

# MOBILE WIFI ROUTER

The Sphere 4G WiFi Router with GPS product gives you the flexibility of surfing the internet with ease on your travels. By inserting a SIM card, the router provides protected internet access for your family and friends.

With the in-built flash drive USB sharing feature, you will also be able to stream movies, videos, music and other file types over the router WiFi signal without consuming any data. The GPS feature allows you to obtain the location of the caravan at any time! Giving you the comfort and security to locate your caravan or motorhome when necessary.
