Made for Life on the Road

Engineered for Australia’s toughest touring conditions, Sphere delivers smart, dependable technology built to keep you powered, connected and comfortable, wherever the road takes you.

With compact appliances, robust off-grid systems and high-performance audio visual gear, Sphere offers a complete solution designed to meet the demands of modern RV life. Every product reflects our commitment to innovation, efficiency and durability on the move.

Trusted by leading manufacturers and travellers across the country, Sphere is setting the new standard in off-grid living.

Why Choose Sphere?

- ✓ **Purpose-Built for RV Life:** Designed for space, movement and mobile power
- ✓ **Reliable Performance:** Tested to endure off-road travel and harsh environments
- ✓ **Smart Design:** Sleek, space-saving and easy to use
- ✓ **Complete Range:** One trusted brand for energy, entertainment and everyday comfort

Confidence on the road starts with Sphere.

Sphere Upright DC Compressor Fridges

Reliable Cooling for Life on the Move

Whether you're heading off-grid or hitting the road in your caravan or motorhome, Sphere's Upright DC Compressor Fridges are built to perform in even the most demanding environments. From compact models to spacious units, each fridge offers dependable cooling, energy efficiency and rugged construction designed for Aussie adventures.

Powered by efficient LG or Cubigel DC compressors and engineered with travel in mind, these fridges combine practical design with innovative features, including quiet operation ($\leq 45\text{dB}$)*, shockproof durability, and smart interior storage.

Whether you need a compact upright for flexible layouts or a larger model for extended trips, there's a Sphere fridge to suit your journey.

**Noise level applies to models fitted with LG UCF44 & UCF83 compressors. Noise specifications for other models may vary.*

Why Choose a Sphere Fridge?

- ✓ Efficient LG (UCF44 & UCF83) compressors run on 12V/24V, Cubigel DC compressors (UCF175L & UCF270L models) operate on 12V only, both designed for reliable off-grid performance
- ✓ Fridge and freezer flexibility with models offering split compartments or convertible zones
- ✓ Independent temperature control providing precise settings for different climates and food types
- ✓ Energy-saving features including Cold Air Bank technology (UCF175 & UCF270) for lower consumption
- ✓ Smart storage with removable wire shelves, crisper drawer, bottle holder and LED lighting
- ✓ Reversible doors allowing flexible install options for any layout
- ✓ Battery protection with three-stage system on UCF44 & UCF83, and single-stage on UCF175 & UCF270 to protect your vehicle's power

From weekend trips to extended tours, Sphere DC fridges keep your food and drinks reliably cool wherever you go.

SPHERE®
UCF 44 Upright DC Compressor Fridge
Compact, Versatile, and Built for the Road

SPHERE REFRIGERATION RANGE

Ideal for compact campervans, weekend setups and solo getaways, this 44L upright fridge is made for travellers who like to keep things simple and chilled. Whether you're chasing surf, exploring national parks or escaping the city for a few days, it fits easily into tight spaces without compromising on performance.

Tough enough for off-road tracks and efficient enough for off-grid living, it's the reliable fridge you can count on for fresh food, cold drinks and more freedom wherever the road takes you.

Independently tested to use just 2.7 amps per hour over 24 hours in 32°C conditions, once temperature is stabilised.

**DOOR OPENING
LEFT OR RIGHT**

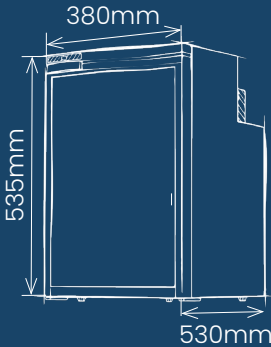

The door is reversible prior to installation to accommodate your preferred layout.

**SPHERE UCF44 STANDARD
MOUNTING FRAME ONLY**
Gives your fridge a clean, finished look by covering raw cabinet edges.

Code: 700-22115 **SOLD SEPARATELY**

*Dimensions include feet, rear drain spout (12 mm), and front handle protrusion (19.5 mm). Tolerance ±2 mm.

SPHERE®
UCF 83 Upright DC Compressor Fridge
Compact Cooling with Big Performance

Compact on space but big on capability, this 83L fridge is built for real-world adventures. With room for fresh ingredients, drinks and a few frozen extras, it's perfect for road trips that stretch beyond the weekend. It tucks neatly into camper trailers and pop-top setups, delivering quiet, efficient cooling without the bulk.

Whether you're waking up by the water or chasing sunsets inland, this fridge keeps you well stocked for whatever the journey brings.

Independently tested to use just 2.7 amps per hour over a 24-hour cycle in 32°C conditions, once stabilised.

UCF 175 Upright DC Compressor Fridge

Compact, Efficient, Built for Adventure

Built to support longer journeys and greater independence, the 175L Sphere Upright DC Fridge brings reliable cooling to full sized vans and motorhomes. With a patented Cold Air Bank that improves efficiency, and separate temperature controls for the fridge and freezer, it's made for serious time off-grid.

Its clean, integrated look suits most cabinetry, while the rugged build handles rough roads with ease. Inside, thoughtful touches like an LED light, crisper drawer and bottle holder make daily use simple, even hundreds of kilometres from the nearest shop.

Independently tested to use just 3.33 amps per hour over a 24 hour cycle in 32°C conditions, once stabilised.

DOOR OPENING LEFT OR RIGHT

The door is reversible prior to installation to accommodate your preferred layout.

Key Features:

- ✓ Cold Air Bank: Extends compressor cycle and cuts energy use
- ✓ Dual Temp Control: Separate fridge and freezer settings
- ✓ Clean Fit: Reversible door, no mounting frame needed
- ✓ Cooling Range: Fridge 0°C–10°C, freezer < -14°C
- ✓ Tough Build: Shockproof for off-road use
- ✓ Smart Features: LED light, drain plug, shelves, crisper, bottle holder
- ✓ Energy efficient: average 3.33A/hr in 32°C ambient testing
- ✓ Quiet Mode: Reduced noise for night use

2 Burner Gas Drop-In Stoves and Lids

Compact Power for Modern RV Kitchens

Cook with ease in a compact space. This two-burner cooktop combines style, durability, and efficiency for RV kitchens. Built with a stainless steel body and black tempered glass lid, it offers durability, style, and extra benchtop space when closed.

Designed for caravans, campers, and RVs, it features flame failure safety and battery-free piezo ignition for simple, dependable performance.

SPHERE COOKTOPS

Smart Travel Tip
Use the lid as a prep surface once the stove has cooled, a great way to save space in compact RV kitchens.

Why It's Great for RV Life
No batteries, no fuss. The compact size, combined with flame failure safety and quick-fit connections, makes it ideal for efficient off-grid cooking

- Key Features**
- ✓ 2 Gas Burners: Small (1.6 MJ/h), Large (4.15 MJ/h)
 - ✓ Flame Failure Cut-Off: Automatically shuts off gas if flame goes out
 - ✓ Push-Button Piezo Ignition: No battery required
 - ✓ Tempered Glass Lid: Adds space and protects burners
 - ✓ Stainless Steel Build: Heat and corrosion resistant
 - ✓ Quick Installation: Clamp clip with 5/8" SAE flare inlet connection

Specifications	
Gas Type	Universal LPG
Pressure	2.75 kPa
Total Gas Consumption	5.75 MJ/h
Ignition	Piezo Electric (no battery)
Dimensions (mm)	480(W) × 370(D) × 50(H)

3 Burner Gas Drop-In Stoves and Lids

Spacious Cooking for Life on the Road

Upgrade your RV kitchen with more cooking space. The three burner design offers flexibility while keeping a clean, modern look. Designed for caravans and RVs, its spacious layout, stainless steel finish and tempered glass lid make it a standout in any mobile kitchen.

With one 1.6 MJ/h burner and two high-output 4.15 MJ/h burners, it's ideal for everything from coffee to family meals. The 12V electronic ignition connects directly to your RV power for fast, reliable startup, while the smooth-turn rotary knobs make flame control easy and precise.

Built from stainless steel and finished with a black glass lid, it's stylish, road-ready and simple to install.

SPHERE COOKTOPS

Key Features

- ✓ Triple Gas Burners: One 1.6 MJ/h burner and Two 4.15 MJ/h burners
- ✓ 12V Electronic Ignition: Connects to RV power for fast startup
- ✓ Tempered Glass Lid: Doubles as extra benchtop space when closed
- ✓ Flame Failure Safety: Auto shut-off if flame goes out
- ✓ Stainless Steel Build: Resists heat and corrosion for long-term use
- ✓ Generous Cooktop Size: Room for multiple pans or prep tasks
- ✓ Easy Installation: Clamp-clip mount with 5/8" SAE flare inlet

Specifications

Specifications	
Gas Type	Universal LPG
Pressure	2.75 kPa
Total Gas Consumption	9.90 MJ/h
Ignition	12V DC Electronic
Dimensions (mm)	560(W) × 440(D) × 58(H)

SPHERE®

Range Hood with Touch Control

Premium Ventilation for Compact RV Kitchens

Cooking in confined spaces often leads to steam, odours and condensation.

By installing a range hood, hot air and smells are extracted much faster than by simply opening a window or door, keeping your RV kitchen fresh and comfortable.

The Sphere Touch Control Range Hood combines a tempered glass front and stainless steel body with dual 12V fans, a built-in clock and LED strip light for everyday convenience. Slim, efficient and easy to install, it delivers powerful ventilation in a compact design made for RV life.

Smart Travel Tip
Use the built-in clock to manage meal times and power use when running off-grid.

Why It's Great for RV Life
Slim, efficient and easy to clean, it delivers powerful ventilation without taking up valuable kitchen space.

- Key Features**
- ✓ Touch control with tempered glass front
 - ✓ Variable speed settings
 - ✓ Dual high-volume 12V fans
 - ✓ Built-in clock and LED strip light
 - ✓ Stainless steel construction
 - ✓ 5-layer aluminium mesh removable filter
 - ✓ Rear or top venting options
 - ✓ Easy installation

Specifications	
Power	12V
Motor Input Power	Max 2 × 16W
Illumination	Max 3W
Total Input Power	35W
Airflow	100 m³/hr
Dimensions (mm)	530(W) × 304(D) × 60(H) mm

SPHERE®
Tempered Glass Face Recessed Range Hood
Efficient Ventilation for Compact Cooking Spaces

Cooking in confined spaces can create unwanted smells, steam, and condensation.

The Sphere Range Hood extracts them quickly, much faster than simply opening a window or door, keeping your RV kitchen fresh and comfortable.

Built with a tempered glass front and zinc steel housing, it combines modern style with durability. The LED strip light provides clear cooktop visibility, while twin motors deliver efficient ventilation without taking up extra space.

Smart Travel Tip
Switch on the range hood when cooking to quickly remove steam and odours, especially handy when windows stay shut in cooler weather.

Why It's Great for RV Life
Its low-profile design, quiet operation, and LED lighting make it the perfect upgrade for any caravan or RV kitchen setup.

- Key Features**
- ✓ Tempered glass front for a sleek, modern look
 - ✓ Durable zinc steel construction
 - ✓ Built-in 1 × 3W LED strip light for clear cooking visibility
 - ✓ Rocker switch control for simple operation
 - ✓ 5-layer black aluminium filter traps grease and odours
 - ✓ Twin motor system for faster, more efficient airflow

SPHERE RANGE HOODS

Motor Power	2 × 16W
Net Weight	4.5kg
Dimensions (mm)	623.6(W) × 252.8(D) × 81(H) mm

TCR-002 Slide Soft Touch Variable Speed Range Hood

Premium Performance in a Compact RV-Friendly Design

Compact and refined, the SPHERE TCR-002 Range Hood delivers powerful airflow with a sleek, modern look.

Its stainless steel SS430 body with black tempered glass suits any RV kitchen, while the touch slide control makes it simple to use.

Weighing just 2.8 kg, it is lightweight and practical for caravanning life. Designed for under-cabinet mounting, it features a digital clock, LED lighting and dual motors for efficient ventilation.

Its compact footprint with a wide grill maximises airflow while saving space, capturing more odours and smoke to keep your cooking area fresh and clean.

SPHERE RANGE HOODS

Smart Travel Tip
Use the digital clock to time meals or power cycles, helping you manage energy use more efficiently when running off battery or inverter power.

Why It's Great for RV Life
Lightweight, compact and designed for under-cabinet mounting, it's a space-saving solution with high airflow and modern features made for mobile kitchens.

- Key Features**
- ✓ 12V DC power for efficient RV installation
 - ✓ Soft-touch slide control with LCD and built-in clock
 - ✓ Black tempered glass and SS430 stainless steel body
 - ✓ Variable fan and light speeds for custom control
 - ✓ Dual 16W motors for strong extraction
 - ✓ Compact footprint with wide grill for maximum airflow
 - ✓ Integrated 1 × 3W LED strip light for cooktop visibility
 - ✓ 5-layer aluminium filter with two-latch system

Specifications	
Power Input	35W
Lighting	1 × 3W LED Lamp Strip
Control Panel	Slide Soft Touch with LCD
Clock	Digital display
Motor Configuration	2 × 16W motors
Airflow	Max 120 m³/hr
Filter	5-layer aluminium with two-latch system
Dimensions (mm)	530(W) × 304(D) × 60(H) mm

SPHERE®
25L Microwave

Easy, Efficient Cooking Wherever You Travel

Black Microwave Frame
Sold Separately

SPHERE MICROWAVES

Designed for small spaces with big needs, the Sphere 25L Microwave combines 900 watts of power with five adjustable levels to handle everything from quick reheats to meals. Its mirrored finish and crisp white interior add a modern touch, while the digital control panel with clock and one-touch express cooking make it easy to use. Defrost by weight or time, enjoy even heating with the dishwasher-safe turntable, and fit it seamlessly into RV kitchens with the optional 25L frame for a polished built-in look.

Smart Travel Tip
Use the express cook button or defrost by weight before setting off. Great for quick prep during travel breaks.

Why It's Great for RV Life
With a flat base, 25L capacity and low profile, it fits neatly into most RV kitchen setups without sacrificing power.

- Key Features**
- ✓ Five power levels with mirrored finish for a modern look
 - ✓ Defrost by weight or time to suit your needs
 - ✓ One-touch Express Cook and digital 12/24hr clock
 - ✓ Child Safety Lock for added security
 - ✓ Glass turntable is dishwasher-safe for easy cleaning
 - ✓ Compact flat-base design for most RV and camper kitchens
 - ✓ Black Powder-coated steel frame for durability
 - ✓ Quick installation with flush mounting
 - ✓ Provides a finished look by hiding raw cabinet edges

Specifications	
Power Output	900W
Power Consumption	1400W, 230V-240V~50Hz
Operation Frequency	2450 MHz
Oven Capacity	25 Litres
Dimensions (mm)	490(W) × 396(D) × 281(H)
Net Weight	13.9kg
Frame Dimensions (mm)	498(W) × 285(H) mm

SOLD SEPARATELY
25L Frame Code: 700-06102

Code: 700-06052

Its compact size fits neatly into tight RV spaces while the rotating turntable ensures even heating for every meal. With functions like Weight/Time Defrost, Multi-Stage Cooking and a Child Safety Lock, it brings the convenience of larger microwaves into a space-saving design, perfect for life on the move.

Make the most of limited power by using the 700W output to heat meals efficiently without overloading your system. The weight defrost setting is perfect for safely thawing meat or leftovers when time and energy are limited.

Its compact size and efficient 700W output make it ideal for off-grid travel, low-amp parks and shared power setups.

- ✓ Even heating from a rotating turntable
- ✓ Auto Defrost by weight or time for flexibility
- ✓ Multi-Stage Cooking Menu to fine-tune meals
- ✓ Power Level Adjustment with instant cook settings
- ✓ Compact design fits perfectly in tight RV kitchens
- ✓ Child Safety Lock for added protection
- ✓ Black Powder-coated steel frame for durability
- ✓ Quick installation with flush mounting
- ✓ Provides a finished look by hiding raw cabinet edges

Travel Wash 2.5 kg Front Loader

Caravan-Ready Washing with Compact Convenience

Floor Bracket
Sold Separately

This fully automatic front-loading washing machine is designed for caravans, motorhomes and compact living.

With RV-ready features and a durable build, it delivers reliable washing power in a small footprint. Six wash programs, including Quick Wash, Hi-Temp and Drum Clean, keep laundry fresh and hygienic wherever you travel.

Running on a standard 10A plug and suitable for low water pressure, it is practical, efficient and ready for the road.

The optional floor bracket system secures the unit during travel. Purpose-built to save water, it uses only 24 to 26 litres on a cotton cycle compared to up to 60 litres in similar top-loaders.

Smart Travel Tip

Save water and power without compromising on cleanliness. The Quick Wash program refreshes lightly soiled gear in minutes, while the Hi-Temp cycle ensures hygienic results when you need a deeper clean.

Why It's Great for RV Life

Compact yet capable, this washer fits neatly into RVs, vans and cabins without taking up valuable space. It runs reliably even with low water pressure, uses a standard 10A plug and is designed for simple installation, perfect for off-grid or shared power setups.

Key Features

- ✓ 2.5kg capacity, ideal for small loads on the road
- ✓ Water-saving design uses only 24–26L per cotton cycle
- ✓ Six wash programs: Cotton, Quick Wash, Soft, Hi-Temp, Spin, Drum Clean
- ✓ Hi-Temp mode for hygienic hot-water cleaning
- ✓ Delay Start (3 to 19 hours) to suit your schedule
- ✓ Child Lock, auto shut-off and error code display for safety
- ✓ Fuzzy Logic Control for smooth, quiet operation
- ✓ Self-cleaning Drum Clean cycle keeps the washer fresh
- ✓ Floor bracket system secures the machine during travel

Automatic Mini Washers 2.6 kg & 3.3 kg

Compact, convenient laundry for life on the move

Never wait for the caravan park laundry again. The Sphere Automatic Mini Washing Machines bring everyday convenience to your travels, letting you wash on your schedule wherever the road takes you.

Designed for RV life, these compact units come in 2.6kg and 3.3kg capacities and feature multiple wash and spin cycles for versatile cleaning in tight spaces. Whether it is a quick rinse or a full load, the simple control panel makes operation easy.

With a sleek white finish, stainless steel wash tub, & RV-ready design, these machines are practical, durable, and easy to store. The 2.6kg model includes a durable lint filter, while the 3.3kg model comes with upgraded hoses with stainless steel clamps and a redesigned carry basket with locking clips.

Smart Travel Tip

Pack lighter and travel longer. With a mini washer onboard, you can wash as you go and free up valuable storage space.

Why It's Great for RV Life

These mini washers are built with travellers in mind. Lightweight, space-efficient and user-friendly, they offer the freedom to manage laundry anywhere with a reliable 240V connection.

Model Notes: 2.6 kg includes durable lint filter similar to domestic standards; 3.3 kg includes new hoses with stainless steel clamps and carry basket.

Key Features

- ✓ Easy-to-use control panel with multiple wash cycles
- ✓ Compact size ideal for tight RV spaces
- ✓ Durable stainless steel wash tub
- ✓ Quick wash option (approx. 7 minutes)
- ✓ Full wash cycle (approx. 38 minutes)
- ✓ Time display with out-of-balance sensor
- ✓ Cold water connection only
- ✓ Left or right-side drainage hose outlet
- ✓ 2.6kg model: includes durable lint filter
- ✓ 3.3kg model: includes new hoses and carry basket

SPHERE®
S9 TV with Soundbar, Smart Stick & DVD

Watch anywhere with or without Wi-Fi

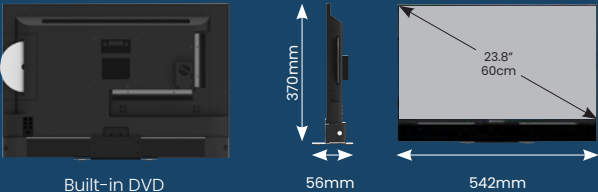

SPHERE TVS

Enjoy streaming with the included Google TV Smart Stick or play your favourite discs with the integrated DVD player. The Full HD LED panel and built-in soundbar deliver clear, immersive visuals and audio, while OTA updates via Wi-Fi keep apps and firmware current.

The integrated 4×10W soundbar provides deeper bass, crisp highs, and fuller mids for rich, room-filling sound with minimal distortion. This makes the S9 DVD model a major upgrade for caravan entertainment.

Designed for RV life, it features Vibration-Smart construction, 12V and 240V dual-power support, a 240V adapter, and a 3 m 12V cable, giving you flexible viewing wherever you travel.

Smart Travel Tip
Carry a few DVDs for easy offline viewing.

Why It's Great for RV Life
One unit for streaming and discs saves space and power.

Key Features

- ✓ Full HD 1920×1080 LED panel
- ✓ Google TV Smart Stick with preloaded apps
- ✓ Integrated DVD player for entertainment without internet
- ✓ Built-in 4×10W soundbar for powerful, crisp audio
- ✓ OTA app and firmware updates for easy maintenance
- ✓ Vibration-Smart design for road use
- ✓ Compatible with 12V and 240V power
- ✓ Includes 240V adapter and 3m 12V cable
- ✓ Includes TV stand for flexible setup
- ✓ VESA mount compatible 100 × 100mm

Compact Omnidirectional Antenna Kit VHF & UHF

Reliable TV reception for your RV, wherever the road takes you

Stay connected to your favourite TV channels wherever you travel with the SPHERE Compact 12V Omnidirectional Antenna Kit. Compact yet powerful, it delivers dependable VHF and UHF reception without bulky hardware or constant adjustments.

Its low-profile 237.5mm design saves valuable rooftop space, while the durable, weather-resistant housing stands up to tough Australian conditions. Built for RVs, it supports both horizontal and vertical UHF signals and boosts reception with a built-in 20dB amplifier.

Designed for simple roof installation, the kit includes a vertical screw-on antenna, 5m coaxial cable, mounting screws and gasket, plus an interior 12V power plate with F-type TV connection. Everything you need for fast, reliable setup.

Smart Travel Tip
No need to reposition after setup, just park and relax while the antenna locks on to available signals automatically.

Why It's Great for RV Life
Compact, durable, and easy to install, this antenna delivers reliable reception in remote or urban areas. Its discreet profile and omnidirectional design make it a practical choice for modern RVs with limited roof space.

- Key Features**
- ✓ Compact 237.5mm profile, saves space on RV rooftops
 - ✓ Omnidirectional signal reception, no manual adjustment required
 - ✓ 20dB amplified gain for stronger VHF and UHF reception
 - ✓ Handles both horizontal and vertical UHF signals
 - ✓ 12V DC powered, integrates with RV electrical systems
 - ✓ Weather-resistant and vibration-tested for travel
 - ✓ Easy roof mounting, bracket, screws and gasket included
 - ✓ Interior power plate with 12V DC outlet and F-type TV connection

Specifications	
Voltage	12V DC
Amplification	20dB
Polarisation	Horizontal & Vertical (UHF only)
Impedance	75 Ohm
Connector	IEC(M)
Cable	5m RG-6 coaxial included
Mounting	Roof-mount bracket with screws & gasket
Height	237.5mm

AM/FM Rubber RV Antenna 36cm – 50 Ohm

Clear AM/FM reception made simple for RV travel

Stay connected to your favourite radio stations wherever your travels take you with the SPHERE AM/FM Rubber RV Antenna. Its omni-directional design ensures strong AM/FM reception without constant adjustments, so you can enjoy clear signals on the road. Compact and flexible, the 36cm rubber antenna is built to handle the bumps and vibrations of RV travel. Designed for roof or wall installation, it supports mounting depths up to 35mm and includes a 2m cable for easy connection. A straightforward solution to boost your RV's onboard entertainment system.

- Smart Travel Tip**

Install once and enjoy hands-free radio wherever you stop, no adjustment needed when changing locations.
- Why It's Great for RV Life**

Omni-directional signal pickup means fewer dropouts when travelling. Its compact size and simple setup make it ideal for retrofits or new builds in tight RV spaces.

- Key Features**

- ✓ Omni-directional AM/FM signal reception
 - ✓ Flexible 36cm rubber antenna
 - ✓ Suitable for roof or wall mounting (up to 35mm depth)
 - ✓ Includes 2m antenna cable for convenient setup
 - ✓ 50 Ohm impedance for optimal performance
 - ✓ Vibration-ready for RV and mobile use

Single DIN Audio Head Unit Wireless Connect & USB

Listen on the road or off-grid, with or without cables

SPHERE AUDIO

Bring your favourite music along for the ride with the Sphere Single DIN Audio Head Unit. Designed for RVs, camper trailers and vehicles using the Single DIN format, this compact stereo delivers crisp, customisable audio through four 25W channels.

Whether you're parked at a campsite or cruising off-grid, enjoy music your way via Bluetooth, USB, AUX or AM/FM radio. The bright LCD display makes control simple, and built-in EQ options let you tailor the sound to suit your journey.

Smart Travel Tip
Save your favourite radio stations before hitting the road so you can quickly retune as you travel between towns and remote regions.

Why It's Great for RV Life
The Single DIN format fits seamlessly into a wide range of RV dashboards. Paired with wireless streaming and versatile input options, it's ideal for off-grid setups, road trips, and campgrounds with shared power.

- Key Features**
- ✓ Wireless Connect (Bluetooth operation)
 - ✓ USB input for music playback
 - ✓ AUX jack for direct connection
 - ✓ AM/FM radio with programmable pre-sets
 - ✓ 25W x 4 channel output for clear sound
 - ✓ Clear LCD display
 - ✓ Sound customisation with pre-set EQs: Flat, Rock, Pop, Classical
 - ✓ Manual 9-band audio control
 - ✓ Compact Single DIN size ideal for RV dashboards

Dimensions (mm)	178(W) x 87(H) x 50(D)

SPHERE®
Ultra Slim-Mount Indoor & Outdoor Speakers

Sleek, space-saving speakers designed for immersive RV sound indoors and out

Enjoy rich, balanced sound in a sleek, low-profile design. With minimal protrusion and easy installation, these speakers are ideal for upgrading your RV audio indoors or outdoors. These sleek 6.5" units come in white or black, with dedicated indoor and IP56-rated outdoor models, offering reliable performance without compromising space or style.

The ultra-slim 25mm mounting depth makes installation simple in ceilings, panels or exterior walls, while the dual cone design provides rich, full-range audio. Whether you're winding down inside or entertaining under the awning, these speakers deliver clarity, durability and seamless integration into your RV setup.

Smart Travel Tip
Mount outdoor speakers near your awning to enjoy your favourite tunes around the campsite without relying on portable systems.

Why It's Great for RV Life
With a low-profile design, rugged materials and a clean aesthetic, these speakers fit perfectly in compact spaces and are built to perform wherever the road takes you.

SPHERE®

Viento Fan & Light with USB-A & USB-C Outputs & Remote

Cool down or light up anywhere with or without power

A product shot of the Sphero Viento fan and light. On the left is the white version, and on the right is the black version. Both have a circular design with a central fan and a light ring. A small remote control with a red button and several function icons is placed between them.

Keep cool wherever you are. The Viento fan delivers quiet, powerful airflow with adjustable speed and direction. With 12/24V operation, it's ideal for caravans, motorhomes and off-grid living where power efficiency and space-saving design matter.

Built for convenience, the VIENTO includes a programmable timer, infrared remote, and dual USB charging ports to keep your devices powered while you cool down. The white and amber night light adds a gentle glow, perfect for evenings inside your RV.

Whether you're off-grid or on the move, the VIENTO delivers comfort and style in a compact, RV-ready design.

A lifestyle photograph showing a man and a woman sitting at a table inside an RV. The man is holding a glass of beer and looking at a brochure. The woman is also looking at the brochure. In the background, there is a bed with a white headboard and a small Sphero Viento fan mounted on the wall.

Smart Travel Tip
Use the built-in timer and night light together for hassle-free overnight comfort without draining power, great for warm evenings off-grid.

Why It's Great for RV Life
Runs on 12V or 24V with built-in USB ports, making it ideal for low-power setups while doubling as a cooling fan and a light in one compact unit.

Key Features

- ✓ 12/24V power input for RV and off-grid compatibility
- ✓ USB-A & USB-C charging ports (5V/2A), compatible with Android & iOS devices
- ✓ Infrared remote control for easy adjustments
- ✓ 3-speed fan with programmable timer (3, 6, 9, or 12 hrs)
- ✓ Quiet operation with soft rubber safety blades
- ✓ Dual-mode night light (white & amber)
- ✓ Sleek, lightweight design
- ✓ Available in Black or White

SPHERE®

INFRHEAT RV Outdoor Heater with Remote Control

Reliable warmth for outdoor RV living, day or night

Stay warm in comfort during outdoor adventures. This infrared heater delivers efficient, even heat with adjustable settings and a sleek, weather-resistant design. Its 2000W infrared technology delivers direct, wind-resistant heat to people and surfaces, perfect for cool evenings.

Built for outdoor use, it comes with a quick-release bracket for easy mounting and a remote control with 6m range. With IP65 weather protection, overheat safety, and lightweight construction, it's ideal for caravans, campers, and alfresco setups. Remove before travel and maintain safe clearances, especially near canvas or vinyl.

Smart Travel Tip
Mount the heater under your awning to stay warm during early mornings or cool nights without lighting a fire. The remote lets you stay cosy without leaving your chair.

Why It's Great for RV Life
Weatherproof, lightweight, wind-resistant, and with no exposed flame, it's made for caravan annexes and alfresco setups. Minimal clearance requirements make it easy to position for safe and comfortable use.

- Key Features**
- ✓ 2000W infrared heat for fast, direct warmth
 - ✓ Remote control with 6m range
 - ✓ Quick-release bracket for simple install and storage
 - ✓ IP65 dust and water resistant
 - ✓ Overheat protection for safety

Specifications	
Voltage	220–240V
Weight	2.4kg
Heat Angle	60° ±5°
Mounting Clearances	Min 1.8m height, 0.5m from ceiling, 1.0m from walls, 1.5m from canvas/vinyl
