With a low-profile design, and available in 2 models, the dual-motor design ensures quiet operation, powerful performance and efficient power consumption for both cooling and heating modes.

The Furrion rooftop models are equipped with Furrion's unique Vibrationsmart™ technology, making them able to withstand a wide range of road conditions, and with Climatesmart™ technology, they can operate efficiently and effectively in a variety of temperatures. So, if you want an air conditioner that's reliable, powerful, and designed to meet your unique RV needs, the Furrion Rooftop Air Conditioner is the perfect choice.

- The Low-profile design promotes energy savings
- Dual-motor system ensures quiet operation
- Adaptable control provides auto, cool, heat, fan and dehumidify settings
- Remote control for convenient temperature adjustment
- Low profile air distribution box with LED strip is unobtrusive in interior ceiling space
- Vibrationsmart™ technology to withstand varying degrees of road conditions
- Climatesmart™ technology to ensure operation in a wide range of operating temperatures
