

TIRE LINC®

TYRE PRESSURE AND TEMPERATURE MONITORING SYSTEM (TPMS)

ALWAYS BE READY FOR THE ROAD

Is your RV ready for the road? The Tire Linc by Lippert is the easy-to-install, always-on tyre pressure and temperature monitoring system that makes sure you're always ready for the road. Integrated with Lippert's OneControl® app, you can monitor your 5th wheel RV, travel trailer, motorhome or towed vehicle's tyre pressure and temperature right from your smartphone — don't mess with additional dashboard interfaces again.

Before a trip, on the road and in any weather conditions, make sure you know the state of your tyres, with the monitoring system from a manufacturer you trust.

Whenever, wherever, we make your experience better.

ALWAYS BE READY FOR THE ROAD

Constant monitoring

Sensors update pressure and temperature several times each minute while your RV is moving and check every 15 minutes while parked. Notifications sent any time the tyres inflate, deflate or in the case of a blowout

Repeater boosts signal

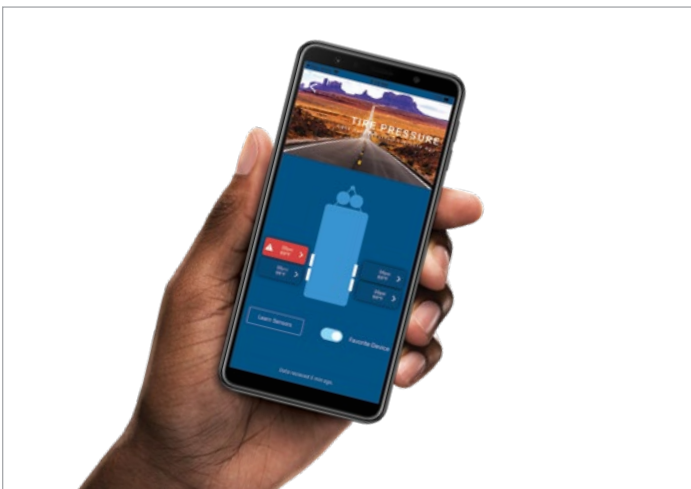

Repeater technology 'repeats' the signal your sensors send, but stronger, so that your smartphone always has the most up-to-date information

Monitor more tyres

Monitor up to 20 tires at a time with your Tire Linc system. Our additional sensor packs (sold separately) are a perfect way to monitor all tyres on larger RVs, motorhomes and tow vehicles

Integration with the OneControl® app

Manage your sensors, set tyre pressure ranges, get notifications, and view alerts all from your smartphone with the OneControl app from Lippert

Additional Features

- Monitors and alerts drivers of high or low tyre pressure and temperature
- Easy, do-it-yourself installation
- Works with OneControl app on iOS and Android devices
- OneControl app allows users to enter the manufacturer's suggested PSI range for each tire
- Kit includes four sensors and can also monitor up to 20 tyres simultaneously
- Additional sensors are available for purchase and can track tyres on additional towed vehicles or large RVs with more than four tyres
- Repeater technology strengthens wireless signal in order to easily reach the tow vehicle
- Sensors come with CR1632 batteries (replaceable)

The Tire Linc® Range
