bulbs with 12 bright LEDs, 150 lumens, and 12V DC equivalent to a 24W halogen

**SPECIFICATIONS**

Dimensions (mm): 34 x 34.6

500-05753

**LED G4 REPLACEMENT BULB WITH
SIDE PIN (COOL WHITE) 1.6W**

Replaces traditional G4 halogen bulbs with 6 bright LEDs, 120 lumens, and 12V DC

**SPECIFICATIONS**

Dimensions (mm): 34 x 34.6

500-05754

**LED G4 SINGLE REPLACEMENT
BULB (COOL WHITE) 1W**

Replaces reading light bulbs with a single bright LED, 70 lumens, and 12V DC equivalent to a 10W G4 halogen bulb

**SPECIFICATIONS**

Dimensions (mm): 28 x 12

500-05756

**LED G4 REPLACEMENT BULB WITH
SIDE PIN (COOL WHITE) 1.8W**

Replaces traditional G4 halogen bulbs with 12 bright LEDs, 150 lumens, and 12V DC equivalent to a 27W G4 halogen bulb

**SPECIFICATIONS**

Dimensions (mm): 42 x 30

500-05757

**LED G4 REPLACEMENT BULB
TOWER TYPE (COOL WHITE) 2.7W**

Replaces traditional G4 halogen bulbs with 18 super bright LEDs, 210 lumens, and 12V DC equivalent to a 27W G4 halogen bulb

**SPECIFICATIONS**

Dimensions (mm): 45 x 15

500-05758

**LED T10 REPLACEMENT BULB
(COOL WHITE) 1.35W**

Replaces T10 halogen bulbs with 6 LEDs, 105 lumens, and 12V DC— equivalent to 16W

**SPECIFICATIONS**

Dimensions (mm): 37 x 13

500-05760

**LED T10 REPLACEMENT BULB
(COOL WHITE) 2.7W**

Used to replace the traditional T10 halogen bulb, it has x18 super bright LEDs and a luminous flux of 210 lumens. Operating on 12V DC, it is the equivalent to a 35W T10 halogen bulb.

**SPECIFICATIONS**

Dimensions (mm): 55 x 27

500-05761

**LED T10 REPLACEMENT BULB WEDGE TYPE
(COOL WHITE) 1.76W**

Used to replace the traditional T10 halogen bulb it has x13 super bright LEDs and a luminous flux of 150 lumens. Operating on 12V DC.

**SPECIFICATIONS**

Dimensions (mm): 43.2 x 10

500-05762

**LED BA15S REPLACEMENT BULB
(COOL WHITE) 2.7W**

Replaces BA15S halogen bulbs with a single pin and 18 bright LEDs, producing 250 lumens on 12V DC equal to a 36W halogen.

**SPECIFICATIONS**

Dimensions (mm): 49 x 15

500-05764

**LED BA15D REPLACEMENT BULB
(COOL WHITE) 2.7W**

Replaces BA15D halogen bulbs with a double pin design and 18 bright LEDs, delivering 250 lumens on 12V DC equal to a 36W halogen.

**SPECIFICATIONS**

Dimensions (mm): 49 x 15

500-05766

**LED FESTOON REPLACEMENT BULB
(COOL WHITE) 0.54W**

Used to replace traditional festoon halogen bulbs, it has x6 super bright LEDs. Operating on 12V DC, and with a luminous flux of 36 lumens, it is the equivalent to a 5.4W festoon halogen bulb.

**SPECIFICATIONS**

Dimensions (mm): 42 x 24

500-05770

**LED 2D FLUORESCENT TUBE
REPLACEMENT LAMP
(COOL WHITE) 10.1W**

Replaces traditional round fluorescent lamps with 60 bright LEDs. Operating on 12V DC, it produces 900 lumens.

**SPECIFICATIONS**

Dimensions (mm): 42 x 24

REFLECTORS

500-05550

**COAST RECTANGULAR SCREW
MOUNT REFLECTOR AMBER**

Has an acrylic lens and screw mount.

**SPECIFICATIONS**

Dimensions (mm): 72 x 42

500-05554

**COAST RECTANGULAR SCREW
MOUNT REFLECTOR CLEAR**

Has an acrylic lens and screw mount.

**SPECIFICATIONS**

WIRELESS LIGHTING

SPHERE WIRELESS LIGHTING CONTROL SYSTEM

The Sphere Wireless Lighting Control System installs easily with no drilling or wiring. Pair the 6 channel receiver with your chosen wireless switches to control up to six lighting zones, with simple pairing for multiple switches per zone.

A master OFF function is available with all switches, enabling you to turn all lights off in all zones with one simple button. Alternatively, for a true wireless experience, the remote control can be purchased.

500-07132 SPHERE WIRELESS LIGHT SWITCH REMOTE CONTROL

Six button remote with six channels that controls RV lights up to 50 m away and includes a belt clip for easy carrying.

SPECIFICATIONS

The Flat-Out 12.5m Premium 15A Extension Lead delivers reliable, outdoor-ready power in a compact, compliant design. Its flexible 3x1.5mm² construction suits shorter power runs, and the 12.5m length meets RV regulations, ensuring safe and hassle-free use.

- ✓ Heavy-duty silicone insulation for added flexibility and durability
- ✓ UV resistant outer for long-term sun protection
- ✓ Waterproof and outdoor-rated for Australian conditions
- ✓ Cold-weather friendly with no coiling memory
- ✓ Clear 15A plugs for easy visual checks
- ✓ Tangle-free storage on a Compact Flat Out Multi-Reel

**SPECIFICATIONS**

12.5 m, 3x1.5mm² silicone cable with clear 15A plugs
UV stable and outdoor rated
Reel 30 cm x 6.5 cm, 2.5 kg

CMS 15AMP SINGLE 15A AUTO SWITCH INLET BLACK WITH RCD SWITCH

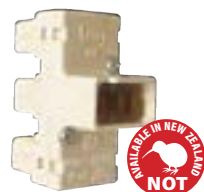

500-04318

CMS 15AMP SINGLE 15A AUTO SWITCH INLET WHITE WITH RCD SWITCH

500-04320

CMS 3 WAY ADAPTOR (BEIGE)

20A, 240V, IP4X

240v CMS Electrical products are not your usual fittings as they feature a soft-wire install with interconnecting leads instead of the hard-wire install of standard fittings. The advantage to this is that it is fast and simple to install or un-install as it is just a coupling connection to a lead rather than hard-wiring actual wire to connect the fitting.

500-04400

DOUBLE NATURAL WHITE

500-04402

SINGLE NORMAL WALL WITH DUAL 4A USB W/12VDC TERMINAL

15AMP TO 10 AMP ADAPTORS

500-04504

ELECTUS PORTABLE RCD WITH 15A TO 10A MAINS PLUG CONVERSION

Featuring a 10A circuit breaker/RCD for overload protection, this portable RCD is ideal if you have a device with a 15A mains plug but no 15A power outlet available.

SPECIFICATIONS

Voltage: 240V AC, 50Hz
Max Load: 2400W, 10A
Rated Residual Current: 30mA
Dimensions: 180H x 135D x 124W (mm)

500-04501

AMP-FIBIAN RV - 02MAX 15AMP TO 10AMP ADAPTER

The Ampfibian adaptor allows for a 15A load (e.g. that of a caravan) to connect to a standard household power point (10A). With upgraded features such as being waterproof to IP55, being able to accept leads up to 12mm in diameter and with a new H-Class rating, the Ampfibian is the safe option to connect to domestic outlets. It will automatically trip at 10A if the power outlet becomes overloaded. Designed and made in Australia, the Ampfibian comes with RCD and overload protection, as well as a two year warranty.

500-04503

AMP-FIBIAN MINI 15AMP TO 10AMP ADAPTER

Suitable for use where a waterproof rating is not essential, the Ampfibian Mini has all the same features as its big brother but with an IP33 rating. It has all the essentials such as RCD and overload protection, and a 10A circuit breaker which prevents overloading by cutting the power if it exceeds 10A (2400W). Designed and made in Australia, it comes with a two year manufacturer's warranty.

SPECIFICATIONS

Class: L - suitable for DIY/Handyman jobs
RCD: 30mA, 10kA fault current
Power: 220-240VAC, 50-60Hz

500-04506

AMP FIBIAN RV PLUS 15AMP TO 10AMP ADAPTER WITH OVERLOAD

The Ampfibian RV Plus is the perfect power adapter for caravan/RV owners. Compact for travel, and weatherproof for outdoor use, it lets 15A devices connect legally to 10A power points and includes fast acting earth leakage safety protection.

FEATURES

- ✓ Water resistant to IP55 and made from impact resistant plastic.
- ✓ Works with standard and heavy-duty caravan leads up to 12 mm diameter.
- ✓ 240V 10A 2400W circuit breaker
- ✓ R.C.D. for personal protection
- ✓ Padlock attachment point locks lid
- ✓ Power indicator light in socket
- ✓ Certified to comply with Australian Standards AS/NZS- 3190 & AS/NZS-3001
- ✓ Two year warranty
- ✓ Designed & Made in Australia

500-04508

AMP-FIBIAN WEATHERPROOF CARAVAN SURGE PROTECTOR

Australia's only portable 15A caravan surge protector! Protects your inverter and electronics from power spikes with 1000 Joules absorption and four fuses

FEATURES

- ✓ Red warning light tells you if the power point is incorrectly wired before plugging in
- ✓ Tough weatherproof housing seals the connection and allows you to see the indicator lights.
- ✓ Two spring-loaded cleats stop the caravan lead pulling out
- ✓ Flip-up hook lets you hang it off the ground
- ✓ 15 Amp plug goes into the site's power supply or generator before your caravan.
- ✓ Compatible with Ampfibian 15A to 10A Power Adaptors
- ✓ Meets Australian and New Zealand electrical standards (AS/NZS 3120:2011)

SPECIFICATIONS

240V / 50Hz / 15A / 3600W
1000 Joule protection
Meets AS/NZ 3120:2011
IP55 Weatherproof

SPHERE TWIN CELL SOLAR PANEL V2

SPHERE TWIN CELL RANGE

Sphere Twin Cell Solar Panels are now available in Version 2, delivering higher power output from the same proven panel footprint. Through improved cell efficiency and refined internal design, the updated range increases output without requiring additional roof space. This makes Twin Cell V2 ideal for caravanning and RV installations where available space is fixed and every watt of charging capacity matters.

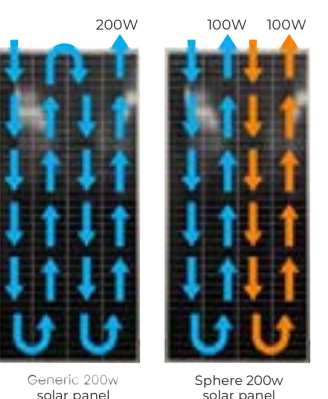

Sphere Twin Cell Technology helps reduce the impact of partial shading by allowing a single large solar panel to operate as if it were two smaller panels with isolated circuit paths. This unique parallel design allows each side of the panel to function independently from the other. When one half of a panel is covered by shade, the other will still perform at full capacity. Where partial shading will have already stopped traditional mono-crystalline panels from providing vital power, Sphere Solar Panels with Twin Cell Technology will keep on charging.

FEATURES

- ✓ Sphere Twin Cell Solar Technology for improved performance in partial shade.
- ✓ Improved cell efficiency enabling 210W from a 200W footprint.
- ✓ By-passed diodes to improve reliability and further minimize power drops caused by shade.
- ✓ An anodized aluminium frame to withstand rust with pre drilled mounting holes for a versatile range of applications.
- ✓ Antireflective, high transparency tempered glass for durability
- ✓ IP65 rated junction box provides complete protection against dust and water.

Black Frame Specific

Introducing the newest addition to the Sphere Twin Cell Solar Panel range, now available with Black-on-Black Frames. Our innovative Twin Cell Technology is now combined with a sleek black frame and backing, providing a modern and stylish look that's perfect for any RV or caravan design.

The black-on-black design adds a stylish touch to your power system and matches the trend of black frame panels that are appearing on the market. This new colour option is perfect for those looking to create a seamless and cohesive look on their vehicle, blending in effortlessly with minimalist colour schemes of modern RV designs.

SPHERE SOLAR BLANKET

SPHERE SOLAR BLANKET

SPHERE SOLAR BLANKET

The SPHERE foldable solar panel is a must-have for frequent travellers. It's a 200W solar blanket made from durable poly/cotton canvas and can be easily packed down to 1/8 of its full size, weighing only 5.9kg. Perfect for camping, RVing, and other outdoor activities, it features Anderson plugs for easy and secure connections. The A-grade mono crystalline solar cells offer an impressive energy conversion efficiency of 23.5%, providing efficient power to your electronic devices. Additionally, it has an auto-optimization function for immediate reconnection when sunlight returns after charging interruption, and comes with a lithium compatible MPPT controller that adjusts voltage for a boost of current during peak demand, resulting in 20% more energy than a PWM controller. With the SPHERE solar panel, you'll be fully equipped to enjoy off-road adventures.

FEATURES

- ✓ High-efficiency charging: A-Grade monocrystalline solar cells offer energy conversion efficiency of up to 23.5% for fast charging.
- ✓ Improved energy conversion: Premium PET films provide a light penetration rate of 95% for increased efficiency.
- ✓ Compact and lightweight design: Made from poly/cotton canvas, this solar panel is only 5.9kg and can be easily packed down to 1/8 of its full size.
- ✓ User-friendly design: Includes 8 stitched loops for added stability in windy conditions.
- ✓ Easy connection: Features Anderson plugs for secure and simple connections.
- ✓ Automatic reconnection: Auto-optimization function allows for immediate reconnection when sunlight returns after interruption.
- ✓ Advanced controller: Equipped with a lithium compatible MPPT controller that generates 20% more energy than a PWM controller.
- ✓ Safe and reliable performance: Overcharging cut-off technology ensures ultra-reliable performance.
- ✓ Lithium battery compatibility: Suitable for use with AGM, lead acid, Gel, Calcium, and LiFePO4 batteries.
- ✓ Additional functionality: USB port on the controller for charging portable devices such as smartphones and tablets.

SPHERE 200W SOLAR BLANKET

1900 x 730 x 5mm

500-06264

SPHERE 300W SOLAR BLANKET

1665 x 1090 x 5mm

Material	A-Grade Monocrystalline
Colour	Black
Product Dimension(Opened)	1895x740x3mm
Product Dimension (Closed)	475x370x60mm
Gross Weight	7.7kg
Maximum Power	200w
Open Circuit Voltage (VOC)	22.5V
Max Power Current (VOC)	12.05A
Voltage at Pmax (VMP)	18.3V
Current at Pmax (IMP)	10.93A
Temperature Range	-40°C(-40°F) ~ +85°C (185°F)
Warranty	12 Months

Material	A-Grade Monocrystalline
Colour	Black
Product Dimension(Opened)	1665x1090x3mm
Product Dimension (Closed)	555x545x50mm
Gross Weight	10.36Kg
Maximum Power	300w
Open Circuit Voltage (VOC)	21.05V
Max Power Current (VOC)	19.67A
Voltage at Pmax (VMP)	18.3V
Current at Pmax (IMP)	16.39A
Temperature Range	-40°C(-40°F) ~ +85°C (185°F)
Warranty	12 Months

SPHERE SOLAR EQUIPMENT

SPHERE SOLAR CHARGE REGULATORS

Solar power is one of the most convenient and portable ways to power your campsite! Now, you can take control of your power with Sphere's new Solar Charge Regulators!

Direct the flow of your solar power where you need it most, with a simple and user-friendly design and built-in protection against over charges.

500-06220

SPHERE PWM 12V/24V40A SOLAR CHARGE CONTROLLER

The Sphere PWM Solar Charge Controller adopts an upgraded 3-stage PWM charging algorithm, which applies an equalizing charge to the battery periodically to prevent it from non-equalization and sulfuration, extending the battery's service life (with the exception of GEL and lithium batteries). Boasting an industrial grade design, the Solar Charge Controller is able to function in various tough conditions with TVS lighting protection.

- ✓ Advanced 3-stage PWM charging algorithm
- ✓ Overload, overcharge, and over-discharge protection
- ✓ Dot Matrix Graphic LCD Screen
- ✓ Multiple charging options for various battery types
- ✓ Automatically recognises 12V/24V system voltages
- ✓ User-friendly design with intuitive operations

SPECIFICATIONS

Rated Current: 40A
Max PV Input: 600W/12V

SPHERE MPPT 12V/24V 20A SOLAR CHARGE CONTROLLER

The Sphere MPPT 12V/24V 20A Solar Charge Controller is the ultimate solution for optimal solar energy conversion. Its innovative MPPT technology allows for rapid tracking and capture of the maximum power point of multi wave peaks, resulting in an impressive 94% energy conversion efficiency - higher than 75% of PWM solar controllers.

Safety is a top priority, so this controller is packed with protections such as reverse polarity, over-charge/discharge, over-load/temperature, back feeding (night), and short circuit protection. The controller also features a cover that protects terminals against corrosion and shorting.

Constructed with tough ABS housing and upgraded aluminium heat sinks, this durable unit is built to last. It's a great addition to any solar panel system, and is compatible with a variety of lead acid deep cycle batteries and LiFePO4 batteries, thanks to its multi-stage properties that better support batteries.

500-06224

SOLAR MC4 CONNECTOR PLUG & SOCKET SET

The MC4 connector provides a safe, secure and reliable connection between solar panels and other electrical components of the solar system.

500-06226

SPHERE MC4 5M SOLAR CABLE TWIN 6MM2

Explore efficient solar solutions with 6mm Twin wire, 30A capacity, double insulation, UV resistance, and pre-fitted Sphere MC4 connectors

500-06228

SPHERE MULTIPLE CABLE ENTRY COVER PLATE BLACK

Low-profile cover with multiple cable entry points, removable tabs, and easy installation using sealant and screws.

SPHERE SOLAR EQUIPMENT

SPHERE MC4 SOLAR STAGGERED BRANCH WITH 5M HD EXTENSION

The SPHERE MC4 range provides heavy duty, pre assembled solar leads designed to simplify RV and caravan installations. With IP67 MC4 connectors and durable construction, each cable delivers reliable, weather sealed performance for extending or branching solar arrays while minimising voltage drop and cable clutter.

500-06202

SPHERE MC4 SOLAR STAGGERED 1 TO 2 BRANCH WITH 5M HD EXTENSION

500-06244

SPHERE MC4 SOLAR 1 TO 2 BRANCH

Link multiple panels easily with MC4 branch connectors, supporting up to 30A with positive and negative connectors

500-06246

SPHERE MC4 SOLAR 1 TO 3 BRANCH

Quickly connect multiple panels with our MC4 branch connectors, rated for 30A, including positive and negative connectors

500-06248

SPHERE MC4 SOLAR 1 TO 4 BRANCH

Streamline your solar setup with MC4 branch connectors supporting up to 30A, including connectors for both positive and negative wires

SPHERE 2 POLE DC CIRCUIT BREAKER RANGE

Reliable power starts with safe, controlled current. The SPHERE 2 Pole DC Circuit Breaker range is built to protect your 12V and 24V power systems with precision and durability. Each breaker is engineered to meet the demands of off-grid, RV, and solar installations, providing dependable protection against overloads and short circuits without compromising performance.

TYCAB AUTO AND MARINE CABLE

Tycab Australia Automotive cable leading the way...and streets ahead!

Tycab Australia is the major manufacturer of automotive cable in Australia. Tycab has been at the forefront of manufacturing automotive aftermarket and OEM cables for over 30 years. All Tycab cable are made from the highest quality Oxygen Free Plain Copper Wire and is RoHS compliant. Tycab Australia automotive cable is renowned for reliability, quality and flexibility.

SINGLE CORE LOW TENSION PRIMARY WIRING

Application: General Purpose Automotive Wiring

SPHERE FAN

VIENTO CARAVAN AND RV FAN

Stay cool on the road with the VIENTO Caravan and RV Fan featuring quiet three speed airflow, a programmable timer, soft rubber blades, remote control and built in USB charging with a white or amber night light.

A quiet, energy efficient RV fan with three speeds, timer settings, soft rubber blades, remote control, USB charging ports and a built in white or amber night light.

FEATURES

- ✓ 12V and 24V compatible for all RV setups
- ✓ USB-A and USB-C charging ports
- ✓ Infrared remote control
- ✓ Quiet fan with rubber safety blades
- ✓ Three speed airflow settings
- ✓ Programmable timer options
- ✓ White or amber night light

SPECIFICATIONS

Voltage: 12V / 24V
Weight: 0.70 kg
Airflow: 150 CFM / 258 m³ per hour
Fan Motor: Brushed DC motor
Approvals: EMC / RCM

RV INFRARED 2000W OUTDOOR HEATER

Infrared heat warms directly, unaffected by wind

*Instant Heat, Ultimate Outdoor Comfort
Feel the Warmth Anywhere*

DETAILED FEATURES & BENEFITS

Infrared Heating Technology: Instant, radiant warmth without drying the air.

Remote Control Convenience: Adjust heat settings from up to 6m away.

Quick-Release Mounting: Easy installation, removal, and storage.

IP65 Weatherproof: Built for outdoor use, resistant to dust and water.

Safe & Reliable: Overheat protection for worry-free use.

SAFETY & USAGE HIGHLIGHTS

DO NOT COVER DURING OPERATION

Maintain Safe Clearance:

- 1.8m minimum height from the floor
- 0.5m from ceilings and awnings
- 1.0m from walls (1.5m for canvas or vinyl)

DO NOT TILT TOWARD CANVAS & VINYL MATERIALS

Remove heater before travel in RVs

SPHERE HEATER

SPHERE RV INFRARED OUTDOOR HEATER

Chilly nights at the campsite are no match for the SPHERE Infrared Outdoor Heater. Built for Australian conditions, this 2000W heater delivers instant, reliable warmth and uses infrared technology to heat people and surfaces directly, even in windy conditions.

500-13000

SPHERE INFRAHEAT - RV INFRARED OUTDOOR HEATER WITH REMOTE CONTROL | 2000W

Easily mount it to your caravan, camper or annex with the quick release bracket. Its IP65 rating protects it from dust, rain and splashes, and the remote works up to 6 metres away.

It includes overheat protection and clear mounting guidelines. Remove it before travel and maintain all required clearances, especially near canvas or vinyl.

Lightweight, efficient and ideal for outdoor living, it delivers comfortable heat without drying the air.

FEATURES

- ✓ 2000W infrared heating – fast, wind-resistant warmth
- ✓ Remote control – operate from up to 6m away
- ✓ Quick-release mounting – simple to install, easy to store
- ✓ IP65 rated – water and dust resistant for outdoor use
- ✓ Overheat protection – peace of mind built in

POWERSMART 2500-WATT
INVERTER GENERATOR**

The P2500 PowerSmart Series Inverter with CO Guard provides safe, reliable and affordable power for camping, caravanning, holidays and light trade use. It starts easily, runs quietly and delivers trusted performance wherever you are.

**SPECIFICATIONS**

Model Number: 030861
Running Watts: 1800
Starting Watts*: 2500
Starter: Recoil
Displacement: 79 cc
Run Time: Up to 8 hours at 25 percent load

**GAS EQUIPMENT****GAS ACRONYMS**

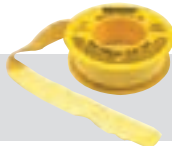

BSP	British Standard Pipe
BSPT	British Standard Pipe Tapered
NPT	National Pipe Thread
POL	Prest-O-Lite
SAE	Society of Automotive Engineers
M	This indicates that it is a male fitting
F	This indicates that it is a female fitting

For your own safety all gas fittings and equipment should be installed and checked by a qualified person.

550-00100

YELLOW GAS SEAL TAPE

Has a heat resistance of +200°C & a cold resistance of up to -20°C. Pressure resistant up to 2600kPa & is made of sintered PTFE (Poly Tetra Fluoro Ethylene).

**SPECIFICATIONS**

Dimensions: 12mm (W) x 10m (L)

**LCI LIPPERT BOTTLECHECK BLUETOOTH
GAS GAUGE**

Easily monitor gas bottle levels with the BottleCheck Bluetooth sensor and app. It measures LPG levels, sends alerts before you run out and works with RV, caravan, heater and BBQ bottles. The magnetic sensor attaches to the base of the bottle and wirelessly updates the fill level in the free BottleCheck app.

**SPECIFICATIONS**

Sensor Siz.: 72mm Diameter 8mm High
Weight: 30 Grams
Bluetooth Range: 50 Ft
Measures: LPG only
Temp Range: -30°C to + 55°C
IP Rating: IP64

Built for Australian conditions, the Coast 4 Point Door delivers secure, easy access with integrated ventilation. Featuring a durable aluminium frame, acrylic window and inner screen, it is designed to suit modern caravans and life on the road.

Built for Australian conditions, the Coast 4 Point Door offers durable, secure and well ventilated access for modern caravans and RVs. Designed for OEM and trade use, it combines ease of installation with a clean, professional finish.

Featuring a black aluminium frame with white or black infill, the door includes a clear acrylic window and an integrated inner screen for instant airflow and insect protection. Square corner and two radius options allow easy integration with different wall designs, while the flush fit 4 point locking system provides added security.

A 248 cm² passive air vent ensures continuous airflow for compliance and comfort. Each door is pre drilled and capped for the Coast RV Roller Blind and is individually packaged for protection during transport.

CAMCO CLEANER

600-05332

CAMCO PRO-STRENGTH AWNING CLEANER

Safely removes mould stains, dirt, tree sap and road grime from your awning. It is specially formulated to clean vinyl, nylon, acrylic and fabric awnings, and is also great for use on tents and pop-up campers. Breathe new life into your awning or tent and help restore a like-new appearance. Comes in a 946ml bottle.

600-05382

CAMCO PRO-STRENGTH MILDEW STAIN REMOVER

Safely cleans mildew stains, black streaks, tree sap, tyres, wheels and even grills. It is specially formulated to power away stains caused by mildew in and around your RV. Use it to clean your awning, vinyl cover, chair cushions and many other surfaces. Also great for use on grease, oil and other heavy duty cleaning thanks to its professional strength. Comes in a 946ml spray bottle.

600-05302

CAMCO PRO-STRENGTH BLACK STREAK REMOVER

A specially formulated cleaner and degreaser that is ready to use and powers away stubborn black streaks resulting from window and door sealants, bugs, tar, grease, oil and dirt that have built up over time, helping to restore a like-new appearance. Not for use on rubber or membrane roofs. Comes in a 946ml spray bottle.

600-05322

CAMCO PRO-STRENGTH WASH AND WAX

A blend of natural waxes and emulsifiers that will clean, shine and protect your RV in one easy application. It does not require any buffing and thanks to 100% Carnauba Wax being used in its formula, it leaves behind a water resistant surface that promotes a beading action. Safe for use on all finishes. Comes in a 946ml spray bottle.

600-05500

CAMCO TST PROBE CLEANER

TST Probe Cleaner is a super concentrated liquid that attacks the residue on probes that causes them to malfunction.

SIMSON ISR

ISR 70-03 is a good compromise between an adhesive and a sealant. Suitable for elastic bonding and sealing in caravan construction. Available in black and white.

- ✓ Solvent, isocyanate and PVC free with strong UV and ageing resistance
- ✓ Good adhesion to most substrates without primer
- ✓ Permanently elastic from -40°C to +120°C
- ✓ Neutral, low odour and fast curing
- ✓ Compatible with most industrial paints; testing recommended
- ✓ Paintable after skin formation without affecting curing

600-06170

JAYCO STRIP CAULK BLACK 1/2X1/4 156MT (SOLD PER ROLL)

Soft, non hardening sealant for window flanges and edge moulds that is waterproof, easy to apply and supplied in a 4.9 m roll.

TAPE FOAM PVC SEALING

This general purpose foam tape is manufactured for use in applications requiring positive seals on irregular surfaces or when flex and conformability to tight radius curves are critical considerations.

- ✓ Low density foam is easy to compress and conformable, but is still strong and resilient
- ✓ Insulates against temperature, sound and vibration
- ✓ Formulated from durable Poly Vinyl Chloride (PVC) for long service life.
- ✓ Closed cell structure completely seals out air, moisture, light and dust when compressed at least 30%.

AUSTRALITE FOUR SEASONS HATCH SPARES

650-00554

FOUR SEASONS LIFT MECHANISM

650-00597

AUSTRALITE FOUR SEASONS EVOLUTION HATCH 600 X 600

- ✓ Fully designed and tested in Australia for Australasian conditions
- ✓ Retains Camec's famous 4 season functionality
- ✓ Classic 660 x 660 mm square cut-out means no change, and also makes it retrofittable to upgrade your old 4 seasons hatch
- ✓ Passive ventilation increased to 223cm² (was 161cm² on previous model)
- ✓ Ergonomic vent controls
- ✓ Each door has three opening positions (closed, rain mode, fully open)
- ✓ New elegant design, matching the 500x700 4 Seasons Evolution Roof Hatch

- ✓ Tough ASA construction resulting in improved sealant adhesion
- ✓ Easy installation from inside the RV
- ✓ Air Deflector integrated into housing.
- ✓ No additional components required.

FIAMMA ROOF HATCH

650-02013

FIAMMA ROOF HATCH 160

With an elegant and aerodynamic design, the Roof Hatch 160 is quiet, thanks to the new outside cover and rubber seal. Its watertight system guarantees rain streams down without the possibility of it coming in. Made with quality UV-resistant material, it also features an adjustable centre support arm. Can be installed on roofs with depths from 25-50mm. Supplied with a permanent airflow system and mosquito net.

SPECIFICATIONS

Required cut-out dimensions: 390 x 390 (mm)

650-02019

FIAMMA TURBO VENT 160

Installs in 380mm - 400mm openings with 300mm 10 Blade 12V Fan with polar control thermostat.

650-02032

FIAMMA KOMBI 50CM X 50CM HATCH WHITE

This 50 x 50 cm roof light opens on all four sides with practical handles and provides permanent ventilation. It includes a two-roller blind with blackout and mosquito screens, features a locking anti-theft handle design and is rainproof, windproof and UV-resistant. ABE approved.

FIAMMA ROLLO VENT 40

A roller blind system that is suitable for use on Fiamma 40cm x 40cm vents. It is fixed to the existing vent frame using the screws provided and still allows for permanent ventilation thanks to its side inlets.

SPECIFICATIONS

Weight: 0.1kg

650-99000N

FIAMMA ROOF HATCH VENT 160 CRYSTAL LID

Made from quality UV-resistant material, the Crystal Roof Hatch provides permanent airflow ventilation and has a mosquito screen to keep out the bugs. It has an aerodynamic design so a spoiler is not required for installation. The outer cover has an exclusive, patented rubber seal which guarantees a watertight system.

It is interchangeable with older 40 x 40 cm Fiamma roof lights, as well as 36 x 36 (cm), 42 x 42 (cm) roof lights thanks to the reinforced frame. To block out the sun, the Fiamma Rollo Vent 40 can be purchased.

Durable and easy to install, it ensures reliable ventilation and protection from the elements. Ideal for RVs, motorhomes, and caravans looking for both functionality and style.

SPECIFICATIONS

Weight: 2.8kg

Since 1988, MaxxAir has provided top RV ventilation through Coast to Coast. Features include manual or electric openings, remote control, and rain-sensing auto close.

Some other features include:

- ✓ Removable flyscreen – simply twist the L-clamps and remove for cleaning!
- ✓ Installs onto all standard 14" x 14" (356mm x 356mm) roof openings
- ✓ Powerful 10-speed fan motor
- ✓ Fan can run even if the lid is closed (select 'Ceiling Fan Mode') and can be used in "intake" and "exhaust" modes
- ✓ Provides over 900CFM, keeping your RV cool and comfortable
- ✓ Twin lifting arms limit vibrations caused by wind when in the open position

MAXXAIR VENT

650-04022

MAXXAIR STANDARD VENT COVER TRANSLUCENT WHITE

Ideal for caravans, motorhomes and trailers with a standard 14 x 14 inch roof vent where you want to keep the vent open in rain or improve airflow while staying protected from the weather. It mounts over existing vent flanges, making it compatible with many vent brands, though checking your frame size and mounting layout before purchase is recommended.

- ✓ Provides all weather ventilation while blocking rain, heat and odours
- ✓ Translucent finish allows natural light in
- ✓ UV-resistant HDPE for long service life
- ✓ Zero Leak mounting system reduces roof penetrations and leak risk
- ✓ Simple upgrade without replacing the full vent
- ✓ Clean white finish for a tidy exterior look Mounts to all existing 14" x 14" roof vents INCLUDING the new
- ✓ Ventline E-Z Lift Ventadome

* Not recommended for High-Powered Fans like MAXXFAN, MAXXFAN Plus Fans, ShurFlo Fan or Fantastic Fan.

CAMCO ROOF VENT

650-04000

AERO FLO VENT COVER FOR 14"X 14" ROOF VENT

Get high flow fresh air ventilated throughout your RV in rain or sunshine. It has a swing open top for easy cleaning and because it has vents on three sides it has 30% more open vent area than some other vent covers. Made from UV stabilized resin it mounts easily to existing 14" x 14" roof vents.

650-04030

CAMCO LIGHTS OUT RETRACTABLE RV ROOF VENT SHADE

Camco RV Cream Retractable Lights Out Vent Shade prevents light from shining into RV sleeping quarters at night. Easily mounts to ceiling and retracts into the space efficient housing to allow light inside during the day. Opens to 14-1/8" x 19". Durable, lightweight vinyl with a reflective finish that helps reflect heat to keep your RV cool.

- ✓ Easy installation
- ✓ Reflects heat to keep the RV cool
- ✓ Opens to 14-1/8" x 19"
- ✓ Prevent light from shining into RV at night
- ✓ Easily retracts to let light in during the day

DOMETIC DUST REDUCTION SYSTEM

What's the easiest way to keep your caravan clean? Don't let dust enter in the first place! With a rooftop ventilation system like the Dometic Dust Reduction System, you can significantly reduce the amount of dust in your caravan, breathe fresher air and reduce the cleaning time after caravan trips; You do not even need to power it; it works while you drive.

FEATURES

- ✓ Stylish Airflow Grille. The grille allows airflow through the unit and prevents debris from entering the vehicle.
- ✓ Modern Design. Modern rooftop unit with a low profile and light weight design
- ✓ Easy to Use. Changing the air filter is simple thanks to the ceiling cover that is easy to open and close
- ✓ Versatile Installation. Simple and clean design that can be installed in a range of rooftop openings from 285 x 285 mm to 400 x 400 mm
- ✓ Replaceable Air Filters. Additional PM10 air filters sold separately.

GUSTO DRS

The ultimate solution for dust free adventures, GUSTO DRS protects your RV interior and valuables from dust intrusion while ensuring a cleaner, more comfortable journey. Designed to eliminate dust ingress, it helps keep your vehicle clean so you can focus on enjoying your travels.

GUSTO DRS actively extracts dust from your caravan, RV or motorhome whether stationary or on the move. Its compact, sleek design integrates neatly into most RVs, delivering powerful performance without affecting functionality or appearance. Enjoy cleaner air and dust free journeys with GUSTO DRS on every trip.

FEATURES

- ✓ Fan can move a maximum air volume of 1800 cubic meters per hour
- ✓ Mounts to the side of a caravan
- ✓ Power specs – 18 Amps Max current, 12-14v DC
- ✓ Able to pressurise a caravan in seconds
- ✓ Eliminates requirements for structural reinforcing and extensive waterproofing
- ✓ Creates more roof space for solar panels
- ✓ Compact and sleek design
- ✓ Aesthetically pleasing
- ✓ Operates when the van is stationary
- ✓ Also operates when the van is travelling in excess of 100km/h
- ✓ Compact design allows for fitment inside standard internal cabinet
- ✓ Once installed, the device is concealed from the user
- ✓ Plastics – all plastics exposed to sunlight will be ASA (similar to ABS, but with better UV resistance)
- ✓ Screw material – all fasteners are stainless steel
- ✓ Sheet metal frame – made from SECC (galvanised steel sheet) with powder coated finish
- ✓ Available in black or white

GUSTO DRS COMPLETE UNIT BLACK

650-01240

GUSTO DRS PRO COMPLETE UNIT ONLY BLACK

DRS Pro: Just like the original DRS, the Pro is a side-mounted dust reduction system that doesn't need to be installed on the roof. It is aesthetically pleasing both inside and outside of the van, providing more roof space for solar panels and enhancing overall functionality

FEATURES

- ✓ Power specs – 6 Amps Max current at 12VDC
- ✓ Fan can move a maximum air volume of 1000 cubic meters per hour
- ✓ Operating temperature between negative 40 and positive 105 Celsius

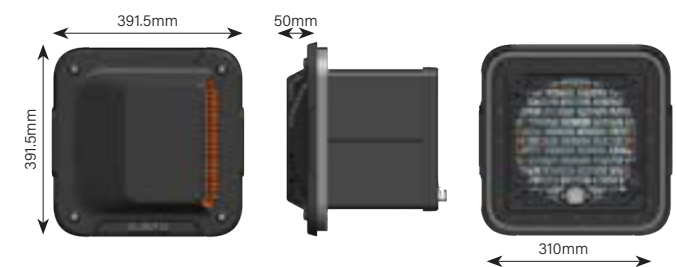

DRS**DIMENSIONS**

Overall Dimensions: 390mm x 390mm x 300mm

Caravan wall cutout size: 310mm x 310mm

Weight: 8.2Kg (Steel Frame)

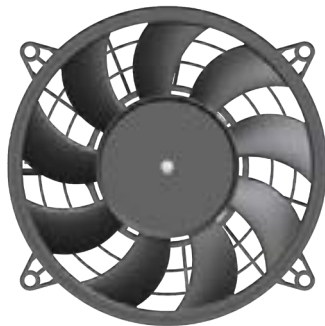

Power consumption: 18A @ 12VDC

Fan Airflow: 1800m³/h**DRS BRUSHLESS FAN:**

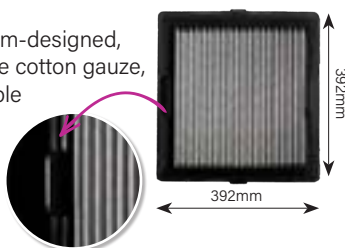

Rated Current: 17A

Rated Air Volume: 1800m³/h

Weight: 2.5Kg

**AIR FILTER**

The DRS air filter features a custom-designed, high efficiency filter with washable cotton gauze, reducing waste. Built with a durable polyurethane frame, it ensures longevity, easy installation, and serviceability.

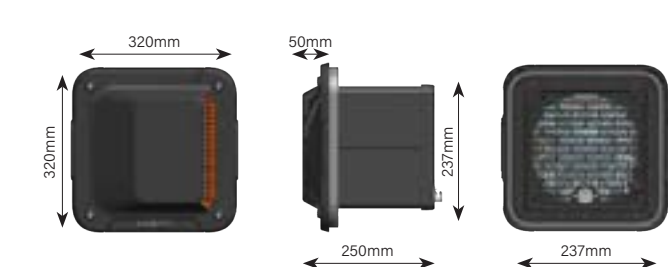

**CABINET VENT****DRS PRO****DIMENSIONS**

Overall Dimensions: 320mm x 320mm x 250mm

Caravan wall cutout size: 240mm x 240mm

Weight: 5.5Kg (Aluminium Frame)

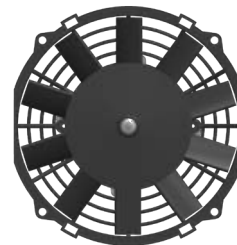

Estimated Power consumption: 6A @ 12VDC

Fan Airflow: 1000m³/h**DRS PRO BRUSHLESS FAN:**

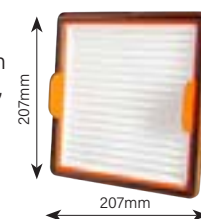

Rated Current: 7.5A

Rated Air Volume: 1000m³/h

Weight: 2.4 Kg

**AIR FILTER**

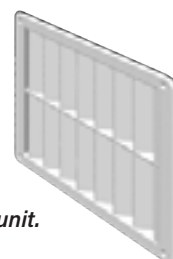

The DRS Pro features an all-new air filter design which reduces weight whilst optimizing air flow, durability and performance. It comprises of a rigid automotive grade plastic frame with bonded Polyurethane seals.

**CABINET VENT**

A new Cabinet Vent designed for side mounting on visible cabinet walls will be supplied with the DRS Pro. It features angled fins which obscure the internals of the cabinet.

The vent will be available in white only.

Overall Dimensions: 200mm x 350mm x 30mm

Note: Vent dimensions may differ for production unit.**GUSTO BLOWER**

Designed for life on the road, the Gusto Blower delivers powerful, hassle-free cleaning at your van door. From sandy beaches to dusty tracks, it keeps unwanted debris outside, making everyday travel cleaner and more enjoyable.

The GUSTO Blower unit is a revolutionary combination of the tradie blower and banister brush. This purpose-built, air-powered, water-free cleaning device is sensor operated and has been designed to keep the dust, dirt, and sand out of your caravan, tradie trailer, 4X4, van conversion, and more!

The GUSTO Blower unit connects to your existing 12 V power source. It cleans the dirt, dust, sand, grass, and debris off anything, from your feet to your equipment.

The GUSTO Blower unit significantly reduces cleaning time and frees up your time for relaxing and more adventures. With its patented design, there really is nothing on the market that compares.

FEATURES

- ✓ Proximity sensor-operated power switch with 30-second run time.
- ✓ Dust and waterproof seals so the Australian weather won't get in.
- ✓ Lockable door to ensure it stays secure when travelling.
- ✓ Designed to fit within a standard cupboard or bench cavity deeper than 250mm.
- ✓ Hooks up to existing 12v power source.
- ✓ Replaceable fuse.
- ✓ Low battery light indicator.
- ✓ 12-month warranty (Extended warranty available at extra cost)

**INCLUDES**

- 1 x removable nylon brush head
- 1 x 2.5m long removable hose (3m hose available at extra cost)
- 1 x mounting and hanging hook, 2 x keys
- Weight: 6.5kg
- Size: 235mm wide x 214mm high x 240mm deep

SPHERE REFRIGERATION RANGE

SPHERE COMPRESSOR FRIDGE

Make every stop comfortable with chilled food and ready to go meals. Sphere Upright DC Fridges are built for real life travel and outdoor living.

Sphere Upright DC Compressor Fridges are designed for life on the road, delivering dependable cooling, low energy use and durable performance in Australian conditions. With efficient LG or Cubigel compressors, quiet operation and interiors built for practical storage, they suit everything from compact caravans to larger touring setups. Many models offer flexible fridge and freezer zones, independent temperature control and energy saving features that help extend your time off grid. Reversible doors and RV friendly installation options make them easy to fit into any layout, while built in battery protection helps safeguard your vehicle power. Whether you are heading away for a weekend or travelling for weeks at a time, Sphere DC fridges keep your food and drinks reliably cool wherever you go.

SPHERE TRAVEL WASH FRONT LOAD WASHING MACHINE

When travelling off grid, every litre counts. The Sphere TravelWash front loader is designed to conserve water, using only 24 to 26 litres on a standard cotton cycle, compared with up to 60 litres from a typical 2.6 kilogram top loader. Its efficiency helps extend your time between refills and supports longer stays in remote locations.

700-00366

SPHERE TRAVEL WASH | FRONT LOADING WASHING MACHINE 500X415X630MM FREE STANDING

Imagine finishing a day outdoors and loading your gear straight into the TravelWash while you prepare dinner. No buckets, no shared laundries. With proven reliability, RV friendly installation and a compact design, this fully automatic front loader delivers real washing convenience on the road.

FEATURES

- ✓ Water-saving front loader uses only 24 to 26 litres per cycle on cotton (compared to 60 litres for similar top-loaders)
- ✓ 2.5 kilogram capacity, ideal for frequent, smaller loads
- ✓ Six wash programs including Cotton, Quick Wash, Soft, Hi-Temp, Spin Only, and Drum Clean
- ✓ Hi-Temp mode for extra hygienic results
- ✓ Delay Start function from 3 to 19 hours
- ✓ Child Lock and Fuzzy Logic load balancing
- ✓ Reliable operation even with low water pressure
- ✓ Compact, travel-ready design fits perfectly in RVs, vans, cabins, and tiny homes

700-00368

RV ELECTRONICS FRIDGE SWITCH

Has an built-in electronic movement & vibration sensor which switches the 12V circuit of the caravan's 3-way fridge "on" when the vehicle is moving & turns the fridge "off" when the vehicle stops.

The fridge switch has a variable timing circuit which may keep the fridge turned on for up to 3 minutes after the vehicle has stopped. This is to keep the fridge turned on while briefly stopped, such as at traffic lights.

- ✓ No more flat batteries when the fridge is left on
- ✓ Only one auxiliary line needed
- ✓ Automatically turns your caravan fridge on and off
- ✓ Easy 15 minute installation

THETFORD FRIDGES AND VENTS

For more than 40 years, Thetford has been designing and developing refrigerators for the leisure market. Thetford absorption refrigerators work differently from your fridge at home.

Thetford 3-way refrigerators have no compressor, making them much quieter. This means you can relax and enjoy a pleasant stay in your caravan or camper, without noisy appliances buzzing in the background. Not stopping with mere production, Thetford continues to develop and innovate in terms of quality, design and ease of use.

Thetford refrigerators are extensively tested to high quality standards, are AGA approved and carry the CE mark. Plus Thetford refrigerators come with a full three year warranty.

**700-05704****SIZZLER BARBEQUE STANDARD GAS HOSE AND REGULATOR KIT**

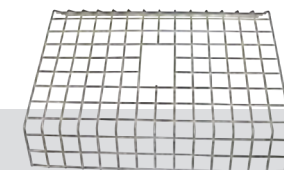

Suitable for use when running a Sizzler Barbeque off a gas bottle.

**700-05644****DELUXE 2.0 STAINLESS STEEL BARBEQUE WITH HIGH LID & FLAME FAILURE**

The new Sizzler Deluxe 2.0 BBQ is an extremely versatile and compact cooking appliance, taking up less than half the space of most of its competitors! It is ideal to use when fitted in your "Tunnel Boot" on one of our Swivel Slides!

**SPECIFICATIONS**

Cooks for: 4-6 people
LPG, propane & natural gas
2 Burners
Weight: 12 kg
BTUs: 20,000 or 21 megajoules
Dimensions: H 260mm x D 305mm x W 530mm
Cooking surface measures: D250mm x W440mm
R & D and AGA approved, so you can place it in a tunnel boot or other cavities in a caravan or RV.

700-05720**SIZZLER BARBEQUE COOKING RACK TO SUIT ALL SIZZLER BARBEQUES****SPECIFICATIONS**

Dimensions: 350W x 280L x 50H (mm)

700-05730**SIZZLER BARBEQUE UTENSIL TRAYSUITABLE FOR USE ON ALL SIZZLER BARBEQUES**

The utensil tray clips onto the front of the barbeque to hold your sauces or tongs.

**700-05753****SIZZLER BARBEQUE SLIDE KIT WITH QUICK RELEASE BRACKET**

Suitable for use with the Sizzler Deluxe 2.0, the Slide Kit allows for installation (and storage) inside a cavity in your RV. By flicking the Quick Release Bracket, your barbeque can easily be dismounted for use in a different location.

**700-05755****SIZZLER BARBEQUE SWIVEL SLIDE KIT**

Similar to slide kit above, the Swivel Kit allows for installations into a narrower cavity. To use the barbeque, simply rotate 90°.

Note: BBQ not included.

Transition into a realm of reliable rides where quality gear adds a touch of comfort. Every part speaks the language of safety, transforming your caravan into a haven of enjoyment. Your journey, an unforgettable chapter in comfort and reliability

The SHURFLO Revolution pump features a one piece diaphragm and internal bypass for long lasting, reliable performance. Built to suit a wide range of RV plumbing systems, it delivers consistent freshwater flow. SHURFLO has set the benchmark for RV pumps since 1968 and is trusted worldwide. Known for reliability, SHURFLO pumps remain a leading choice across the RV industry.

800-00012**SHURFLO PUMP 12V (10L, OEM BULK, NO FITTINGS)**

A fresh water pump designed with a one-piece diaphragm and internal by-pass ensuring a long life and max performance.

Constructed for high flow demand, this updated Shurflo pump has low noise emissions and no rapid cycling. CE and C-Tick compliant, must be installed with a filter.

FEATURES

- ✓ Four chamber design for quiet, smooth performance
- ✓ Self priming up to 1.8 m
- ✓ Adjustable pressure and bypass
- ✓ Run dry capable for long life
- ✓ CE and C Tick compliant

SPECIFICATIONS

Pump
Type: 4 Chamber Diaphragm Pump
Ports: 1/2" - 14 NPSM-Male
Inlet PSI: 30PSI (2.1Bar) Max
Shut Off Pressure: 45PSI
Electrical
Motor: 12V DC Permanent Magnet, Intermittent Duty
Protection: Thermal Overload, Automatic Restart
Fuse: 7A Recommended
Materials
Housing: Polypropylene
Hardware: Stainless and Zinc Plated Steel
Net Weight: 2.3kg
Dimensions: 205L x 125W x 111H mm

**800-99997****SHURFLO 4009 OEM PUMP 12V AND FILTER KIT**

Includes x1 800-00012 and x1 800-00300

**800-00024****SHURFLO 4009 PUMP (10L, RETAIL BOX)**

Has all the same features and functions as 800-00012 (above) with the only difference being that it comes in a well presented retail box with fittings for display on your shelves.

The Retail Box comes with x2 800-00206 fittings for your customers' convenience.

Note: A filter must be installed with the 4009 Pump in order to validate warranty.

**800-00052****SHURFLO 4009 PUMP 24V (10L OEM BULK, NO FITTINGS)**

Has all the same features and functions as 800-00012 with the only difference being that it runs on 24VDC.

Note: A filter must be installed with the 4009 Pump in order to validate warranty.

FILTERS

These clear strainers eliminate unnecessary repair by keeping dust or other particles out of your Shurflo pump. Its transparent design is also convenient as it shows when the filter should be cleaned / emptied. The top housing is made from polypropylene and the filter itself is made from T304 stainless steel (mesh). Note that for warranty purposes, all Shurflo pumps must be installed with one of the two filters below.

800-00300

TWIST FILTER WITH
1/2" THREAD INLET AND
OUTLET

This is a direct screw on filter and will require a screw-on connection.

800-00312

TWIST-ON FILTER WITH 1/2"
BARB INLET

Suitable for use when a flexible hose such as a reinforced drink water hose is used.

SHURFLO RV AND MARINE
FILTRATION KIT (RV-QBR-A)

Using quality approved materials, the Shurflo Filtration Kit gives you clean, great tasting water on your travels. It reduces chlorine taste and odour and includes a 1/4 inch filter head, disposable filter, drinking tap and 1.5 m tube. Suitable for cold water only. After long periods of non use, flush the system for 2 to 3 minutes. Allow 38 mm clearance below the housing for filter changes. Includes a limited 1 year warranty.

SPECIFICATIONS

Micron: 0.5

Pressure Range: 30 - 125 PSI (2.1 - 8.62 Bar)

Flow Rate: 1.9L p/min

800-00650

SHURFLO REPLACEMENT CARTRIDGE
FOR FILTER KIT (RV-QDFR-A)

Easily installed, the disposable quick change filter ensure you have pure water for longer. Shurflo recommends changing the filter every 6 - 12 months or when its capacity (1890L) has been reached, whichever comes first. (Alternative model number: 155 785-38)

SHURFLO PUMP FACTS

MAINTENANCE

Checking and cleaning the strainer, regular sanitising and winterising, along with occasional checks of all plumbing hardware and fittings for tightness, are usually all that is required. Lack of sanitising is the number one cause of premature pump failure and poor performance over time. Failure to sanitise can lead to scale build-up on the diaphragm and valves, resulting in low flow and leak-back (occasionally causing the pump to cycle with no taps open or the tank to fill up when connected to city water).

SANITISING

Potable water systems require periodic maintenance to ensure that components continue to work properly and deliver a consistent flow of fresh water. Sanitising is recommended: prior to storage, after a period of storage, or whenever the system is opened or contaminated, as follows:

NOTE: Check your Vehicle Owner's Manual for specific instructions. By-pass any filters or remove filter cartridges.

1. Determine the amount of common household bleach required to sanitise the tank. (1 ml of bleach per 1 litre of tank size: for a 300 litre tank, use 300 millilitres of bleach.)
2. Mix the bleach with water in a container such as a gallon jug. If the tank is filled through a pressurised fitting, pour the bleach into the hose before attaching the hose to the city water entry.
3. Pour the bleach solution into the tank and fill the tank with potable water. Rock the RV back and forth to coat the top and sides of the potable water tank.
4. Open all faucets (hot and cold) and allow the water to run until the odour of chlorine is detected. Allow four (4) hours of contact time to disinfect completely. Doubling the solution concentration allows for a contact time of one (1) hour.
5. Drain the tank. Refill the tank and flush the system once or twice until the chlorine odour has decreased. The residual chlorine odour and taste are not harmful.

WINTERISATION

Refer to the vehicle owner's manual for specific winterising instructions.

If water is allowed to freeze in the system, serious damage to the plumbing and pump may occur. Failures of this type will void the warranty. The best guarantee against damage is to completely drain the pump and follow these steps:

1. Drain the water tank. If the tank doesn't have a drain valve, open all faucets, allowing the pump to operate until the tank is empty.
2. Open all the faucets (including the lowest valve or drain in the plumbing), allow the pump to purge the water from the plumbing, and then turn the pump OFF.
3. Using a pan to catch the remaining water, remove the plumbing at the pump's inlet/outlet ports. Turn the pump ON, allowing it to operate until the water is expelled. Turn OFF power to the pump once the plumbing is emptied. Do not reconnect the pump plumbing. Make a note at the tank filler as a reminder: "Plumbing is disconnected."
4. All faucets must be left open to prevent any damage.
5. Potable anti-freeze may be poured down drains and toilets to protect P-traps and toilet seals. Sanitize the plumbing system before putting the system back in service.

PUMP WITH ADJUSTABLE PRESSURE SWITCH "OPERATION"

Restrictions in a plumbing system can cause the pump to cycle rapidly (ON/OFF within 2 seconds) during low flow demands. Rapid cycling should be minimised to prevent pulsating flow and to maximise pump life. To determine if adjustment is necessary, turn on the tap to a lower-than-average flow. The pump should cycle, but its "OFF time" must be at least 2 seconds. If the cycling is correct, leave it as is. If the pump cycles too rapidly, increase the setting by turning the screw clockwise (1/2 turn to full turn) until the pump operates for 1 second with at least 2 seconds "OFF time." If cycling cannot be minimised, consider removing plumbing restrictions or installing a SHURFLO accumulator.

PUMP WITH ADJUSTABLE BYPASS & ADJUSTABLE PRESSURE SWITCH "OPERATION"

The pump operates normally up to about 1 bar (15 PSI) by-pass pressure, where a spring-loaded by-pass valve opens, allowing flow back from the output side to the input side. This provides smooth,

steady flow with virtually no cycling, all the way down to a trickle. As a faucet is opened, the pressure will drop, the by-pass will close, and full flow is achieved. This allows good flow, even with today's commonly used restrictive showers and pull-out sprayer faucets.

Performance will vary depending on the voltage to the pump: lower voltage = lower flow, higher voltage = higher flow. Always be cautious and practise electrical safety. It is best to turn off power to the pump when leaving the RV/Caravan unattended.

ABOUT THE BY-PASS

The by-pass is a spring-loaded diaphragm that, when open, allows water from the discharge side to flow back to the inlet side. If the switch or by-pass is adjusted too much, the by-pass and switch shut-off can overlap, and the pump will not shut off. Screwing the switch screw in clockwise will raise the shutoff pressure. Unscrewing the switch screw counter-clockwise will lower the pump shut-off pressure. Screwing the by-pass screw in will raise the pressure at which the by-pass starts and raise the full by-pass pressure. Unscrewing the by-pass screw counter-clockwise will lower the pressure at which the by-pass starts and lower the full by-pass pressure.

WARNING: If full by-pass is reached before the shut-off setting, the pump will not shut off. Full by-pass pressure setting should be at least 0.48 bars (7 PSI) higher than the pump shut-off pressure.

TROUBLESHOOTING

Vibration induced by driving can loosen plumbing, strainers, and pump hardware. Check for loose system components. Also, refer to the chart below for troubleshooting tips.

PUMP WILL NOT START/BLOWS CIRCUIT

- ✓ Check electrical connections, fuse or breaker, main switch, and ground connection.
- ✓ Is the motor hot? The thermal breaker may have triggered and will reset when cool.
- ✓ Is voltage present at the switch? Bypass pressure switch. Does the pump operate?
- ✓ Check the charging system for correct voltage (within 10%) and good ground.
- ✓ Look for an open or grounded circuit, or motor; or improperly sized wire.
- ✓ For a seized or locked diaphragm assembly (water frozen?).

WILL NOT PRIME/SPUTTERS (No discharge/Motor runs)

- ✓ Is the strainer clogged with debris?
- ✓ Is there water in the tank, or has air collected in the hot water heater?
- ✓ Is the inlet tubing/plumbing sucking in air at plumbing connections (vacuum leak)?
- ✓ Is inlet/outlet plumbing severely restricted or kinked? Restrictive valves?
- ✓ Proper voltage with the pump operating (within 10%).
- ✓ Check for debris in pump inlet/outlet valves or swollen/dry valves.
- ✓ Inspect the pump housing for cracks or loose drive assembly screws.

RAPID CYCLING

- ✓ Check for restrictive plumbing and flow restrictions in faucets/shower heads.
- ✓ The water filter/purifier should be on a separate feed line.
- ✓ The shut-off pressure may be set too low.

PUMP WILL NOT SHUT-OFF / RUNS WHEN NOZZLE IS

CLOSED

- ✓ Check for leaks in the output side (pressure) plumbing, and inspect for leaky valves or toilet.
- ✓ Check for air trapped in the outlet side (water heater) or pump head.
- ✓ Ensure correct voltage to the pump (within 10%).
- ✓ Inspect for loose drive assembly or pump head screws.
- ✓ Are the valves held open by debris or is the rubber swollen?
- ✓ Check the pressure switch operation. Ensure the by-pass is set higher than the shut-off.

NOISY OR ROUGH OPERATION

- ✓ Check plumbing for loose components.
- ✓ Inspect for a restricted inlet (clogged strainer, kinked hose, or restrictive valves).
- ✓ Check if the pump is plumbed with rigid pipe, which may cause noise to transmit.
- ✓ Is the mounting surface amplifying noise (flexible mounting)? Does it "bang" like a drum?
- ✓ Check mounting feet for looseness or excessive tightness.
- ✓ Look for air in the system. Check all fixtures for air and bleed the system.
- ✓ Remove the motor from the pump head. Is the noise from the motor or pump head?

LEAKS FROM PUMP HEAD OR SWITCH

- ✓ Check for loose screws at the switch or pump head.
- ✓ The switch diaphragm may be ruptured or pinched.
- ✓ Look for a punctured diaphragm if water is leaking.

BLACK SULLAGE WASTE HOSE

Reliable and affordable, COAST RV Black Sullage Waste Hoses deliver efficient grey wastewater drainage for caravans. Crafted with UV-stabilised PVC, they feature smooth inner linings to prevent clogs and flexible ribbed exteriors for durability and easy installation. Available in various sizes and lengths, these hoses offer top-tier performance at competitive prices.

Engineered to outlast and outperform, their smooth inner design ensures quick drainage, while the corrugated exterior maintains shape around tight corners for hassle-free positioning. Choose COAST RV Black Sullage Waste Hoses for a dependable, durable, and cost-effective solution to grey wastewater management.

FEATURES:

- ✓ **Precision Fit and Function:**
Each hose is tested with a tolerance guarantee of $\pm 0.2\text{mm}$, providing you with extra assurance of quality and performance.
- ✓ **Smooth Inner Lining:**
Prevents clogging and ensures efficient drainage of wastewater, making it ideal for greywater disposal.
- ✓ **Durable Construction:**
Made with reinforced, UV-stabilised PVC to reduce the risk of holes and leaks, ensuring longevity even under harsh conditions.
- ✓ **Flexible and Robust:**
The ribbed outer surface aids in flexibility, allowing for tight bending without kinking or crushing.

WATER TANK 43L MODULAR STANDARD 860 X 260 X 220MM

This new moulded modular caravan and RV water tank will change the way you use water tanks. This one tank can be configured in many ways to provide a single low cost solution.

The BR Plastics tank is blow moulded from food contact approved High Molecular Weight High Density Polyethylene. This makes the tank a super tough performer. The tank is moulded with two integral 20mm (3/4 BSP) threaded closures that can accept a wide variety of standard fixtures and fittings. Using these standard fitting the tank can be networked together to provide almost limitless water storage options for your vehicle.

800-01591

FIAMMA WATER TANK 70

Large water tank, it can be installed vertically or horizontally, it is complete with all the fittings.

SPECIFICATIONS

Dimensions: 470 x 710 x 240 mm

- ✓ Non-flammable, non-aging, high tensile strength, and resistant to bending and vibration.
- ✓ Suitable for Natural Gas and LPG

WATERMARK PLUMBING FITTINGS

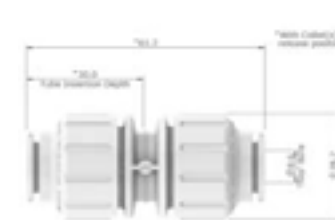

JOHN GUEST WATERMARK FITTINGS

The John Guest Speedfit RV Range has been specifically designed to meet Australian Standards and to be WaterMark compliant. The benefits of this range are its increased maximum working temperature and pressure. JG Speedfit tube fittings are warranted to achieve 80°C at 1000 kPa.

Push-fit plastic fitting for the connection of plastic and copper pipe. Designed, manufactured and assembled in the UK by John Guest Speedfit. Simply push the fitting fully onto the pipe and twist the plastic nut clockwise to lock in place. Should the need arise to demount the connection unlock the nut and push the collet towards the body of the fitting and pull the pipe to release. The fitting ensures an easier working environment in confined places and removes the need for hot works on site. Installation can be reduced by around 40% against traditional fixing methods.

PLUMBING FITTINGS

POLY CAMLOCK CONNECTOR

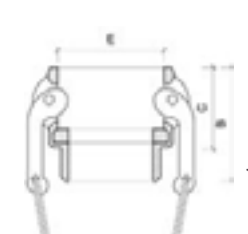

Poly camlock fittings, also known as cam and groove couplings, provide quick, tool-free connections for RV and caravan fluid systems. Made from durable, glass reinforced polypropylene, they offer excellent chemical resistance and prevent leaks with their secure adaptor-coupler design. Ideal for waste sullage and fluid transfers, they save time and effort during maintenance tasks. Upgrade your RV or caravan fluid systems with our reliable and efficient poly camlock fittings.

800-04030 TASTE PURE (WATER FRESHENER)

Eliminate algae and slime buildup from drinking water tanks. Just 28 grams helps remove bad smells and taste from 75L of water (473ml Bottle)

800-04120 TANK CLEANSE PRO

Tank Cleanse Pro is a powerful cleaner, destainer and sanitiser for caravan, motorhome and boat water tanks. Its concentrated formula removes algae, mould and bacteria to eliminate water taint and improve taste. Treats up to 200L.

800-04100 NATURAL WATER CHLORINE DIOXIDE TABLETS 8 X 4 GRAMS

Regular treatment of water tanks in caravans and campers is essential to prevent harmful microorganisms, biofilm build-up, and unpleasant tastes or odours. Prolonged inactivity increases the risk, impacting water safety and system performance.

CleanOxide® (Chlorine Dioxide) is the most

effective solution for cleaning tanks, ensuring safe, great-tasting water and maintaining flow-rate and system longevity.

FEATURES

- ✓ Prevents contamination and biofilm build up
- ✓ Improves taste and removes odours
- ✓ Protects water systems during long inactivity
- ✓ Maintains flow rate and extends system life

CAMPER SHOWER POINT

CAMPER SHOWER POINT

Coast RV Camper Shower Point is the ultimate outdoor shower solution for your caravan or RV. Compact and easy to install, this shower point offers convenient access to hot and cold water with the twist of a handle. Designed with user-friendly features, it integrates the tap handle directly into the hose, allowing you to easily control water temperature by simply inserting and turning the shower assembly.

This improved model comes with 12mm JG-sized barbs for quick connection, streamlining the setup process compared to other models that require multiple adapters. Additionally, we've used stainless screws and fittings where needed, ensuring long-lasting durability even in harsh outdoor conditions.

Perfect for washing off after a day at the beach or a muddy adventure, it's an essential upgrade for outdoor enthusiasts. The compact design ensures minimal space usage, while the sturdy build guarantees years of reliable use. Enjoy the convenience of an outdoor shower wherever your travels take you.

FIAMMA BI-POTS

These Italian Bi-Pots are a simple, and strong, self-contained fresh water flushing portable toilet. They can be dismantled (valve inclusive) to facilitate a thorough cleaning and emptying is easy and hygienic thanks to the large discharge openings. Stainless steel side hooks securely lock the top tank to the waste tank ensuring no movement whilst in use. The waste tank is made of a one-piece moulding which means no nasty leaks and the release valve is watertight too with a handy anti-odour seal.

Semi-transparent lids (on the waste outlet and the top tank inlet) help to keep track of each tank's internal level so you know when to empty or top up. Both tanks are scratch resistant.

THETFORD PORTA POTTIS

THETFORD PORTA POTTIS

Made from a light but tough plastic, these Porta Pottis are hermetically sealed, meaning the seals are completely airtight, ensuring no unpleasant smells can escape. Cleaning is easy with detachable toilet seats, while the compact design makes it ideal for travel. Available in five sizes, the range features lid clips that keep the lid down when not in use. It also includes a vent button for 'no splash' emptying and a holding tank indicator to show when it's time to empty.

The portable, durable construction ensures reliability in camping, caravans, or boats. Built with high-quality materials, it withstands harsh conditions for long-lasting performance. Its ergonomic design offers comfort and convenience, and it comes with a limited 3-year warranty.

850-01069

THETFORD BATHROOM CLEAN SPRAY - REFORMULATED

The improved version of Thetford Bathroom Cleaner is a powerful spray for daily maintenance of your bathroom.

It effectively removes limescale and soap scum, resulting in a clean and brilliant shiny surface. Bathroom Cleaner is an essential part of your daily cleaning routine. It is safe to use for all plastic surfaces in the bathroom of your motorhome or caravan, including the shower, toilet exterior and sink.

Aqua Kem Blue is a powerful and easy to use additive for waste holding tanks. It has a pine scent and can be used in Cassette Toilets as well as Porta Pottis. Its formula is derived not only to suppress unpleasant smells and reduce gas build-up, but also to break down solids and toilet tissue. To use, simply pour 150ml into a 20Lt waste tank. Add 2-3Lt of water to ensure optimum performance. Thetford recommends refreshing every 4-5 days.

850-01028

AQUA KEM BLUE (2L)

850-01063

THETFORD TWUSCH FOR C2/3/4, C200, C220 & C400

The Twusch is a custom-designed porcelain inlay that upgrades the bowl of Thetford cassette toilets across multiple series, including C2/C3/C4, C200, C220 and C400. Unlike standard plastic bowls, the Twusch offers a smooth, scratch-resistant ceramic surface that's easier to clean and more resistant to odours and staining. Its nano-sealed finish helps reduce water usage and supports better hygiene over time.

Installation is straightforward and compatible with existing seat and lid assemblies, making it a practical DIY improvement for caravans, motorhomes, and RVs. Manufactured in Netherlands, the Twusch combines durability with a home-like feel—ideal for travellers who want a cleaner, longer-lasting toilet experience.

CASSETTE (ONLY) TO SUIT THETFORD C250 AND C263

The set includes an easy to fit waste holding tank plus a new seat and cover. It suits C250 and C260 cassette toilets, offering a practical upgrade. The redesigned tank is larger and more durable for better performance, and the seat and cover clean easily for improved hygiene. The Thetford Fresh Up Set provides a straightforward refresh for your RV toilet.

850-92124

THETFORD CASSETTE TOILET SEAT RAISER C200

The Thetford C200 seat raiser provides a simple way to improve comfort and accessibility for elderly users, taller individuals or anyone with limited mobility. It lifts the seat height by about 7 cm, making sitting and standing easier. The raiser matches the colour and quality of the original toilet and integrates neatly with all C200 models. Installation is straightforward, and the seat and cover attach directly to the raiser for a clean, cohesive finish.

THETFORD FRESH-UP SETS

The Toilet Fresh-Up Set is a simple and economical way to make a used Cassette Toilet as good as new.

The set includes a waste holding tank with a toilet seat and cover to freshen up the toilet, and you only pay for the waste-holding tank. It's available for Cassette Toilets C2/C3/C4*, C200, C400*, and C250. Need an additional waste-holding tank for longer trips? The Toilet Fresh-Up Set is also a perfect solution.

Compatible with both left and right models, it's an easy upgrade to ensure your toilet stays in top condition for any adventure.

TOILET ACCESSORIES

850-02820

CAMCO RHINO HOLDING TANK CLEANER 6 PER BAG

A powerful enzyme cleans holding tanks and removes waste from tank walls in under 24 hours.

Flush one pre-measured drop-in per 150L, fill 3/4 with water, and let it work its magic. Regular use keeps sensors efficient and odours at bay, ensuring a clean, odor-free experience. The septic-safe drop-ins dissolve quickly and are hassle-free to use. For best results, use one every three months to maintain a fresh and clean holding tank.

- ✓ RV and marine approved
- ✓ Safe for all tanks
- ✓ New lavender scent,
- ✓ 1.89L bottle
- ✓ Environmentally friendly
- ✓ Easy to use

850-02840

FRESH SCENT LIQUID 1.89L

ODOUR B GONE DEODORISERS

Odour-B-Gone is a tablet form of compressed per-oxy salts; it contains no fillers i.e. it is made of 100% active ingredients. The tablets slowly dissolve in the holding/waste tank of the portable toilet over a 7 day period, releasing hydrogen peroxide which is known for effective bleaching, deodorising and sanitising.

850-04052

**ODOUR B GONE RV TOILET DISK
40PK**

ODOUR B GONE PLUS - RV TOILET TABLETS

CASSETTE TOILETS : Simply drop 1 x 8 gram Blue tablet into the bottom cassette with half cup water, lasting up to 4 Days usage. The tablet will break down the matter including the paper very quickly. Mini oxygen tabs for use in a spray bottle.

The 2 gram Mini Tab (green) is used in a spray bottle, simply drop into a 400 mil bottle with cup hot water & top up with cold water, give it a shake and is ready for use. You do not have to wait till the mini tab fully dissolves. We use the spray bottle for the bowl & seat, which only takes seconds & in the heat perhaps spray the bowl 3 times a day. By spraying it is killing the bad bacteria & any odour, it is good to open the slide when spraying to allow entry into the bottom cassette. (You do not have to wait for the Mini Tab to fully dissolve, just use it!)

Use any toilet paper & if it is not breaking down use more flushing water.

850-04058

**ODOUR B GONE SLOW RELEASE MINI
OXYGEN DISINFECTANT TABLETS
GREEN 2G 10 PK**

Drop 1 x 8g Blue tablet into the cassette with water for up to 4 days of usage. Breaks down waste and paper quickly. Available in 50 x 8g and 25 x 8g pouches, plus 10 x 2g Mini Oxygen Tabs. Use the 2g Mini Tab (green) in a spray bottle with hot water, shake, and spray to eliminate bacteria and odours.

850-04062

SPHERE COMPACT 12V OMNIDIRECTIONAL WHITE ANTENNA KIT

900-00602

SPHERE COMPACT 12V OMNIDIRECTIONAL BLACK ANTENNA KIT

SPECIFICATIONS

Height: 237.5 mm
Voltage: 12V DC
Frequency Bands: VHF / UHF
Amplification: 20 dB
Impedance: 75 Ohm
Radiation Pattern: Omnidirectional
Polarisation: Horizontal and vertical (UHF only)
Cable: RG-6, 5 m included
Connector: IEC (M)

FEATURES

- ✓ Space-saving 237.5mm height – perfect for compact RV roofs
- ✓ Omnidirectional signal pickup – UHF horizontal and vertical reception, no retuning needed
- ✓ Amplified 20dB gain – strong VHF and UHF reception anywhere in Australia
- ✓ Simple 12V DC connection – plugs straight into your RV power system
- ✓ Secure roof mount – gasket and screws included
- ✓ Rugged black housing – built for weather resistance and durability
- ✓ Interior connection plate – 12V DC outlet with F-type TV plug

WINEGARD AIR 360 OMNIDIRECTIONAL TV ANTENNA

- 360° Reception (Horizontal Polarisation)
- No Aiming Required
- Easy Installation
- Durable & Weather-Resistant
- Compact & Low-Profile Options

Sleek. Durable. Powerful.

Transform your RV entertainment with the WINEGARD AIR 360, a powerful omnidirectional antenna built for superior performance. With a range of up to 90 km, it effortlessly captures HDTV, FM, and AM radio signals, ensuring reliable reception even in remote locations.

Designed for travellers who value staying connected, the AIR 360 features a durable, low-profile dome that blends seamlessly with your RV's exterior. Its omnidirectional design eliminates the need for constant adjustments, providing a hassle-free experience on the road.

For those who want comprehensive entertainment options, the AIR 360 offers UHF, VHF, and radio reception, making it a top choice for all your TV and radio needs.

WINEGARD AIR 360 OMNIDIRECTIONAL TV ANTENNA WITH AM/FM

Transform your RV entertainment with the WINEGARD AIR 360, a powerful omnidirectional antenna designed for superior performance. With a range of up to 90 km, this antenna captures HDTV, FM, and AM radio signals effortlessly, ensuring reliable reception even in more remote locations.

Perfect for those who prioritise staying connected on the road, the AIR 360 combines durable construction with user-friendly operation. Its omnidirectional design eliminates the need for constant adjustments, while the sleek black dome blends seamlessly with your RV's exterior.

Although slightly larger in size, the AIR 360 offers unmatched versatility by including AM reception alongside UHF and VHF signals, making it a top choice for travellers who value comprehensive entertainment options.

 Weight: 3.13kg

900-00060
WINEGARD FREEVISION SENSAR HV ANTENNA SINGLE BOX

An innovative antenna designed to receive both horizontal and vertical digital signals for improved channel coverage. Features dual amplified antennas for strong VHF and UHF reception, supporting analogue, standard and HD signals. Made in the USA, it suits roof thicknesses from 2.5 to 12 cm. OEM pack includes four kits with crank up lift assemblies, cabling and mounting hardware. C-Tick certified with a 1 year limited warranty.

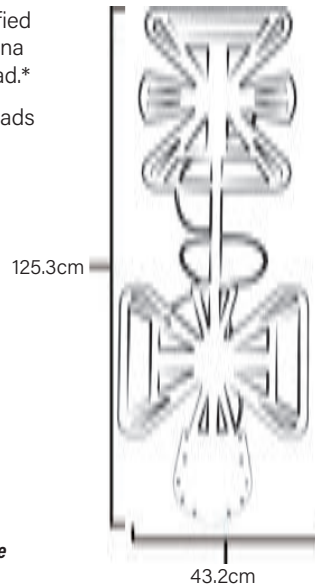

900-00062
WINEGARD H/V ANTENNA AFTERMARKET BLACK SINGLE BOX

900-00070**WINEGARD SENSAR HV ANTENNA RETROFIT KIT WITH HEAD AND MAST**

This allows you to replace the amplified head on an existing Winegard antenna with the Sensor HV bidirectional head.*

It can also be used to replace the heads on Antennatek antennas as the old elevating gear can be used.

* Please check the roof clearance prior to purchasing the Sensor HV Retrofit Kit (refer to diagram, showing minimum roof top space required)

900-00072**WINEGARD H V ANTENNA RETROFIT KIT WITH HEAD AND MAST BLACK**

The HV platform delivers bidirectional VHF and UHF reception with dual amplifiers for improved channel access in fringe areas. It supports analogue, standard and HD digital broadcasts, with a black mast that complements modern RV roofs.

**900-00360****WINEGARD WHITE 12V POWER SUPPLY FOR TV ANTENNA**

A replacement part for a standard Winegard kit

**900-00364****WINEGARD WHITE 2ND TV WALL PLATE ONLY**

Compact TV outlet with 75 ohm coax input and output, plus a 12V DC socket for easy surface mounting.

**WINEGARD RVH 3095 SENSAR RV TV ANTENNA WITH POWER SUPPLY****900-00010****RV-3095 ANTENNA**

Built-in amplified antenna for clear VHF and UHF reception. Bidirectional, corrosion resistant and digital ready.

**900-00410****WINEGARD WINGMAN**

This lightweight attachment (suitable for Winegard antennae only) attaches to the Sensor head and increases the digital UHF reception by up to 100%. Available in white, it acts as a digital booster. There are no wires to connect and no tools required for installation. The Wingman allows you to improve your Winegard Sensor's performance, enabling you to enjoy more free-to-air HD channels as it is optimised for digital and HD programming. The elements are powder coated to protect against the elements and rust.

Note: The Wingman helps with UHF channels only and must be installed facing forward.

SPECIFICATIONS

Dimensions: 419.1W x 355.6D x 35.6H (mm)
Weight: 0.45kg

900-00422**RD 55" COAX ASSEMBLY FOR THE H/V ANTENNA****900-00392****WINEGARD 4 CABLE ENTRY PLATE****900-00394****WINEGARD 2 CABLE ENTRY PLATE**

Weatherproof entry for multiconductor cable, to be used with dual coax systems.

**900-00400****WINEGARD DIRECTIONAL HANDLE EXTENSION**

Used to extend the directional handle on leisure vehicles with a thicker roof. Roof thickness in excess of 4.75" (120.65mm) and up to 7" (177.8mm) would require an extension.

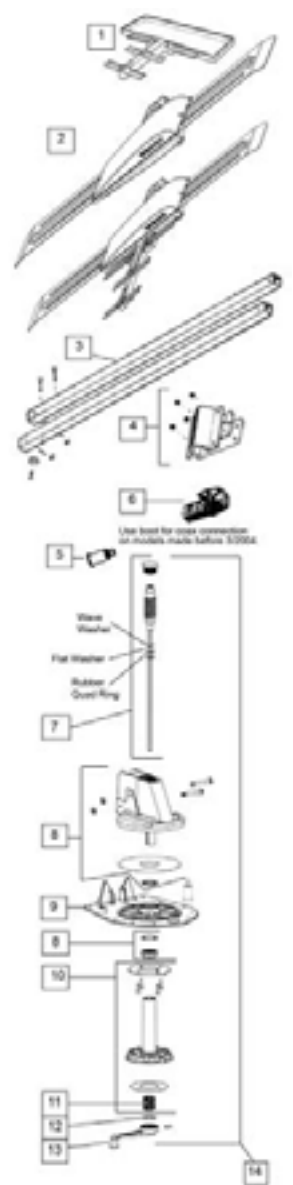

(The handle and extension should be glued together after checking that you have the correct handle. The handle will not work properly if it is not glued together.)

FUSION MS-NRX300 FULL FUNCTION WIRED REMOTE TO SUIT 700 SERIES & MS-RA205

The MS-NRX300 NMEA 2000 Certified Wired Remote Control is an out of the box solution for adding localized control of a compatible FUSION marine entertainment system to any RV.

The MS-NRX300 features a sleek new innovation: the glass helm flush mounting option. You can now choose either a flush mount for a stunning glass helm finish, or you can easily install with the conventional dash mount finish.

Either way, the feature packed MS-NRX300 will give you everything you want from a wired remote and more.

Multi-Zone Technology

Install a remote in each independent audio zone, up to four zones depending on your FUSION entertainment system, to create localised volume control, as well as global source control. Now you have even more control in creating a customised audio entertainment experience around your vehicle.

IPx7 Waterproof

Perfect for installation inside the camper/RV, the MS-NRX300 is designed and engineered for the outdoor environment.

Optically Bonded 2.6" LCD Display

The MS-NRX300 sports a large, high contrast, daylight viewable display making it easy to navigate and stay in control of your audio entertainment experience.

SUBURBAN HEATER ACCESSORIES

950-01140

SUBURBAN ANODE ROD FOR ALL SUBURBAN HWS

Suburban HWS units have a sacrificial anode rod at the bottom (under the main burner) to absorb hot water corrosion. To drain the tank, unscrew it. If the rod is significantly worn, replace it with a Suburban anode rod suitable for 4, 5, and 6-gallon tanks.

**Did you know?**

There are many anode rods on the market. Cheaper imitations may not always be the best fit for a Suburban HWS. Not only are some imitations the incorrect length, you also need to be wary of the thread type (at the head of the rod). The Suburban range of HWS's are made in the USA and they use the NPT style thread for the anode.

Most other parts of the world use a BSP style thread. If a BSP threaded anode rod is fitted into a Suburban HWS it will damage the pitch on the internal thread and cause future leaks. Coast always recommends using a Suburban anode rod in a Suburban HWS.

950-01148

PREMIUM MAGNESIUM ANODE ROD TO SUIT SUBURBAN TANK HWS - SKIN PACK

The Premium Magnesium Anode Rod is made for use in the 4, 5 & 6 Gallon tanks and feature a 304 stainless steel core for increased durability.

SUBURBAN EXTERIOR DOORS

Suburban exterior doors stand up to the elements and frequent use, with corrosion-resistant steel finished in a tough, high-solids baked enamel for extra chip resistance. Coast to Coast stock the standard doors which are installed without bending flanges or installing corner gussets for easy installation and a superior seal.

SUBURBAN HOT WATER HEATER FAQs

Are all Suburban Water Heaters equipped with an Anode Rod? What is its function? When should it be changed?

YES – all Suburban water heaters feature an anode rod. The anode equalizes aggressive water action, providing cathodic protection for the tank. It is a very important factor in tank life and should only be removed for inspection, draining or replacement. It is removable using a 1-1/16" thin wall socket. Under normal use, the anode rod will deteriorate. Because of this, we recommend it be replaced bi-annually or when consumption or weight loss of the rod is greater than 75%.

Note: Water with high levels of iron &/or sulphate will increase the rate of deterioration. To extend anode life, drain water from tank whenever the RV is not being used. Avoid any extended time of non-use with water in the tank.

Why does water drip from my water heater's pressure and temperature (P&T) relief valve?

You may experience water weeping or dripping from your water heater's pressure and temperature (P&T) relief valve when your water heater is operating. Water weeping or dripping does not mean that the P&T valve is defective. As water is heated, it expands. The water system in an RV is a closed system and does not allow for the expansion of heated water. When the pressure of the water system exceeds the relieving point of the P&T valve, the valve will relieve the excess pressure.

Can I add-on an electric element to a PA/DA Model (GAS ONLY Unit)? What will happen if I use it?

NO – the use of these aftermarket heating element devices may result in damage to components or the water heater. When aftermarket heating elements are inserted into the anode rod/drain connection, tank life is shortened by accelerating inner tank corrosion. This will be a non-warrantable situation. An upgrade is required to a GAS/ ELECTRIC model, for this application.

What if I operate the water heater without water in the tank?

Operation without water in the tank on the 12V DC gas portion of the water heater can cause the copolymer insulation jacket to melt and can cause the ECO/ Thermostat to trip. Operation without water in the tank on the 230V AC electric portion of the water heater will damage the element.

There is a bad odour coming from the hot water faucet. How can I correct this?

Odour from the hot water system is not a service problem and many water supplies contain sufficient amounts of sulphur to produce an odour. The odour is similar to rotten eggs and is often referred to as "sulphur water". Sulphur water is not harmful—only unpleasant to smell. Sulphur water can be caused by a chemical action or by bacteria. The key to eliminating this smell is heavy chlorination of the water system. Add about 177 mL. of chlorine (common household liquid bleach) to each 10 gallons in the water tank. Then run the heavily chlorinated water throughout the system, opening each faucet one at a time until you smell the chlorine. Let the RV sit a few days and the chlorine should take care of the problem. Then you will need to remove the chlorine by flushing the water system. If you don't have a water filtration system that removes chlorine, you may have a problem getting rid of the chlorine taste. You might consider adding such a system because it allows you to keep water chlorinated and this prevents several problems, including sulphur water. Chlorination also takes care of other types of bacteria and viruses.

How do I drain my water heater?

Follow the steps below:

1. Turn off electrical power to the water heater either at the switch

from the electric element or a breaker.

2. Shut off the gas supply to the water heater.
3. Turn off the pressure pump on the water system.
4. Open both hot and cold water faucets.
5. Remove the anode rod from the tank. (NOTE: TAKE CARE as water may be HOT when drained from the unit).
6. Follow the RV manufacturer's instructions for draining the entire water system.

950-02700

CAMCO SCREW-IN ELEMENT WRENCH 5" FOR SUBURBAN HWS

This zinc-plated element wrench goes where other wrenches can't, allowing you to remove and replace screw-in elements with ease. It works in conjunction with your screwdriver and fits all 5" regular screw-in elements and 1-1/2" nuts.

950-02710

CAMCO T & P UNIVERSAL VALVE REMOVER

Replace temperature and pressure valves faster and more safely. The Valve Remover gives you better access to the water heater housing, reducing injuries. Fits Atwood and Suburban (Mor-Flo) water heaters

950-02720

CAMCO HWS TANK RINSER

Cleans the sediment that collects at the bottom of your water heater and flushes it out. Note, please use 800-01992 to connect the Tank Rinsers to your garden hose.

950-02730

TUBE SPANNER 1 1/16" X 1 1/2" 250MM OVERALL LENGTH FOR SUBURBAN HWS

This two in one tool will work with Genuine Suburban Anodes and Heat Elements.

ST60A Tankless Hot Water System

Delivers up to a powerful 6.4L flow rate with a rapid 35°C of temperature rise!

The Suburban **ST60A Tankless Hot Water System** is a powerful and efficient solution for your caravan or RV, offering endless hot water on demand. Designed to simplify your adventures, this 60,000 BTU water heater provides exceptional performance without the limitations of traditional tank systems.

Endless Hot Water, Less Gas Consumption

The ST60A heats water instantaneously as it flows through the burner chamber, ensuring you only use energy when needed. Unlike tank systems that cycle continuously, this design minimises gas usage while delivering a consistent hot water supply. Whether you're enjoying longer showers or accommodating back-to-back use, you'll never run out of hot water.

SUBURBAN HOT WATER SYSTEM

SUBURBAN ST60 TANKLESS HOT WATER SYSTEM

The Suburban ST60 Tankless Hot Water System is a powerful and efficient solution for your caravan or RV, offering endless hot water on demand. Designed to simplify your adventures, this 60,000 BTU water heater provides exceptional performance without the limitations of traditional tank systems.

950-03010

SUBURBAN ST60 TANKLESS HOT WATER SYSTEM

Engineered with advanced safety systems, the ST60 ensures worry-free operation:

FEATURES

- ✓ Flame Out Protection: Automatically shuts off gas if propane pressure drops or a burner issue arises.
- ✓ Scald Protection: Prevents overheating with an internal high-temperature kill switch.
- ✓ Automatic Fan Monitoring: Halts gas flow if airflow or combustion air supply is interrupted.
- ✓ Active Freeze Protection: Activates in cold conditions, keeping the system functional with power and propane available.
- ✓ Pressure Release Safety Valve: Releases excess water pressure generated during heating.
- ✓ Voltage Protection: Protects the unit from damage caused by low, high, or overcurrent voltage.

SPECIFICATIONS

Specifications

Max. / Nominal Heat Input: 64 MJ/hr

NAUTILUS IW60A ON DEMAND WATER HEATER

Enjoy endless hot water with Suburban's NAUTILUS On Demand RV Water Heater. Say "goodbye" to waiting for water to reheat in a conventional tank. Showers and baths are best enjoyed slowly, so live free from the restraints of limited hot water supplies. Dishes and even the laundry can be done with an infinite supply of hot water whenever and wherever, simultaneously from every fixture.

With no storage tank to heat water, the NAUTILUS On Demand RV Water Heater reduces weight and increases efficiency by only operating when the need for hot water arises. The NAUTILUS On Demand RV Water Heater uses an exclusive 60,000 BTU 2-Stage Modulating Combustion System (MCS) which instantaneously adjusts the LP gas input to provide consistent and endless comfort regardless of your hot water needs.

950-03000
SUBURBAN'S NAUTILUS ON DEMAND WATER HEATER

Developed with INDUSTRY-BEST:

- ✓ Exclusive 60,000 BTU Two-Stage Self Modulating Combustion System
- ✓ Built-In Freeze Protection
- ✓ Only 16.3kg Installed
- ✓ Two-Year Limited Warranty

The EXCLUSIVE 2-Stage Modulating Combustion System (MCS) Monitors:

- ✓ Inlet water temperature
- ✓ Inlet water flow
- ✓ Output water temperature
- ✓ Combustion air fan speed
- ✓ Heat exchanger & burner operation

SUBURBAN NAUTILUS CONTROL CENTRE

The On Demand Control Center provides precise temperature control, reliable and consistent comfort from the convenience of your RV.

Installation Configuration Examples

The NAUTILUS On Demand RV Water Heater from Suburban is a truly adaptable platform that offers a variety of installation options to suit your needs. The configuration examples below demonstrate the NAUTILUS system's industry leading versatility.

Example Configuration 1

The minimum specification install of the Nautilus system required only the system itself and a single vent to suit your vehicles wall thickness.

Please note that the unit should be installed as close to wall as possible.

↑ 950-03000

Example Configuration 2

The maximum specification install of the Nautilus system requires the system itself, the Nautilus Control Centre (available in black or white), a single vent to suit your vehicles wall thickness and a single access door.
